Getting In Inside The College Admissions Process:

Getting in Bill Paul, William Henry Paul, 1995-01 Following five Princeton hopefuls through the admissions process and consulting with the Princeton dean of admissions a Princeton alumnus who assists in student selection provides insights and tips for applicants

Getting In Bill Paul, 1997-03-24 With the crisp pacing of a suspense novelist veteran reporter Bill Paul follows five high school honor students and the dean of admission at Princeton through each step of the college admissions process As the narrative unfolds we watch the students successes and blunders as they ponder where to apply write and rewrite their essays endure alumni interviews agonize over early decision and anxiously await the April delivery of the hoped for thick envelope that means acceptance or the dreaded thin envelope that contains a curt rejection What emerges is the clearest picture ever of this complex frustrating and highly imperfect process and how it truly works

Getting Into College Gail Hall Zarr, 2003 Getting into college can be a long mind boggling process but this guide will walk you through the application maze so that you choose the right school and get accepted Find out what part of the preparation is the student s job and what the parents should handle Use the timeline to learn what to do and when understand the difference between regular and rolling admissions and be able to make an informed decision on early admissions See how to pare down your selection ace the entry tests and write a stellar essay Learn in advance what to expect at an admissions interview and the ins and outs of financial aid And there s more because here is great advice on what really happens that first semester

Leveling the Playing Field Robert K. Fullinwider, Judith Lichtenberg, 2004-03-19 Leveling the Playing Field examines the admissions policies of contemporary American colleges and universities in light of the assumption that enhancing the educational opportunities of lower income and minority students would make American society more just It asks how current admissions policies affect the prospects of such students and it evaluates alternative approaches The book treats a variety of topics relevant to answering these questions What does it mean to reward people according to merit Is the American system of higher education a meritocracy and should it be How do the missions of contemporary institutions of higher education bear on admissions What are the implications of the Supreme Court s landmark affirmative action decisions of 2003 What is the proper role and significance of standardized tests like the SAT How does lower education prepare students or fail to for higher education In answering these questions the book examines legacy preference early admissions policies financial aid the test prep industry college counseling and athletics evaluating their effects on the distribution of higher education in the United States not only for lower income and minority students but for college bound students in general

The Making of Princeton University James Axtell, 2021-03-09 In 1902 Professor Woodrow Wilson took the helm of Princeton University then a small denominational college with few academic pretensions. But Wilson had a blueprint for remaking the too cozy college into an intellectual powerhouse. *The Making of Princeton University* tells for the first time the story of how the University adapted and updated Wilson's vision to transform itself into the prestigious institution it is today. James Axtell brings the methods and insights from his extensive work in ethnohistory to the collegiate realm focusing especially on one of Princeton's most distinguished features its unrivaled reputation for undergraduate education. Addressing admissions the curriculum extracurricular activities and the changing landscape of student culture the book devotes four full chapters to undergraduate life inside and outside the classroom. The book is a livelywarts and all rendering of Princeton's rise addressing such themes as discriminatory admission policies the academic underperformance of many varsity athletes and the controversial bicker system through which students have been selected for the University's private eating clubs. Written in a delightful and elegant style *The Making of Princeton University* offers a detailed picture of how the University has dealt with these issues to secure a distinguished position in both higher education and American society. For anyone interested in or associated with Princeton past or present this is a book to savor.

Who Gets In and Why Jeffrey Selingo, 2020-09-15 From award winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office one that identifies surprising strategies that will aid in the college search. Getting into a top ranked college has never seemed more impossible with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why* journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a good college. Hint it's not all about the sticker on the car window. Selingo who was embedded in three different admissions offices a selective private university a leading liberal arts college and a flagship public campus closely observed gatekeepers as they made their often agonizing and sometimes life changing decisions. He also followed select students and their parents and he traveled around the country meeting with high school counselors marketers behind the scenes consultants and college rankers. While many have long believed that admissions is merit based rewarding the best students *Who Gets In and Why* presents a more complicated truth showing that who gets in is frequently more about the college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions admissions officers often make split second decisions based on a variety of factors like diversity money and ultimately whether a student will enroll if accepted. One of the most insightful books ever about getting in and what higher education has become *Who Gets In and Why* not only provides an unusually intimate look at how

admissions decisions get made but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests **Princeton Alumni Weekly** Jesse Lynch Williams, Edwin Mark Norris, 1995
