show you a nice little road map covering all the bases within the employment process From cradle to grave I hate that term Anyway this road map will be what you will need to do step by step to put yourself into the best position to get the career you wish to pursue These ideas come from a recruiter s perspective I have spent time in staffing and in human resources both as a contractor and permanent employee and learned a lot The thing I learned most from the inside is what hiring managers are thinking What they are looking for in a candidate and more specifically what they re not From what types of resumes are being looked at these days and yes there are ways to easily get yours thrown into the trash even if you have the skills if you don t present them properly to recruiter blacklists that can permanently take you out of the entire recruiting process for companies you may be targeting Some of the topics I cover may inspire additional research on your end That would be nice Some might lead to an entirely new way of setting priorities developing and managing your schedule making task lists and networking full time That would be the goal Some of this information may build you an entirely new perspective on your life That would be flattering I m not going to change your entire life with this book as some career experts preach I mean I will still be giving it a sincere chance Piggybacking I hate that term off that second notion the goal is to recreate your way of living because some of you might not know exactly what to do each day when you re not being told by some superior Some of you are already taskmasters and already organize your daily routine on your calendars That s half the battle To those folks this book will help with suggestions about what to plug into that eight hour day Enough with all these I s now Let s get to you This book isn t going to do the job for you Like a screenplay you have to find the right spot to begin your tale Where in your life do we start Some of you might be employed pro active job seekers Some of you might have just receiving their first pink slip after working at the same company for the last 30 years and can t face retirement yet Let s cover everything
