Formale Und Transzendente Logik II:

Formale und transzendente Logik II Edmund Husserl, 1977 Formale und transzendente Logik Edmund Husserl, 1929 Sonderdruck aus Jahrbuch für Philosophie und phänomenologische Forschung Bd X **The Possibility of Transcendental Philosophy** J.N. Mohanty, 2012-12-06 These essays span a period of fourteen years The earliest was written in 1960 the latest in 1983 They all represent various attempts to understand the motives and the central concepts of Husserl's transcendental phenomenology and to locate the latter in the background of other varieties of transcendental philosophy Implicitly they also contain a defense of transcendental philosophy and make attempts to respond to the more familiar criticisms against it It is hoped that they will contribute to a better understanding not only of Husserl's transcendental phenomenology but also of transcendental philosophy in general The ordering of the essays is not chronological They are rather divided thematically into three groups The first group of six essays is concerned with relating Husserlian phenomenology to more contemporary analytic concerns in fact the opening essay on Husserl and Frege establishes a certain continuity of concern with my last published book with that title Of these Essay 2 was written for an American Philosophical Association Eastern Division symposium in which the other symposiast was John Searle The discussion in that symposium concentrated chiefly on the relation between intentionality and causality which led me to write Essay 6 later read as the Gurwitsch Memorial Lecture at the Society for Phenomenology and Existential Philosophy meetings in 1982 at Penn State **A Study of Husserl's Formal and Transcendental Logic** Suzanne Bachelard, Lester E. Embree, 1990-02 Originally published in French under the title *La Logique de Husserl* tude sur Logique Formelle et logique transcendente
The Felt Meanings of the World Quentin Smith, 1986 In a critical dialogue with the metaphysical tradition from Plato to Hegel to contemporary schools of thought the author convincingly argues that traditional rationalist metaphysics has failed to accomplish its goal of demonstrating the existence of a divine cause and moral purpose of the world To replace the defective rationalist metaphysics the author builds a new metaphysics on the idea that moods and affects make manifest the world's felt meanings he argues that each feature of the world is a felt meaning in the sense that each feature is a source of a feeling response if and when it appears The author asserts that we must synthesize our two ways of knowing poetic evocations and exact analyses in order to decide which mood or affect is the appropriate appreciation of any given feature of the world Smith gives evocative and exact explications of such features as the world's temporality appearance and mind independency as these features appear in the appropriate recitations Perspektiven transzendentalphänomenologischer Forschung U. Claesges, K. Held, 1972-07-31 **Husserl and Analytic Philosophy** Guillermo E. Rosado Haddock, 2016-10-24 The book contributes to the refutation of the separation of philosophy in the 20th century into analytic and continental It is shown that Edmund Husserl was seriously concerned with issues of so called analytic philosophy that there are strict parallelisms between Husserl's treatment of philosophical subjects and those of authors in the analytic tradition and that

Husserl had a strong influence on Rudolf Carnap's *Aufbau* *The New Husserl* Donn Welton, 2003-08-21 The essays in this volume provide an alternative approach to Husserl by examining his work and his method as a whole and by probing issues old and new that occupied him during this exceptionally productive period *The Routledge Handbook of Phenomenology and Phenomenological Philosophy* Daniele De Santis, Burt C. Hopkins, Claudio Majolino, 2020-08-24 Phenomenology was one of the twentieth century's major philosophical movements and it continues to be a vibrant and widely studied subject today with relevance beyond philosophy in areas such as medicine and cognitive sciences *The Routledge Handbook of Phenomenology and Phenomenological Philosophy* is an outstanding guide to this important and fascinating topic Its focus on phenomenology's historical and systematic dimensions makes it a unique and valuable reference source Moreover its innovative approach includes entries that don't simply reflect the state of the art but in many cases advance it Comprising seventy-five chapters by a team of international contributors the Handbook offers unparalleled coverage and discussion of the subject and is divided into five clear parts Phenomenology and the history of philosophy Issues and concepts in phenomenology Major figures in phenomenology Intersections Phenomenology in the world Essential reading for students and researchers in philosophy studying phenomenology *The Routledge Handbook of Phenomenology and Phenomenological Philosophy* is also suitable for those in related disciplines such as psychology religion literature sociology and anthropology

