Hearings, Reports and Prints of the House Committee on Appropriations United States. Congress. House. Committee on Appropriations, 1965 **The Inevitable** Katie Engelhart, 2021-03-02 A remarkably nuanced empathetic and well crafted work of journalism. The Inevitable explores what might be called the right to die underground, a world of people who wonder why a medical system that can do so much to try to extend their lives can do so little to help them end those lives in a peaceful and painless way. Brooke Jarvis, The New Yorker. More states and countries are passing right to die laws that allow the sick and suffering to end their lives at pre planned moments with the help of physicians. But even where these laws exist they leave many people behind. The Inevitable moves beyond margins of the law to the people who are meticulously planning their final hours far from medical offices, legislative chambers, hospital ethics committees and polite conversation. It also shines a light on the people who help them, loved ones and sometimes clandestine groups on the Internet that together form the euthanasia underground. Katie Engelhart, a veteran journalist, focuses on six people representing different aspects of the right to die debate. Two are doctors: a California physician who runs a boutique assisted death clinic and has written more lethal prescriptions than anyone else in the U.S., and an Australian named Philip Nitschke who lost his medical license for teaching people how to end their lives painlessly and peacefully at DIY Death workshops. The other four chapters belong to people who said they wanted to die because they were suffering unbearably of old age, chronic illness, dementia and mental anguish and saw suicide as their only option. Spanning North America, Europe and Australia, The Inevitable offers a deeply reported and fearless look at a morally tangled subject. It introduces readers to ordinary people who are fighting to find dignity and authenticity in the final hours of their lives.
