Mapping Social Relations Marie L. ethnographers must adopt a particular research stance one that recognizes that people's own knowledge and ways of knowing are crucial elements of social action and thus of social analysis Specific attention to text analysis is integral to the approach as is a sensitivity to gender relations Institutional ethnography is remarkably well suited to the human service curriculum and the training of professionals and activists Its strategy for learning how to understand problems existing in everyday life appeals to many researchers who are looking for guidance on how to take practical action At the same time the highly elaborated theoretical foundation of institutional ethnography is difficult to deal with in the brief time most students are in the classroom The authors successfully tackle the issue of teaching and applying institutional ethnography Campbell and Gregor have been testing out instructional methods and materials for many years MAPPING SOCIAL RELATIONS is the product of that effort
