Hackey,David A. Rochefort,2001 State governments in the past decade have had to take on the problem of health care with mixed results This collection of 11 essays of which two are an introduction and conclusion by academics and policy makers consider the many issues that

concern health care in the US and their effects at the state level including managed care health insurance expansion mental health care public health administration and bureaucratic reactions to health policy Hackey teaches health policy and management at Providence College in Rhode Island Rochefort teaches political science and public administration at Northeastern U in Boston c Book News Inc      **Economic and Political Weekly** ,2000-10      **Fertilizer subsidies in Malawi: From past to present** Benson, Todd,De Weerd, Joachim,Duchoslav, Jan,Masanjala, Winford,2024-02-12 Malawi has been at the center of the debate on agricultural input subsidies in Africa ever since it significantly expanded its fertilizer subsidy program about two decades ago When it did so Malawi was a trailblazer receiving international attention for seemingly leveraging the subsidy program to move the country from a situation characterized by food deficits and widespread hunger to crop production surpluses In this paper we trace the history of Malawi s subsidy program over the past 70 years describing how the country arrived at that watershed moment earlier this century and how the subsidy program has developed since We show how donor support for the program has wavered and how external pressure to remove the subsidy has repeatedly been unsuccessful We also demonstrate how over the years the program s total fiscal burden has fluctuated significantly However we find that since the expansion of the subsidy program in 2004 the fiscal costs of the program have shown little correlation with the maize harvest that same agricultural season We show that the subsidy program has succeeded in raising awareness about the value of the fertilizer for increased crop productivity However despite its continued prominence in the country s agricultural policy most Malawian smallholder do not manage to grow sufficient maize to feed their households throughout the year and every year millions depend on food assistance during the worst months of the lean season      **The SAGE Handbook of Research Management** Robert Dingwall,Mary Byrne McDonnell,2015-08-17 The Handbook of Research Management is a unique tool for the newly promoted research leader Larger scale projects are becoming more common throughout the social sciences and humanities housed in centres institutes and programmes Talented researchers find themselves faced with new challenges to act as managers and leaders rather than as individual scholars They are responsible for the careers and professional development of others and for managing interactions with university administrations and external stakeholders Although many scientific and technological disciplines have long been organized in this way few resources have been created to help new leaders understand their roles and responsibilities and to reflect on their practice This Handbook has been created by the combined experience of a leading social scientist and a chief executive of a major international research development institution and funder The editors have recruited a truly global team of contributors to write about the challenges they have encountered in the course of their careers and to provoke readers to think about how they might respond within their own contexts This book will be a standard work of reference for new research leaders in any discipline or country looking for help and inspiration The editorial commentaries extend its potential use in support of training events or workshops where groups of new leaders can come together and explore the issues that

are confronting them      **Introduction to Nursing Informatics** Pamela Hussey, Margaret Ann Kennedy, 2021-01-04 This significantly revised 5th edition provides nurses with a practical guide to the fundamental concepts of digital health from a nursing perspective Nursing informatics has never been more important as contemporary healthcare continues to experience tremendous technological advances The nursing profession is ideally positioned as a key enabler for the design and adoption of emerging eHealth models of care and quality outcomes The book also features real world examples to illustrate the theory and encourages readers to think critically about their current practices and how they can potentially integrate relevant theories and techniques into their future practice to advance integrated care Introduction to Nursing Informatics is designed for use as a primer for practicing nurses and students in undergraduate programs of study and includes contributions from leading international experts who have practiced in the field over a number of years The information is presented and integrated in a purposeful manner to encourage readers to explore the key concepts of nursing practice digital health health information management and its relationship to informatics      **Implement & Tractor Trade Journal** , 1919 Jan 31 1967

Smith, 2021-06-03 Contemporary monetary institutions are flawed at a foundational level The reigning paradigm in monetary policy holds up constrained discretion as the preferred operating framework for central banks But no matter how smart or well intentioned are central bankers discretionary policy contains information and incentive problems that make macroeconomic stability systematically unlikely Furthermore central bank discretion implicitly violates the basic jurisprudential norms of liberal democracy Drawing on a wide body of scholarship this volume presents a novel argument in favor of embedding monetary institutions into a rule of law framework The authors argue for general predictable rules to provide a sturdier foundation for economic growth and prosperity A rule of law approach to monetary policy would remedy the flaws that resulted in misguided monetary responses to the 2007 8 financial crisis and the COVID 19 pandemic Understanding the case for true monetary rules is the first step toward creating more stable monetary institutions

Rethinking Gender Equality in Global Governance Lars Engberg-Pedersen, Adam Fejerskov, Signe Marie Cold-Ravnkilde, 2019-04-26 A very valuable and much needed book on a central element in the processes of social change the construction and reconstruction of social norms as they move between global and local levels Naila Kabeer London School of Economics and Political Science UK This book explores how gender equality norms are ever evolving and argues convincingly that we cannot take their effectiveness nor their acceptance for granted Judith Kelley Duke Sanford School of Public Policy USA In an era of increasing resistance to gender equality this is a much needed volume that attends to how gender equality norms are interpreted and contested in governance organisations ranging from the UN and the EU to Mercosur and women s NGOs in India and Uganda Ann Towns University of Gothenburg Sweden This edited collection provides a new theoretical approach to the study of how global norms influence social processes It analyses the institutional and highly political

processes whereby actors be they local national regional or trans national engage with global norms of gender equality The editors bring together key thinkers who emphasise how context and history effect norm engagement and how particular groups and actors tend to be marginalised from discussions of global norms By proposing a situated approach that underlines the contingent multi level processes that occur when actors interpret use manipulate bend or betray norms notions of norm diffusion are fundamentally challenged This book makes a further crucial contribution to the study of norms and gender equality in global governance by analysing very different empirical contexts from New Delhi and St Petersburg to the Organisation of American States and from Kampala and New York to the European Union **Boundaries of Contagion**

Evan Lieberman,2009-03-23 Why have governments responded to the HIV AIDS pandemic in such different ways During the past quarter century international agencies and donors have disseminated vast resources and a set of best practice recommendations to policymakers around the globe Yet the governments of developing countries in sub Saharan Africa Asia Latin America and the Caribbean continue to implement widely varying policies *Boundaries of Contagion* is the first systematic comparative analysis of the politics of HIV AIDS The book explores the political challenges of responding to a stigmatized condition and identifies ethnic boundaries the formal and informal institutions that divide societies as a central influence on politics and policymaking Evan Lieberman examines the ways in which risk and social competition get mapped onto well institutionalized patterns of ethnic politics Where strong ethnic boundaries fragment societies into groups the politics of AIDS are more likely to involve blame and shame avoidance tactics against segments of the population In turn government leaders of such countries respond far less aggressively to the epidemic Lieberman s case studies of Brazil South Africa and India three developing countries that face significant AIDS epidemics are complemented by statistical analyses of the policy responses of Indian states and over seventy developing countries The studies conclude that varied patterns of ethnic competition shape how governments respond to this devastating problem The author considers the implications for governments and donors and the increasing tendency to identify social problems in ethnic terms *Studying Organizations Using Critical Realism* Paul K. Edwards,Joe O'Mahoney,Steve Vincent,2014 The book provides a practical guide to the application of Critical Realism CR an increasingly popular philosophy of social science in empirical research projects Each purpose written chapter reviews major social science research methods and contains extended illustration of how to conduct inquiry using CR **Improving National Capacity to Respond to Complex Emergencies** Douglas E.
