I'm Not Getting Them Ready for Kindergarten Kristen Day,2024-12-30 Teachers don t have to cut out penguin beaks anymore You can put your weather bear back in the cupboard or bring it outside and you can take the behavior chart off the wall This book is your permission slip to break up with outdated and ineffective practices in your early childhood classroom and replace them with the magic of play based learning This helpful guide challenges outdated preschool practices in a kind and compelling way inviting you to

reflect on your own practices and adjust them based on current research and what is truly developmentally appropriate for young children. It provides tools and language to use to show the people outside your classroom—parents, administrators, other teachers, down the hall—that play is learning. Each chapter is practical, conscience, and meant to be read in the order and at the pace that is best for you and your class. Full of stories from the author's own play journey, *I'm Not Getting Them Ready for Kindergarten* is key reading for early childhood educators who are ready to step outside the restrictions of an unnecessarily academic system and settle into the magic of play and child-led learning. *Dart for Absolute Beginners* David Kopec, 2014-06-30 Dart for Absolute Beginners enables individuals with no background in programming to create their own web apps while learning the fundamentals of software development in a cutting-edge language. Easily digested chapters, while comprehensive enough to explore the whole domain, are aimed at both hobbyists and professionals alike. The reader will not only gain an insight into Dart but also the technologies behind the web. A firm foundation is laid for further programming studies. Dart is a new innovative language developed by Google which is poised to take the web by storm. For client-side web app development, Dart has many advantages over JavaScript. These include but are not limited to improved speed, enforcement of programmatic structure, and improved facilities for software reuse. Best of all, Dart is automatically converted to JavaScript so that it works with all web browsers. Dart is a fresh start without the baggage of the last two decades of the web. Why start learning to program with yesterday's technology? Teaches you the fundamentals of programming and the technologies behind the web. Utilizes the cutting-edge, easy-to-learn, structured Dart programming language so that your first steps are pointed towards the future of web development. No prior knowledge is required to begin developing your own web apps. *Pastor on Track* Emanuel Cleaver III, 2014-04-15 So often pastors are defined by external forces rather than by the essential nature of the pastoral leader as modeled in scripture. Taking positive steps to put pastors on track, author Emmanuel Cleaver III draws on his own experiences and from dynamic and effective pastors and churches across the country. He presents biblical models to distill his message and to recalibrate the definition of what makes the best church leaders. *Pastor on Track* helps clergy re-frame their congregation's expectations and to empower them to do the work of the people so the pastor can do the work of the pastor. **Educational Technology and Curriculum** Sebastian Kennedy, 2018-12-01 This book introduces how technology is essential for teaching/learning process in today's world. Educational technology, especially computers and computer-related peripherals, have grown tremendously and have permeated all areas of our lives. Given the vital role of technology in today's world, this critical issue will examine the value of effective technology use in classrooms/curriculum. Educational technology is a field involved in the facilitation of human learning through systematic identification, development, organization, and utilization of a full range of learning resources and through the management of these processes. Educational technology is a complex, integrated process involving people, procedures, ideas, devices, and organization for analyzing problems and devising, implementing, evaluating, and managing solutions to those problems.

involved in all aspects of human learning Instructional technology is the theory and practice of design development utilization management and evaluation of processes and resources for learning Curriculum can be envisaged from different perspectives What societies envisage as important teaching and learning constitutes the intended curriculum Information and communication technology has quickly become a key part of the infrastructure of classrooms and schools From preschool to higher education computers laptops smartphones smart boards and tablets are powerful mediums through which to get information and communicate In the 21st century technology plays a role in every facet of education as students teachers and administrators turn to their computers to access information create and express themselves communicate and collaborate and track the achievement of learning outcomes
