# Identifying a Main Idea

The main idea can be directly stated in a paragraph through the thesis. Read each paragraph below and identify the sentence that holds the main idea by underlining it.

1

Students who experienced studying remotely had to make a tremendous adjustment when they came back to the physical classroom. This is not surprising because after walking straight to their computer chair, they have to experience traveling to school again. Also, teachers will have total control of the academic location since they can now monitor everything unlike during virtual classes, and this is something students need to always be reminded of. Finally, students will now need to study independently at school compared to remote learning where they could be assisted by their parents or guardians.

2

In a dowry system, the parents of the bride spend a lot of money just to get their daughter married. This is one of the reasons why it sometimes reduces the sacred affair of marriage. To some, the dowry system is considered as an evil in society.

3

Gambling for some is a form of relaxation regardless of whether they win or lose the money they bet. For others, gambling is unforgivable whatever the situation is. Some countries allow it and even create a center for it. Others totally ban it whether it is small-scale or large-scale gambling. Gambling is treated differently by different people.
