universities now provide courses using these methods Today's students though are demanding high quality consumer focused and flexible courses as well as learning resources and active learner support This means that providers of distance education need to reconsider key issues about their learner support systems ensuring that this is delivered appropriately and effectively Considering the changing needs and demands of distance education students this book draws together contributions from the UK USA Hong Kong Australia Japan South Africa and Botswana to offer an international perspective on the challenges and opportunities of Information and Communication Technologies ICT quality assurance commercialisation and the learner as consumer the impact on learners of cultural differences on internationalised curricula the implications for learner support of a wider range of learners This book should be read by all those involved in developing and delivering distance education courses

**Rethinking Disability and Mathematics** Rachel Lambert, 2024-04-08 Every child has a right to make sense of math and to use math to make sense of their worlds Despite their gifts students with disabilities are often viewed from a deficit standpoint in mathematics classrooms These students are often conceptualized as needing to be fixed or remediated Rethinking Disability and Mathematics argues that mathematics should be a transformative space for these students a place where they can discover their power and potential and be appreciated for their many strengths Author Rachel Lambert introduces Universal Design for Learning for Math UDL Math a way to design math classrooms that empowers disabled and neurodiverse students to engage in mathematics in ways that lead to meaningful and joyful math learning The book showcases how UDL Math can open up mathematics classrooms so that they provide access to meaningful understanding and an identity as a math learner to a wider range of students Weaved throughout the book are the voices of neurodiverse learners telling their own stories of math learning Through stories of real teachers recognizing the barriers in their own math classrooms and redesigning to increase access the book Reframes students with disabilities from a deficit to an asset perspective paving the way for trusting their mathematical thinking Offers equitable math instruction for all learners including those with disabilities neurodiverse students and or multilingual learners Applies UDL to the math classroom providing practical tips and techniques to support students cognitive affective and strategic development Immerses readers in math classrooms where all students are engaged in meaningful mathematics from special education day classes to inclusive general education classrooms from grades K 8 Integrates research on mathematical learning including critical math content such as developing number sense and place value fluency with math facts and operations and understanding fractions and algebraic thinking Explores critical issues such as writing IEP goals in math This book is designed for all math educators both those trained as general education teachers and those trained as special education teachers The UDL Math approach is adapted to work for all learners because everyone varies in how they perceive the world and in how they approach mathematical problem solving When we rethink mathematics to include multiple ways of being a math learner we make math accessible and engaging for a wider group of learners

Community Series: Towards a Meaningful Instrumental

Music Education. Methods, Perspectives, and Challenges – Volume II Andrea Schiavio, Marja-Leena Juntunen, Dylan van der Schyff, Luc Nijs, 2024-02-26 Trying to understand the complex interplay between effective learning and personal experience is one of the main challenges for instrumental music education Much of the research that focuses on effective learning outcomes often adopts experimental methodologies that do not allow for a thorough examination of the subjective and social processes that accompany each student's musical journey on the contrary contributions dedicated to the detailed analysis of the learners' lived experience often do not offer generalizable outcomes to different types of learning and teaching

**Rethinking Social Studies Teacher Education in the Twenty-First Century** Alicia R. Crowe, Alexander Cuenca, 2015-11-26 In this volume teacher educators explicitly and implicitly share their visions for the purposes, experiences and commitments necessary for social studies teacher preparation in the twenty-first century It is divided into six sections where authors reconsider 1 purposes 2 course curricula 3 collaboration with on-campus partners 4 field experiences 5 community connections and 6 research and the political nature of social studies teacher education The chapters within each section provide critical insights for social studies researchers, teacher educators and teacher education programs Whether readers begin to question what are we teaching social studies teachers for, who should we collaborate with to advance teacher learning or how should we engage in the politics of teacher education, this volume leads us to consider what ideas, structures and connections are most worthwhile for social studies teacher education in the twenty-first century to pursue

**Languaging Experiences** Hadrian Lankiewicz, Emilia Wąsikiewicz-Firlej, 2014-04-11 This book is dedicated to the notion of languaging which has recently gained recognition across many disciplines From philosophy to linguistics the foundations of the concept rest on the assumption that language is a way of knowing making personal sense of the world becoming conscious of oneself and a means of creating one's identity The very notion of languaging is still a fresh and unexplored concept in applied linguistics and deserves careful scrutiny For this reason the volume is      *Profession*, 1994
