Environments by Design deeply explores today's workplace learning. This book empowers you to customize learning for your workforce and unearths the answers to the questions you've been asking: How does learning happen? What is the future of instructional design? What makes learning environments work? Since the boom of e-learning, informal learning, and social learning, the learning environment landscape has changed dramatically and now offers a wide array of options for supporting knowledge and skill development at work. In this book, learning strategist Catherine Lombardozzi describes practical ways to customize learning experiences by creating a curated approach to skills development, one that features informal and social learning, developmental activities, experiential learning, as well as formal training. Authored by a career learning professional with more than 30 years' experience, *Learning Environments by Design* is filled with useful examples, resources, and suggested learning environment blueprints to help you continue to be successful in a field that is forever changing. In this book, you will learn to design a learning environment that supports learning and performance, deliver more focused and impactful solutions to learning needs, scaffold self-directed and social learning.

Research Anthology on Adult Education and the Development of Lifelong Learners Management Association, Information Resources, 2021-03-19. Whether it is earning a GED, a particular skill, or technical topic for a career, taking classes of interest, or even returning to begin a degree program or completing it, adult learning encompasses those beyond the traditional university age seeking out education. This type of education could be considered non-traditional as it goes beyond the typical educational path and develops learners that are self-initiated and focused on personal development in the form of gaining some sort of education. Essentially, it is a voluntary choice of learning throughout life for personal and professional development. While there is often a large focus towards K-12 and higher education, it is important that research also focuses on the developing trends, technologies, and techniques for providing adult education along with understanding lifelong learners' choices, developments, and needs. The *Research Anthology on Adult Education and the Development of Lifelong Learners* focuses specifically on adult education and the best practices, services, and educational environments and methods for both the teaching and learning of adults. This spans further into the understanding of what it means to be a lifelong learner and how to develop adults who want to voluntarily contribute to their own development by enhancing their education level or knowledge of certain topics. This book is essential for teachers and professors, course instructors, business professionals, school administrators, practitioners, researchers, academicians, and students interested in the latest advancements in adult education and lifelong learning.
