Imagination The Illusions Of Eugene Poinc:

Cinematic Art and Reversals of Power Eugene B. Young, 2022-01-13 Bringing together Deleuze Blanchot and Foucault this book provides a detailed and original exploration of the ideas that influenced Deleuze's thought leading up to and throughout his cinema volumes and as a result proposes a new definition of art Examining Blanchot's suggestion that art and dream are outside of power as imagination has neither reality nor truth and Foucault's theory that power forms knowledge by valuing life Eugene Brent Young relates these to both Deleuze's philosophy of time and his work with Guattari on art In doing so he uses case studies from literature and popular film including Kafka's *Castle* Villeneuve's *Arrival* and Kubrick's *Eyes Wide Shut* Providing important new insights for those working in literary and cinematic studies this book advances a new definition of art as that which reverses the realities and truths of power to express obscure ideas and values beyond both our exterior and interior worlds

Imagining the Impossible Karl S. Rosengren, Carl N. Johnson, Paul L. Harris, 2000-05-29 This volume first published in 2000 is about the development of human thinking that stretches beyond the ordinary boundaries of reality Various research initiatives emerged in the decade prior to publication exploring such matters as children's thinking about imaginary beings magic and the supernatural The purpose of this book is to capture something of the larger spirit of these efforts In many ways this new work offers a counterpoint to research on the development of children's domain specific knowledge about the ordinary nature of things that has suggested that children become increasingly scientific and rational over the course of development In acquiring an intuitive understanding of the physical biological or psychological domains even young children recognize that there are constraints on what can happen However once such constraints are acknowledged children are in a position to think about the violation of those very same constraints to contemplate the impossible

Imagining Selves Aristides Gazetas, 2000 This book examines a number of theoretical positions proposed by adult educators in relation to five poststructural perspectives The analysis begins with a Lacanian interpretation of subjectivity in the complexities of female bonding with the Other then follows with Foucault's concepts of knowledge and power Derrida's perspective on difference Baudrillard's thesis on simulacra and closes with Lyotard's philosophy on the postmodern condition The study argues that objects of knowledge are locally and historically specific and that they become available for human understanding only within certain language games paradigms and discursive formations Further the study investigates the central role film narratives play in the process of socialization while questioning simultaneously the ideological processes forming our subjectivities

Hermeneutics at the Crossroads Kevin J. Vanhoozer, James K. A. Spinoza and the Cunning of Imagination Eugene Garver, 2018-10-12 Spinoza s Ethics and its project of proving ethical truths through the geometric method have attracted and challenged readers for more than three hundred years In *Spinoza and the Cunning of Imagination* Eugene Garver uses the imagination as a guiding thread to this work Other readers have looked at the imagination to account for Spinoza s understanding of politics and religion but this is the first inquiry to see it as central to the Ethics as a whole imagination as a quality to be cultivated and not simply overcome Spinoza initially presents imagination as an inadequate and confused way of thinking always inferior to ideas that adequately represent things as they are It would seem to follow that one ought to purge the mind of imaginative ideas and replace them with rational ideas as soon as possible but as Garver shows the Ethics don t allow for this ultimate ethical act until one has cultivated a powerful imagination This is for Garver the cunning of imagination The simple plot of progress becomes because of the imagination a complex journey full of reversals and discoveries For Garver the cunning of the imagination resides in our ability to use imagination to rise above it
