,1991 The World of Croquet John McCullough,Stephen Mulliner,1987 **The Royal Navy and the Falklands War**

David Brown, 1987-07-13 This military history reveals the untold story of the United Kingdom's Royal and Merchant Navies during the Falkland's War. Soldiers and journalists alike wasted no time in memorializing the campaign to recapture the Falkland Islands after the Argentinian invasion in April 1982. With the overwhelming focus on the role of the Army, the vital contributions of the Royal and Merchant Navies have been largely overlooked. Yet no British military forces would have been there at all had the Royal Navy not provided the necessary transport, not to mention air cover and bombardment support. In this book, naval historian David Brown tells the extraordinary story of how the fleet was assembled. Merchant ships ranging from luxury liners such as the SS Canberra to cargo carriers of every description were quickly converted to their new role as STUFTs or Ships Taken Up From Trade. Brown describes the stupendous problems presented by the assembling and stowing of the thousands of tons of stores and equipment needed by the Expeditionary Forces and the way in which these problems were solved.
