Getting Computers To Talk Like You And Me Discourse Context Focus And Semantics:

Getting Computers to Talk Like You and Me Rachel Reichman, 1985 This book makes an important contribution to the study of pragmatics and discourse by presenting an explicit and precise computational approach to the complex problem of the structure of discourse

Getting Computers to Talk Like You and Me, 1985 *Meanings and Prototypes* S.L. Tsohatzidis, 2014-02-03 There are fewer distinctions in any language than there are distinct things in the universe If therefore languages are ways of representing the universe a primary function of their elements must be to allow the much more varied kinds of elements out of which the universe is made to be categorized in specific ways A prototype approach to linguistic categories is a particular way of answering the question of how this categorization operates It involves two claims First that linguistic categorization exploits principles that are not specific to language but characterize most if not all processes of cognition Secondly that a basic principle by which cognitive and linguistic categories are organized is the prototype principle which assigns elements to a category not because they exemplify properties that are absolutely required of each one of its members but because they exhibit in varying degrees certain types of similarity with a particular category member which has been established as the best example or prototype of its kind The development of the prototype approach into a satisfactory body of theory obviously requires both that its empirical base be enriched and that its conceptual foundations be clarified These are the areas where this volume in its 26 essays makes original contributions The first two parts contain discussions in which various kinds of linguistic phenomena are analysed in ways that make essential use of prototype notions The last two parts contain discussions in which prototype notions themselves become the object rather than the instrument of analytical scrutiny

Handbook of Pragmatics Jef Verschueren, Jan-Ola Östman, 2022-08-15 The Manual section of the Handbook of Pragmatics produced under the auspices of the International Pragmatics Association IPrA is a collection of articles describing traditions methods and notational systems relevant to the field of linguistic pragmatics the main body of the Handbook contains all topical articles The first edition of the Manual was published in 1995 This second edition includes a large number of new traditions and methods articles from the 24 annual installments of the Handbook that have been published so far It also includes revised versions of some of the entries in the first edition In addition a cumulative index provides cross references to related topical entries in the annual installments of the Handbook and the Handbook of Pragmatics Online at <https://benjamins.com/online/hop> which continues to be updated and expanded This second edition of the Manual is intended to facilitate access to the most comprehensive resource available today for any scholar interested in pragmatics as defined by the International Pragmatics Association the science of language use in its widest interdisciplinary sense as a functional i.e. cognitive social and cultural perspective on language and communication

Pragmatics Applied to Language Teaching and Learning Lucis Fernández Amaya, Manuel Padilla Cruz, María de la O Hernández López, Reyes Gómez Morón, 2020-07-24 This volume presents a wide ranging overview of key theoretical and practical issues empirical research and various analyses of

pragmatic phenomena that will certainly be most useful and helpful to students and researchers in pragmatics and other linguistic disciplines and of course to L2 teachers It is divided into five parts that include chapters addressing cognitive issues on L2 teaching how and what to teach when dealing with specific speech acts intercultural aspects of communication the teaching of languages for academic and specific purposes and some other methodological issues on pragmatics teaching

Expert Systems in Production Engineering Georg Menges, Norbert Hövelmanns, Erwin Baur, 2013-03-12 The present volume contains edited versions of the communications presented at an International Workshop on Expert Systems in Production Engineering held in Spa Belgium in 1986 Introductory papers on Artificial Intelligence and Expert Systems are complemented by case studies of Expert Systems in practice primarily in the area of Mechanical Engineering and discussions of the possibilities and the limitations of Expert Systems *Routledge Library Editions: Linguistics* Various, 2021-12-02 Routledge Library Editions Linguistics brings together as one set mini sets or individual volumes a series of previously out of print classics from a variety of academic imprints With titles ranging from Applied Linguistics and Language Learning to Experimental Psycholinguistics and Sociolinguistics Today International Perspectives this set provides in one place a wealth of important reference sources from a wide range of authors expert in the field **Pragmatic Markers in Oral Narrative** Montserrat González, 2004 This book presents the multifunctional nature of pragmatic discourse markers in English and Catalan oral narratives from the point of view of text linguistics and contrastive analysis It is argued that English and Catalan markers are distributed and operate differently at four different levels in the varied discourse structures of the text i e at the ideational the rhetorical the sequential and the inferential levels The results confirm the distinctions in functional systemic levels and indicate that the nature of the two languages has a direct influence on the presence and nature of markers in the texts The study is built up on a corpus of English and Catalan elicited narratives of native speakers adopting the sociolinguistic Labovian framework adapted to the situation of educated adults The study results in a better understanding of the contribution of pragmatic markers to the organization and the interpretation of oral texts bringing insights from relevance and cognitive approaches to text structure and moving from descriptive to theoretical levels of analysis and discussion **Fatal Words** Steven Cushing, 1997-05-15 On March 27 1977 583 people died when KLM and Pan Am 747s collided on a crowded foggy runway in Tenerife the Canary Islands The cause a miscommunication between the pilot and the air traffic controller The pilot radioed We are now at takeoff meaning that the plane was lifting off but the tower controller misunderstood and thought the plane was waiting on the runway In *Fatal Words* Steven Cushing explains how miscommunication has led to dozens of aircraft disasters and he proposes innovative solutions for preventing them He examines ambiguities in language when aviation jargon and colloquial English are mixed when a word is used that has different meanings and when different words are used that sound alike To remedy these problems Cushing proposes a visual communication system and a computerized voice mechanism to help clear up confusing language *Fatal Words* is an

accessible explanation of some of the most notorious aircraft tragedies of our time and it will appeal to scholars in communications linguistics and cognitive science to aviation experts and to general readers

Developing Narrative Structure Allyssa McCabe, Carole Peterson, 1991 Effective narration the telling of stories or recounting of personal experiences is an art requiring skills that appear crucial for children's language development and literacy acquisition This volume serves an important purpose because it pulls together the widely scattered literature in the field exploring the ways in which oral narrative structure develops in children and how it may be facilitated It presents new empirical studies on genres of narrative the role narrative structure plays in emergent literacy the relationship between narrative language and autobiographical memory and ways in which teachers and parents facilitate or hinder children's narrative development The empirical research presented here draws from diverse groups including Hispanic African American and Anglo American children from rural and urban America and Canada

Managing Language Francesca Bargiela-Chiappini, Sandra Harris, 1997-01-01 The book attempts to answer the question what do managers in multinational companies really do during meetings Following fieldwork in three corporations in Britain and Italy the picture that emerges is one that challenges the widespread understanding of meetings as boring routine events in the life of an organisation As the recordings analysed in the book show organisational meanings and relations come into existence through verbal interaction these are challenged and manipulated in a constant process of sense making in search of coherence which engages managers in their daily work life The pragmatics of pronominalisation metaphors and discourse markers as well as thematic development reveal the dynamics of sense making in both English and Italian The native perspective adopted in Part One of the book is complemented in Part Two by a contrastive study of the structural and pragmatic properties of meetings in the corporate and cultural contexts of the British and Italian multinationals respectively Finally the intercultural dimension of corporate communication is vividly portrayed in the experience of managers of an Anglo Italian joint venture examined in the concluding chapter

Discourse Guy Cook, 1989-06-29 Discourse analysis is the study of spoken and written language in its social and psychological context This book explains the relevant theory and applies it to classroom activities designed to improve students discourse skills The teacher is then shown how these activities may be further developed in specific teaching situations
