Schank, 2004-04-26 In the author's words This book is an honest attempt to understand what it means to be educated in today's world His argument is this No matter how important science and technology seem to industry or government or indeed to the daily life of people as a society we believe that those educated in literature history and other humanities are in some way better informed more knowing and somehow more worthy of the descriptor well educated This 19th century conception of the educated mind weighs heavily on our notions on how we educate our young When we focus on intellectual and scholarly issues in high school as opposed to issues such as communications basic psychology or child raising we are continuing to rely on outdated notions of the educated mind that come from elitist notions of who is to be educated and what that means To accommodate the realities of today's world it is necessary to change these elitist notions We need to rethink what it means to be educated and begin to focus on a new conception of the very idea of education Students need to learn how to think not how to accomplish tasks such as passing standardized tests and reciting rote facts In this engaging book Roger C Schank sets forth the premises of his argument cites its foundations in the Great Books themselves and illustrates it with examples from an experimental curriculum that has been used in graduate schools and with K 12 students Making

**Reading Minds** Henry M. Wellman, 2019-12-03 The need to understand human social life is basic to our human nature and fuels a life long quest that we begin in early childhood Key to this quest is trying to fathom our inner mental states our hopes plans wants thoughts and emotions Scientists deem this developing a theory of mind In Reading Minds Henry Wellman tells the story of our journey into that understanding Our hard won everyday comprehension of people and minds is not spoon fed or taught Each of us creates a wide ranging theory of mind step by step and uses it to understand how all people work Failure to learn these steps cripples a child and ultimately an adult in areas as diverse as interacting socially creating a coherent life story enjoying drama and movies and living on one's own Progressing along these steps as most of us do allows us to see the nature of our shared humanity to understand our children and our childhood selves to teach and to learn from others and to better navigate and make sense of our social world Theory of mind is basic to why some of us become religious believers and others atheists why some of us become novelists and all of us love stories why some love scary movies and some hate them Reading Minds illuminates how we develop this theory of mind as children how that defines us as individuals and ultimately how it defines us as human
