Foundation And Destruction:

If the Foundations be Destroyed Dr John McElhaney, 2019-08-20 This book reveals the problems that we have today that are destroying the things that God has established The picture of the family has been so distorted because of divorce living together without marriage homosexual marriage and lifestyle transvestites and many other things that it does not resemble what God established at all The government has been corrupt ever since it has been in place Look at the horrible things the government has sanctioned down through the years The treatment of the native Americans by killing them and taking their land through trickery or force Look at slavery the most horrendous thing this country has ever done is enslaving black folks for two hundred fifty years and after they received freedom they were still treated as inferior and not welcome by white folks The church in America does not resemble the early church at all weak preachers who fear man more than God The church is totally segregated in America the white church still is so prejudice in the south

Destruction and Its Impact on

Ancient Societies at the End of the Bronze Age Jesse Millek, 2023-02-15 This volume offers a groundbreaking reassessment of the destructions that allegedly occurred at sites across the eastern Mediterranean at the end of the Late Bronze Age and challenges the numerous grand theories that have been put forward to account for them The author demonstrates that earthquakes warfare and destruction all played a much smaller role in this period than the literature of the past several decades has claimed and makes the case that the end of the Late Bronze Age was a far less dramatic and more protracted process than is generally believed

Foundation and Destruction, Nikopolis and Northwestern Greece

Jacob Isager, 2001 Octavian founded Nikopolis in 31 BC to commemorate his naval defeat of Antony and Cleopatra at Actium He then compelled the inhabitants of neighbouring cities to relocate and populate his City of Victory These papers focus on recent excavations in Nikopolis and in the surrounding regions to examine the impact of this forced relocation The evidence indicates that the neighbouring settlements were much less deserted than had been assumed and a rereading of Strabo the principal contemporary source supports this Other papers examine the Actian Tropaeum the most important construction in Nikopolis which celebrated Actium settlement patterns epigraphy pottery surveys and the distribution of cults