Husserl-Chronik Karl Schuhmann, 1981-06-30 **Essays on Husserl's Logic and Philosophy of Mathematics** Stefania Centrone, 2017-09-07 *Essays on Husserl's Logic and Philosophy of Mathematics* sets out to fill up a lacuna in the present research on Husserl by presenting a precise account of Husserl's work in the field of logic of the philosophy of logic and of the philosophy of mathematics The aim is to provide an in-depth reconstruction and analysis of the discussion between Husserl and his most important interlocutors and to clarify pivotal ideas of Husserl's by considering their reception and elaboration by some of his disciples and followers such as Oskar Becker and Jacob Klein as well as their influence on some of the most significant logicians and mathematicians of the past century such as Luitzen E J Brouwer Rudolf Carnap Kurt G del and Hermann Weyl Most of the papers consider Husserl and another scholar e.g. Leibniz Kant Bolzano Brentano Cantor Frege and trace out and contextualize lines of influence points of contact and points of disagreement Each essay is written by an expert of the field and the volume includes contributions both from the analytical tradition and from the phenomenological one

The Origins of Meaning D. Welton, 2012-12-06 Whenever one attempts to write about a philosopher whose native tongue is not English the problem of translations is inevitable For the sake of simplicity and accuracy we have translated all of our quotations from the German unless otherwise noted But for the sake of easy reference we have included the page numbers of the English translations as well as the German texts Because there is a new translation forthcoming we have not included references to the English translation of *Ideen I* Since the German texts are readily available we did not reproduce them in the footnotes All quotations translated from Husserl's unpublished manuscripts however do include the German text

in the footnotes This work is greatly indebted to the criticism and help of Professor Ludwig Landgrebe whose support made possible two years at the UniversiHit Koln Garth Gillan and Lothar Eley also have contributed much to the basic direction of this work Others such as Edward Casey Claude Evans Irene Grypari Don Ihde Grant Johnson Martin Lang J N Mohanty Robert Ray and Susan Wood have been more than helpful in their discussions with me on these topics and in their criticisms of some of the ambiguities of an earlier draft Likewise a special word of thanks to Reto Parpan whose insightful corrections were most valuable and to Nancy Gifford for her discussions on matters epistemological and for her help in the final preparation of the book

Edmund Husserl's Freiburg Years Jitendra Nath Mohanty, J. N. Mohanty, 2011-07-19 DIV In his award winning book *The Philosophy of Edmund Husserl A Historical Development* J N Mohanty charted Husserl's philosophical development from the young man's earliest studies informed by his work as a mathematician to the publication of his *Ideas* in 1913 In this welcome new volume the author takes up the final decades of Husserl's life addressing the work of his Freiburg period from 1916 until his death in 1938 As in his earlier work Mohanty here offers close readings of Husserl's main texts accompanied by accurate summaries informative commentaries and original analyses This book along with its companion volume completes the most up to date well informed and comprehensive account ever written on Husserl's phenomenological philosophy and its development div

Discipline Filosofiche (2015-2) Emanuele Mariani, 2015-09-01 Contents Emanuele Mariani *Presentazione* Dermot Moran *Husserl on Human Subjects as Sense Givers and Sense Apprehenders in a World of Significance* Dominique Pradelle *De Husserl Heidegger intentionnalit monde et sens* Pierre Jean Renaudie *Dire et penser je La vacuit de la pr sence soi du sujet de Husserl* Derrida Julien Farges *R flexivit et scission originaire du sujet chez Husserl* Jean S bastien Hardy *La lutte pour la vie et la mort les fondements affectifs de la conflictualit chez Husserl* Elisa Magr *Subjectivity and Empathy A Steinian Approach* Pedro M S Alves *Self consciousness and Intentionality A Reappraisal of Brentano's and Rosenthal's Theses* Abbed Kanoor *Leben und Zeit Zu Hans Blumenbergs kritischer Auseinandersetzung mit der Zeitph nomenologie Husserls* Andrea Angelini *Filosofia del concetto e soggettivit* Jean Cavaill *s tra fenomenologia e dialettica* Karel Novotny *Renversements de l intentionnalit* Jean Luc Marion *et la mise en question de la subjectivit de l appara tre* Nicolas de Warren *Husserl's Cartesianism anew*

Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the

original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book
resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To
restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a
universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this
philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the
intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought
of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's
geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life
engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has
enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons
with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection
has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Edmund Husserl: The web of meaning : language, noema, and subjectivity and intersubjectivity Rudolf Bernet, Donn
Welton, Gina Zavota, 2005 This collection makes available in one place the very best essays on the founding father of
phenomenology reprinting key writings on Husserl's thought from the past seventy years It draws together a range of
writings many otherwise inaccessible that have been recognized as seminal contributions not only to an understanding of this
great philosopher but also to the development of his phenomenology The four volumes are arranged as follows Volume I
Classic essays from Husserl's assistants students and earlier interlocutors Including a selection of papers from such figures
as Heidegger Merleau Ponty Sartre Ricoeur and Levinas Volume II Classic commentaries on Husserl's published works
Covering the Logical Investigations Ideas I Phenomenology of Internal Time Consciousness and Formal and Transcendental
Logic Volumes III and IV Papers concentrating on particular aspects of Husserl's theory including Husserl's account of
mathematics and logic his theory of science the nature of phenomenological reduction his account of perception and
language the theory of space and time his phenomenology of imagination and empathy the concept of the life world and his
epistemology History as a Science and the System of the Sciences Thomas M. Seeböhm, 2015-04-09 This volume goes
beyond presently available phenomenological analyses based on the structures and constitution of the lifeworld It shows how
the science of history is the mediator between the human and the natural sciences It demonstrates that the distinction
between interpretation and explanation does not imply a strict separation of the natural and the human sciences Finally it
shows that the natural sciences and technology are inseparable but that technology is one sidedly founded in pre scientific
encounters with reality in the lifeworld In positivism the natural sciences are sciences because they offer causal explanations
testable in experiments and the humanities are human sciences only if they use methods of the natural sciences For

epistemologists following Dilthey the human sciences presuppose interpretation and the human and natural sciences must be separated There is phenomenology interested in psychology and the social sciences that distinguish the natural and the human sciences but little can be found about the historical human sciences This volume fills the gap by presenting analyses of the material foundations of the understanding of expressions of other persons and of primordial recollections and expectations founding explicit expectations and predictions in the lifeworld Next it shows on the basis of history as applying philological methods in interpretations of sources the role of a universal spatio temporal framework for reconstructions and causal explanations of what has really happened

The New Yearbook for Phenomenology and Phenomenological Philosophy Theodore Kisiel, Thomas Sheehan, 2015-03-24 The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau Ponty and Gadamer

The Collected Works of Aron Gurwitsch (1901-1973) Aron Gurwitsch, 2010-08-17 This volume contains Gurwitsch's magnum opus which emphasizes how items in the thematic field are relevant to the theme It is introduced by his student Richard Zaner This volume also includes the posthumous text *Marginal Consciousness*

Perspectives on Deduction: Contemporary Studies in the Philosophy, History and Formal Theories of Deduction Antonio Piccolomini

d'Aragona, 2024-04-01 This book provides philosophers and logicians with a broad spectrum of views on contemporary research on the problem of deduction its justification and explanation The variety of distinct approaches exemplified by the single chapters allows for a dialogue between perspectives that usually barely communicate with each other The contributions concern in a possibly intertwined way three major perspectives in logic philosophical historical formal The philosophical perspective has to do with the relationship between deductive validity and truth and questions the alleged conclusiveness of deduction and its epistemic contribution It also discusses the role of linguistic acts in deductive practice and provides a cognitive didactic contribution on how we may learn through deduction In the historical perspective the contributions discuss the ideas of some major historical figures such as Bolzano Girard G del and Peano Finally in the formal perspective the mathematics of deduction is dealt with mainly from an intuitionistic constructivist or proof theoretic point of view with focus on ecumenic or internalistic approaches to logical validity on the nature and identity of proofs and on dialogical setups Chapter 14 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Whispering the Techniques of Language: An Emotional Quest through **Formale Und Transzendente Logik II**

In a digitally-driven earth wherever screens reign supreme and immediate communication drowns out the subtleties of language, the profound techniques and mental subtleties concealed within phrases often move unheard. However, nestled within the pages of **Formale Und Transzendente Logik II** a charming fictional treasure blinking with raw thoughts, lies an extraordinary journey waiting to be undertaken. Composed by an experienced wordsmith, that charming opus encourages viewers on an introspective trip, softly unraveling the veiled truths and profound impact resonating within the very cloth of each and every word. Within the emotional depths of the moving evaluation, we will embark upon a sincere exploration of the book's core themes, dissect its charming writing model, and yield to the effective resonance it evokes deep within the recesses of readers' hearts.
