identity Powell's review of actual correspondence from outside letters proposing projects to internal kill letters of rejection suggests that editors and authors at times form their own quasi organization with external allegiances and bonds beyond those of the publishing house This is a welcome addition to the literature on the life of the organizations that produce our science and our culture Powell's intimate look at two scholarly publishing companies has an insider's appreciation of the book business and an outsider's eye for questions the editors are not asking themselves Michael Schudson University of California at San Diego Getting Into Print will long be the book about how academic editors choose the titles they sponsor Even experienced editors and authors will find new insights here and revealing comparisons with decision making in other kinds of organizations Edward Tenner Los Angeles Times Book Review Getting Into Print is an unusually outstanding ethnographic study in that it reflects the evocative richness of detail associated with the ethnographic approach while simultaneously maintaining a clear headed analytical distance from the subject that allows for a meaningful theoretical contribution Powell is an astute ethnographer who presents a vital and compelling insider's view of the decision making process in scholarly publishing making this book fascinating reading for all those involved in the publish or perish syndrome Barbara Levitt American Journal of Sociology *Boxmakers' Journal and Packaging Review* ,1927 *On Your Mark, Get Set, Grow!
