

ART THERAPY RESOURCES

★ FORGIVENESS

This art exercise focuses on the statement: Letting Go. Forgiveness is explained by letting go of the expectations and negative feelings associated with an experience. Forgiveness is a process that involves a series of stages that someone can work through before letting go.

When asking the client what the statement 'letting go' to them means, they can explore what that means to them and reveal what part of them they may feel they are letting go.

They may feel they are letting go of their power over their sense of identity. Or they may feel they are letting go of the anger.

All responses are personal to the individual and help identify how the client currently views their attachment and expectation of the experience they may have with someone.

Forgiveness and Reconciliation Everett L. Worthington, Jr.,2013-05-13 To be unforgiving is harmful The inability to come to terms with one s anger or strife often can lead to stress disorders mental health disorders and relationship problems Forgiveness is a personal decision Forgiveness and Reconciliation focuses on individual experiences with forgiveness aiming to create a theory of what forgiveness is and connect it to a clinical theory of how to promote forgiveness Dr Worthington creates an evidence based approach that is applicable for individuals and relationships and even for society He also describes

an evidence based method of reconciliation restoring trust in damaged relationships Dr Worthington hopes that this theory will inform scientific research and improve intervention strategies Showing that forgiveness transforms personality Worthington describes ways a clinician can promote but not force forgiveness of others and self He provides research based theory and applications and discusses the role of emotion and specific personality traits as related to forgiveness Forgiveness and reconciliation might not be cures but as Worthington shows they are tools for transforming both the self and the world

Encounters with Revenge and Forgiveness Mary Sherrill Durham,2000-01-01 Mary Sherrill Durham explores the concepts of vengeance revenge fantasies and the granting or withholding of forgiveness as they are manifested to the therapist during treatment She also examines potential for the therapist patient relationship to become a re enactment of an abusive or controlling situation *Positive Psychology of Love* Mahzad Hojjat,Duncan Cramer,2013-05-02 Many topics within the study of close relationships are relevant to positive psychology such as love friendship social support and forgiveness However very little has been done to specifically connect and thus expand these two interrelated and rapidly growing fields *Positive Psychology of Love* fills this void by bringing together the latest research and theory in the field of close relationships from a positive psychology point of view suggesting how we can have more fulfilling close and intimate relationships and how these relationships may enhance our lives Each of the chapters focuses on a different aspect of close and intimate relationships as related to positive psychology such as romantic love friendship positive emotions sexuality attachment communication forgiveness conflict resolution self esteem relational maintenance mental health physical health and culture International contributors from a variety of disciplines explore how these areas of close relationships relate to positive psychology and how close relationships function as an important aspect of our personal health growth happiness and well being This unique and fascinating approach will be of interest to researchers educators and students in a number of fields including psychology sociology counseling social work communication family studies marriage and family therapy and nursing *Forgiveness Therapy* Dr Robert D Enright,Dr Richard P Fitzgibbons,2024-01-15 This new edition offers new case studies new empirical evaluation modern philosophical roots of forgiveness therapy and new measurement techniques

The Moral Psychology of Forgiveness Kathryn J. Norlock,2017-05-24 The feeling that one can t get over a moral wrong is challenging even in the best of circumstances This volume considers challenges to forgiveness in the most difficult circumstances It explores forgiveness in criminal justice contexts under oppression after genocide when the victim is dead or when bystanders disagree when many different negative reactions abound and when anger and resentment seem preferable and important The book gathers together a diverse assembly of authors with publication and expertise in forgiveness while centering the work of new voices in the field and pursuing new lines of inquiry grounded in empirical literature Some scholars consider how forgiveness influences and is influenced by our other mental states and emotions while other authors explore the moral value of the emotions attendant upon forgiveness in particularly challenging contexts Some authors critically assess and advance applications of the standard view of forgiveness predominant in Anglophone philosophy of

forgiveness as the overcoming of resentment while others offer rejections of basic aspects of the standard view such as what sorts of feelings are compatible with forgiving The book offers new directions for inquiry into forgiveness and shows that the moral psychology of forgiveness continues to enjoy challenges to its theoretical structure and its practical possibilities
