Health And Mortality Issues Of Global Concern:

Health and Mortality United Nations. Department of Economic and Social Affairs. Population Division, Centre d'étude de la population et de la famille (Belgium), 1999 Nineteen papers from the November 1997 symposium examine three major issues in health and mortality the measurement of mortality and health status the state of current knowledge about the evolution of mortality and health in various economies and the analysis of risk factors associated with specific behaviors that may account for growing proportions of death Also published in Belgium under the same title by the Population and Family Study Center CBGS in March 1999 Annotation copyrighted by Book News Inc Portland OR

Heart Disease Gerdi Weidner, Mária Kopp, Margareta Kristenson, 2002 Annotation This book addresses one major question Why do men get more heart disease than women Recent global trends in heart disease show that traditional coronary risk factors such as elevated blood pressure and cholesterol are poor candidates in explaining the gender gap in heart disease Changes in these risk factors also cannot explain the recent cardiovascular disease epidemic among middle aged men in Eastern Europe This book will focus on environmental behavioral and psychosocial variables as well as new risk factors of a biological nature in an attempt to understand the gender gap in heart disease It combines perspectives from numerous disciplines such as demography epidemiology medicine sociology and psychology This book features the work of a distinguished group of international researchers appearing in Richard Stone's report on Stress the invisible hand in Eastern Europe's death rates Science vol 288 June 9 2000 pp 1732-33 It combines perspectives from numerous disciplines such as demography epidemiology medicine nutrition sociology and psychology to explore the environmental behavioral and psychosocial influences on men's greater susceptibility to heart disease

The Demography and Epidemiology of Human Health and Aging Jacob S. Siegel, 2011-09-30 With this book Siegel an internationally known demographer and gerontologist has made a unique contribution to the fledgling fields of health demography and the demography and epidemiology of aging The book represents a felicitous union of epidemiology gerontology and demography and appears to be the first and only comprehensive text on this subject now available Drawing on a wide range of sciences in addition to demography gerontology and epidemiology including medical sociology biostatistics public policy bioethics and molecular biology the author treats theoretical and applied issues links methods and findings covers the material internationally nationally and locally and while focusing on the elderly treats the entire life course The methods materials and perspectives of demography and epidemiology are brought to bear on such topics as the prospects for future increases in human longevity the relative contribution of life style environment genetics and chance in human longevity the measurement of the share of healthy years in total life expectancy the role of population growth in the rising costs of health care and the applications of health demography in serving the health needs of local communities The separate chapters systematically develop the topics of the sources and quality of health data mortality life tables and the measurement of health status the interrelationships of health

on the one hand and mortality fertility migration and age structure on the other health conditions in the less developed countries the concepts and theories of aging and projections of the aged population and local health applications public health policy and bioethical issues in health demography Given its comprehensiveness clarity interdisciplinary scope and authenticity this book appeals to a wide range of users from students and teachers of medical sociology the demography of aging and public health studies to practitioners in these areas both as a text in health demography and the demography epidemiology of aging and as a reference work in these fields

Modern Environments and Human Health Molly K. Zuckerman,2014-03-11 Written in an engaging and jargon free style by a team of international and interdisciplinary experts Modern Environments and Human Health demonstrates by example how methods theoretical approaches and data from a wide range of disciplines can be used to resolve longstanding questions about the second epidemiological transition The first book to address the subject from a multi regional comparative and interdisciplinary perspective Modern Environments and Human Health is a valuable resource for students and academics in biological anthropology economics history public health demography and epidemiology Growing Up Global Institute of Medicine,National Research Council,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Population,Panel on Transitions to Adulthood

in Developing Countries,2005-06-25 The challenges for young people making the transition to adulthood are greater today than ever before Globalization with its power to reach across national boundaries and into the smallest communities carries with it the transformative power of new markets and new technology At the same time globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values And while the economic benefits are potentially enormous the actual course of globalization has not been without its critics who charge that to date the gains have been very unevenly distributed generating a new set of problems associated with rising inequality and social polarization Regardless of how the globalization debate is resolved it is clear that as broad global forces transform the world in which the next generation will live and work the choices that today s young people make or others make on their behalf will facilitate or constrain their success as adults Traditional expectations regarding future employment prospects and life experiences are no longer valid Growing Up Global examines how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles adult worker citizen and community participant spouse parent and household manager

