Getting Blue:

Turning Texas Blue Mary Beth Rogers, 2016-01-19 In the 2014 midterm election Democrats in Texas did not receive even 40 percent of the statewide vote Republicans swept the tables both in Texas and nationally But even after two decades of democratic losses there is a path to turn Texas blue argues Mary Beth Rogers if Democrats are smart enough to see and follow it Rogers is the last person to successfully campaign manage a Democrat Governor Ann Richards to the statehouse in Austin In a lively narrative Rogers tells the story of how Texas moved so far to the right in such a short time and how Democrats might be able to move it back to the center And argues Rogers that will mean a lot more of an effort than simply waiting for the state s demographics to shift even further towards Hispanics a risky proposition at best Rogers identifies a ten point path for Texas Democrats to win at the statewide level and to build a base vote that would allow Texas to become a swing vote player in national politics once again One part of that shift starts with local Democratic candidates in local Republican communities making the connection between controversial local issues or problems and the statewide Republican policies that ignore or create them For example in a 2014 election in Denton a Republican suburb voters approved Texas s first ban on hydraulic fracking The next day though a Republican Texas agency official announced that Texas would not honor the town s vote to ban No democratic candidate picked up the issue Change won t come easily argues Rogers But if Texas shifts to even a pale shade of purple it changes everything in American politics today *The Blue Kyrilite* Robin E. The Blue Badge Scheme Great Britain. Parliament. House of Commons. Transport Committee, 2008 Disabled people may be missing out on special parking concessions because of where they live This is the main finding of this report into the Blue Badge Scheme which offers parking concessions for disabled people It comes as the Government carries out a strategic review of the scheme The Committee found wide differences in the way the eligibility criteria are assessed by different local authorities It wants to see more done to promote consistent good practice across the country The Committee's conclusions include 1 the Committee wants to see the minimum issue period for a badge reduced from three years to one to include those with short term or temporary disabilities It would also like to see smart card technology developed so there could be even more flexibility over the issuing of badges 2 In cases where a blue badge holder's condition is unlikely to improve they should not usually have to undergo regular three yearly assessments but have their badge renewed automatically 3 the Government should consider including central London which currently has its own regime in the national system 4 eligibility for a blue badge should be based on mobility in a wider sense than simply on an applicant's ability to walk But the Government should also look to more appropriate ways of helping people with other disabilities such as bowel disease 5 for those who knowingly abuse the scheme the Committee want to see tougher penalties In particular those who use stolen badges should have their vehicles impounded A national database should also be established to help combat fraud 6 the Security Industry Authority should take steps to prevent vehicles displaying a valid badge from being clamped when they are parked on private land 7 the Committee also found that Asda was the only example given of a major national company which consistently fined people who abused its disabled bays
