## **Formation Labo:**

*80 concepts en Santé* Anne Muller, 2024-10-22 Cet ouvrage s'adresse aux étudiants ainsi qu'à tous les professionnels de santé. Il présente une sélection de 80 concepts en santé destinée à enrichir la formation initiale et continue comme la pratique de soins et la recherche dans les domaines de la santé, des sciences infirmières et d'autres champs disciplinaires. Rédigé en collaboration avec 47 contributeurs spécialisés issus de divers domaines, cet ouvrage atteint une dimension internationale et une approche fondamentale pour les professions de santé. En utilisant la méthode de Walker et Avant, l'ouvrage analyse les concepts et permet leur appropriation en les définissant, les décrivant, les discriminant et en leur donnant un caractère opératoire grâce aux cas modèles et contraires qui illustrent la mobilisation de chaque concept en situation. Chaque analyse de concept est développée selon huit tapes : l'identification du concept, les buts de l'analyse du concept, les usages du concept, la définition des attributs du concept, la construction d'un cas modèle, la construction d'un cas contraire et l'identification de concepts voisins, les antécédents et les conséquences du concept, les référents empiriques du concept ainsi qu'une bibliographie. Les cartes mentales illustrent les concepts ainsi que les relations qu'ils entretiennent entre eux. Face à l'ingénierie des diplômes et à l'universitarisation des professions de santé, cet ouvrage vise l'acquisition de savoirs fondamentaux, le développement de connaissances et de compétences des étudiants et des professionnels dans les domaines de la santé, des sciences infirmières et des autres domaines et ce jusqu'au niveau d'études doctorales. Anne Muller, infirmière cadre supérieure de santé maternelle et de confidences en Sciences de l'éducation et de la formation à l'université Paris 1 Panthéon Sorbonne, est également deuxième vice-présidente de la CNU santé section 92 en Sciences infirmières. Elle concourt à la formation des soignants dans les domaines des sciences de l'éducation et des sciences infirmières.

*The SAGE Handbook of Identities* Margaret Wetherell, Chandra Talpade Mohanty, 2010-03-23 Overall its breaking of disciplinary isolation enhancing of mutual understanding and laying out of a transdisciplinary platform makes this Handbook a milestone in identity studies. Sociology Increasingly identities are the site for interdisciplinary initiatives and identity research is at the heart of many transdisciplinary research centres around the world. No single social science discipline owns identity research which makes it a difficult topic to categorize. The SAGE Handbook of Identities systematizes this complex field by incorporating its interdisciplinary character to provide a comprehensive overview of its themes in contemporary research while still acknowledging the historical and philosophical significance of the concept of identity. Drawing on a global scholarship the Handbook has four parts. Frameworks presents the main theoretical and methodological perspectives in identities research. Formations covers the major formative forces for identities such as culture, globalisation, migratory patterns, biology and so on. Categories reviews research on the core social categories central to identity such as ethnicity, gender, sexuality, disability and intersections between these. Sites and Context develops a series of case studies of crucial sites and contexts where identity is at stake such as social movements, relationships, work places and citizenship.