Coronary Heart Disease Epidemiology Michael Marmot,M. G. Marmot,Paul Elliott,2005 Coronary heart disease is the leading cause of death worldwide affecting millions of people in both developed and developing countries The dual aims of this book are to review the well established and emerging risk factors in coronary heart disease and to apply this knowledge to public health approaches to disease prevention The book includes authoritative accounts of studies within a single population and international studies important areas of methodological development trials to test preventive strategies and the application of epidemiological and other knowledge to the development of public health policy for the prevention of widespread disease It is an all encompassing work containing contributions from the world authorities in the field The book is divided into four sections The introduction reviews advances in the understanding of and the current status of risk factors for CHD Section 2 looks at recent global trends and emerging patterns of CHD morbidity and mortality in several countries and includes chapters on work done under the auspices of WHO on the global burden of disease in relation to smoking and blood pressure Section 3 focuses on advances in understanding the aetiology of CHD with each chapter focused on a particular risk factor Section 4 explores measures of prevention and intervention in terms of public health policy with specific examples from around the world

African Minorities in the New World Toyin Falola, Niyi Afolabi, 2007-11-13 This book discusses the minority status of African immigrants in the New World by revisiting the concept of a new African diaspora and its multiple implications for citizenship and immigration policy Challenges to the Global Issue of End of Life Care Pierre Mallia, Nathan Emmerich, Bert Gordijn, Francesca Pistoia, 2022-02-10 This book addresses the problems faced by people and hospitals dedicated to providing optimal end of life care and asks whether ethicists can function as experts on this subject Though ethics consultation is a growing practice in medical contexts difficult questions surrounding the role of ethicists in professional decision making remain The chapters in this book examine the nature and plausibility of moral expertise the relationship between character and expertise the nature and limits of moral authority the question of how one might become a moral expert and the trustworthiness of moral testimony This volume not only engages with the growing literature in the debate on end of life care but also offers new perspectives from both academics and practitioners Such perspectives include ways on how to get together to optimize end of life care This book is of particular interest to bioethicists clinicians ethics committees students of social epistemology patient groups and institutions especially religious who may not be sufficiently imparting the social teachings of end of life care It also shows how they are indeed stakeholders for what is today called a good death These new essays advance discussions and provide practical information on dying as well as acting as a guide to those interested in actively effecting change **The Demography of Europe** Gerda Neyer, Gunnar Andersson, Hill Kulu, Laura Bernardi, Christoph Bühler, 2013-04-22 Over the past decades Europe has witnessed fundamental changes of its population dynamics and population structure Fertility has fallen below replacement level in almost all European countries while childbearing behavior and family formation have become more diverse Life expectancy has increased in Western Europe for both females and males but has been declining for men in some Eastern European countries Immigration from non European countries has increased substantially as has mobility within Europe These changes pose major challenges to population studies as conventional theoretical assumptions regarding demographic behavior and demographic development seem unfit to provide convincing explanations of the recent demographic changes This book derived from the symposium on The Demography of Europe held at the Max Planck Institute for Demographic Research in Rostock Germany in November

2007 in honor of Professor Jan M Hoem brings together leading population researchers in the area of fertility family migration life expectancy and mortality The contributions present key issues of the new demography of Europe and discuss key research advances to understand the continent s demographic development at the turn of the 21st century

The Top Books of the Year Health And Mortality Ibues Of Global Concern The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Health And Mortality Ibues Of Global Concern : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
