Getting Even With Heaven:

Getting Even Ron Walden, 2017-04-01 For years Galen Mason had been the head accountant for Bluefin Seafood Inc. Over the years he had done things such as carrying cash out of the United States to the Bahamas for the company. He never questioned his orders but once he determined the company was a front for the Columbian drug cartel he decided to quit but knew the cartel would never allow him to leave. He devised a plan to disappear and change his name. In his new life he opened an accounting and consulting office where he hired a pretty young assistant. The Bluefin Seafood enforcers found him and killed his assistant. If they found him once they could find him again. He decided to take the matter into his own hands after the enforcers attempted to kill him at his aircraft hangar. Assisted by a local fire captain with a military background he was able to fend off the attack but decided to return to Florida to take revenge on the fish processing company bosses. With the aid of a DEA agent Mitch DeLong he used information about Bluefin Seafood to find and end their drug importing business. New cartel bosses track him down once again to retaliate for their losses. It seems everyone is Getting Even.

Universe around you but you're not. This book reveals the startling ways life on Earth is touched by our cosmic environment and demonstrates why without such contact life itself wouldn't be possible. *Heaven's Touch* embarks on an unforgettable journey across the cosmos beginning in near space with a look at the gentle ebb and flow of lunar and solar tides. Acclaimed astronomer James Kaler describes their subtle effects on our world and also explores the Sun's more potent influences such as solar storms that cause auroras, give comets their tails, and knock out power grids on Earth. He ventures across the Solar System to consider how the planets can act to produce climate change even global disaster. Kaler shows how Jupiter's gravity can throw asteroids toward potentially devastating collision with Earth and how even our whole Galaxy might hurl comet storms at us. He then takes us into deepest space to describe the cosmic rays launched at us from exploding stars and considers not just how these exploders might harm us but how they also join together in the creation of stars and how they serve to populate the Universe with the very building blocks of life. Informative and entertaining, *Heaven's Touch* reveals how intimately connected we really are with the dynamic Universe in which we live.

The Purposes That Drive Our Lives Are God Given Edwin P. Nhliziyo Sr., 2014-04-10. This book makes the argument that humankind was placed here on earth to multiply, fill the world, and take dominion over all of God's other creations. A purpose-driven life will necessarily align with these purposes. A purpose-driven life is one that is fulfilling God's purposes. How well we do this is the primary reason why some people have become very successful while others have failed. Our spiritual side reflects our God-connections, and for the Christian, it begins when one is born again. While our purposes and the things that drive us may need adjustment after we are born again, they do not change significantly. They all have one common denominator, and that is fulfilling our responsibilities as parents and doing that in obedience to God. With this in mind, it should not be difficult to answer the question, "What on earth am I doing here?" What drives our lives? It is the need to provide for our children. For adulthood comes with the obligation to find a life partner and begin multiplying, and this is universal.
