Federal Communications Commission,1972 *The Master Architects* Richard Hume Werking,2021-12-14 During the twenty years before World War I several key figures worked to improve the foreign service and to reform its appointment system Richard Hume Werking explores both the methods and the motives of these master architects Unlike other scholars Werking finds that the foundations and general structure of the United States foreign service emerged before World War I He sees its development as prompted less by foreign crises than by economic conditions particularly the need to stimulate export trade Indispensable to its growth were the dedicated efforts of bureaucrats who were loyal to national interests but wished the opportunity to do interesting work and to receive recognition when they did it well **Technical Report , Federal Communications Commission Reports. Federal Communications Commission,1992 Political Manhood Kevin P. Murphy,2008-07-02 In a 1907 lecture to Harvard undergraduates Theodore Roosevelt warned against becoming too fastidious too sensitive to take part in the rough hurly burly of the actual work of the world Roosevelt asserted that colleges should never turn out mollicoddles instead of vigorous men and cautioned that the weakling and the coward are out of place in a strong and free community A paradigm of ineffectuality and weakness the mollicoddle was all inner life whereas his opposite the red blood was a man of action Kevin P Murphy reveals how the popular ideals of American masculinity coalesced around these two distinct

categories Because of its similarity to the emergent homosexual type the mollicoddle became a powerful rhetorical figure often used to marginalize and stigmatize certain political actors Issues of masculinity not only penetrated the realm of the elite however Murphy s history follows the redefinition of manhood across a variety of classes especially in the work of late nineteenth century reformers who trumpeted the virility of the laboring classes By highlighting this cross class appropriation Murphy challenges the oppositional model commonly used to characterize the relationship between political machines and social and municipal reformers at the turn of the twentieth century He also revolutionizes our understanding of the gendered and sexual meanings attached to political and ideological positions of the Progressive Era

Pensions Imperilled Craig Berry,2021-01-11 Private pensions provision in the UK is in crisis yet it is not the crisis often depicted in political and popular discourses While population ageing has affected traditional pensions practice the imperilment of UK pensions is due in fact to the peculiar way policy makers have responded to wider social and economic change Pensions are a mechanism for managing failed futures yet this function is being impeded by the individualization of provision This book offers a political economy perspective on the development of private pensions focusing specifically on how policy elites have sought to respond to perceived crises of demographic change under saving and fund deficits and in doing so have absorbed imperatives to subject individuals to a market led regime under the influence of neoliberal ideology This terrain is explored through chapters on the historical and comparative context of UK pensions provision the demise of collectivist provision the rise of pensions individualization and the state s role as facilitator and regulator in this regard and the financial and economic context in which pensions provision operates By placing the UK system in a comparative context of pensions reform agendas across the world this book offers an original understanding of the unique temporality and materiality of pensions provision as a set of mechanisms for coping with generational change and forecast failures in capitalist economies It also presents a nuanced account of the extent to which the state acts to anchor the process of pensions rematerialization and crucially concludes by outlining a coherent and radical programme of progressive pensions reform
