The Power of the Prosecutor Joan E. Jacoby,Edward C. Ratledge,2016-01-11 In this book readers will take a fascinating journey with local prosecutors as they seek to obtain reasonable and appropriate case dispositions while preventing abuse and misuse of the law and protecting the civil rights of their jurisdictions Prosecutors have a powerful and generally little understood role in the criminal justice system Their important powers include accepting or rejecting cases making decisions about dismissing charges or moving cases to disposition and recommending a sentence all of which can critically affect not only individuals but society through their ability to shape our criminal justice system The Power of the Prosecutor Gatekeepers of the Criminal Justice System explores the real world actions and outcomes of local prosecutors through five well known cases documenting the variety of pressures prosecutors face both within and outside their offices as they attempt to make the best decisions about crimes and defendants Written by individuals who have actively engaged prosecutors in practically every U S state over 30 years time the book examines actual case profiles that enable readers to witness how prosecutors reach their behind the scenes decisions and grasp how the criminal justice system operates The authors explain the variations in prosecution including the effects of policies and priorities action choices available and the types of both internal and external relationships with other participants in the system the police the courts the defense counsel and the community they represent Readers will come away with in depth knowledge and understanding of the complexities and pressures faced by prosecutors in upholding justice under a wide variety of conditions **Distributive Justice** Fred Feldman,2016-07-07 This book presents and defends a novel theory of distributive justice according to which political economic distributive justice reigns in a state if the government of that state ensures that citizens receive the benefits and burdens they deserve from it The book starts with a more precise characterization of the target of this inquiry political economic distributive justice It then proceeds to explicate the concept of desert evaluate proposed ways of justifying desert claims formulate a number of desertist theories of justice and draw out the special features of the version defended here Once the proposed form of desertism has been stated its implications are compared to those of egalitarianism luck egalitarianism sufficientism the difference principle libertarianism and prioritarianism with the aim of showing that desertism yields more attractive results in cases that prove difficult for other theories currently being discussed in the literature Arguments especially arguments deriving from Rawls against desertism are explained and shown to be ineffective There is discussion of the distinction between comparative and non comparative justice Emphasis is placed on the distinction between a theories about the moral rightness of distributions b theories about the intrinsic value of distributions and c theories specifically about the justice of distributions There is discussion of the unfortunate results of confusion of these

different sorts of theory The views of Rawls Nozick Parfit Frankfurt Feinberg and others are discussed A version of the method of reflective equilibrium is explained and defended The book concludes with a series of admissions concerning puzzles that remain unsolved

International Perspectives on Consumers' Access to Justice Charles E. F. Rickett, Thomas G. W. Justice in Young Adult Speculative Fiction Marek C. Oziewicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziewicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziewicz explains how poetic retributive restorative environmental social and global types of

justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children s and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres It demonstrates that the justice imperative is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges
