**Video Analysis and Repackaging for Distance Education** A. Ranjith Ram, Subhasis Chaudhuri, 2012-06-13 This book presents various video processing methodologies that are useful for distance education The motivation is to devise new multimedia technologies that are suitable for better representation of instructional videos by exploiting the temporal redundancies present in the original video This solves many of the issues related to the memory and bandwidth limitation of lecture videos The various methods described in the book focus on a key frame based approach which is used to time shrink repackage and retarget

instructional videos All the methods need a preprocessing step of shot detection and recognition which is separately given as a chapter We find those frames which are well written and distinct as key frames A super resolution based image enhancement scheme is suggested for refining the key frames for better legibility These key frames along with the audio and a meta data for the mutual linkage among various media components form a repackaged lecture video which on a programmed playback render an estimate of the original video but at a substantially compressed form The book also presents a legibility retentive retargeting of this instructional media on mobile devices with limited display size All these technologies contribute to the enhancement of the outreach of distance education programs Distance education is now a big business with an annual turnover of over 10 12 billion dollars We expect this to increase rapidly Use of the proposed technology will help deliver educational videos to those who are less endowed in terms of network bandwidth availability and to those everywhere who are even on a move by delivering it effectively to mobile handsets including PDAs Thus technology developers practitioners and content providers will find the material very useful Words on Cassette, 1999 Bowker Editorial Staff, Staff Bowker R R, Bowker, 1999-02 *Hi Fi/stereo Review*, 1994 Words on Cassette, 1999 *Billboard*, 1999-08-28 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Billboard, 1998-10-03 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Sound & Vision*, 2003 Official Gazette of the United States Patent and Trademark Office, 2003 **Technician Class** Gordon West, 2003 Gordon West study manual for entry level FCC amateur radio Technician Class license for exams valid from 7 1 2003 through 6 30 2007 Broadcast Engineering, 1971
