Canvi lingüístic, estandardització i identitat en català / Linguistic Change, Standardization and Identity in Catalan Hans-Ingo Radatz, 2020-05-15 The multiplicity of parallel identities that make up our personalities

is a phenomenon in which our individual identity choices merge with diverse collective identities The present volume is a contribution to the field of Identity Studies but from a clearly linguistic perspective It unites several contributions which analyze discourses centered on national or regional identities as for instance the Catalanity of the frontier city of Lleida the connection between the natural environment and the conceptualization of deictic space or the dialectics between center and periphery Other chapters try to shed light on problems arising from the particular situation of Catalan as a non state

language The contributions thus range from aspects of Cultural Studies on identities and their constituting discourses to Catalan linguistics and sociolinguistics

Història agrària dels Països Catalans Emili Giralt i Raventós, 2004 Aquest volum examina la via particular d'implantació de l'agricultura capitalista als Països Catalans des de la revolució liberal fins a l'inici del segle XXI amb les conseqüències de la integració de l'Estat espanyol a la Unió Europea El volum comença amb una presentació dels grans temes del període En capítols successius s'analitzen els aspectes principals que caracteritzen aquest procés i se'n discuteixen les interpretacions tradicionals sovint resultat d'una visió idealitzada i anacrònica del capitalisme agrari les quals han tendit a destacar el parcial lent i moderat desenvolupament agrari En el primer capítol s'hi examina el canvi institucional des de la crisi de l'Antic Règim i la reforma agrària liberal fins a les polítiques agràries i el sistema d'herència que conjuntament van ser crucials en l'arrelament del capitalisme agrari El segon capítol tracta dels canvis en la base productiva a partir de l'evolució demogràfica els canvis en els sistemes productius i les innovacions tècniques El capítol tercer analitza el procés creixent de mercantilització que es produïa durant el període i el segon se centra en l'anàlisi de l'estructura de la propietat formes de tinença de la terra i la transició alimentària que han configurat el desenvolupament capitalista contemporani El capítol cinquè versa sobre conflictivitat i associacionisme des de les guerres carlines fins a la Guerra Civil El sisè i últim capítol cobreix l'etapa que va des de l'autarquisme postbélic dels anys quaranta fins a finals del segle XX la qual va significar un espectacular creixement de la producció juntament amb la fi del món pagès

The Intricacy of Languages Francesc Feliu, Olga Fullana, 2019-10-15 If as we believe the history of languages is the history of the construction of an ideal

artefact that permits a specific interpretation of the linguistic reality and helps to approve and assimilate a certain zone of diversity enabling the accumulation of collective historical knowledge and making us identify it with a social community and a territory then it must be agreed that languages are extremely complex entities The new linguistic diversity that cultural globalisation and recent population movements have installed in most traditional linguistic territories has probably put the ideology of the national language into a state of crisis and as a consequence has made the ancient intrinsic diversity of all languages visible at least to the extent that this is still possible Nowadays then the old linguistic diversity of dialects of parlances of local lexicons and the cultural forms that are reflected in these of varieties and previously unsuccessful linguistic entities has been given a new opportunity in a world where the cohesion of societies and the welfare of citizens must be guaranteed using all available means Looked at this way the intricacy of languages may even open up an opportunity for local economic and social development

Full Informatiu : Volum: 5-6 , La població de Tarragona al segle XVII Roser Lozano Díaz, 2019-06-19 L'autora porta a terme una anàlisi ben acurada dels diferents elements del sistema demogràfic nupcialitat fecunditat natalitat mortalitat Estudia tant els moviments de llarga durada com els factors diferencials El resultat del seu treball palesa que Tarragona com en general les ciutats de l'època preindustrial eren grans centres de mortalitat i que el seu limitat creixement demogràfic es basava en la immigració Els corrents migratoris

constituïren un factor positiu en l'evolució demogràfica de Tarragona al llarg del segle XVII. Les diferents procedències dels emigrants són precisades amb cura: gent provinent de l'interior de Catalunya, persones d'altres territoris de la península Ibèrica i els procedents de les terres del regne de França.

Desired Language Francesc Feliu, 2023-01-15 National linguistic ideology has been at the base of most historical processes that whether they are complete or not have brought us to the current reality: a world of languages that represent with greater or lesser exactitude the diversity and convergences of human groups. Various of today's thinkers have predicted the decline or even the end of national ideologies. In the area of language postmodernism would make the linguistic affiliation of the community individuals irrelevant, de-ideologise language use and extend plurilingualism and language alternation in association with a new distribution of physical or functional spaces of linguistic practice. But is this true everywhere? Are languages now nowhere the core of collective identity? Or are we witnessing a distinction between languages that because of their magnitude, status, strategic position, etc. can continue to exercise the function of national languages and languages that have to renounce this function? Has national linguistic ideology really ceased to make sense? What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there? What kinds of languages are desired by politicians, intellectuals and philologists? This book aims to bring some thoughts about these questions.

La revista Canigó Miquel Antoni Cruz i Morente, 2019-11-10 Aquest llibre intenta aproximar-se a la realitat social política cultural i literària del règim franquista i del període de la transició. Gràcies a la revista Canigó 1954-1983 fundada pel figuerenc Xavier Dalfó i Hors descobrirem els principals esdeveniments culturals sobretot a l'àmbit de la literatura escrita en català no solament a Catalunya sin també al País Valencià. Així l'intent de comprensió d'aquesta realitat històrica es troba determinat per les coordenades temporals, la dictadura franquista i espacials en què sorgeix la publicació dels Països Catalans i per tant aprofundir precisament en les bases fundacionals de la revista Canigó 1954-1983. Fer visible una realitat catalana que no tenia cabuda en la resta de mitjans de comunicació de l'època. La supressió de la presència pública del català durant els primers anys d'aquesta etapa del franquisme fa que Canigó se centri en qüestions bàsicament culturals així implic la lluita de la revista per recuperar la cultura catalana pròpia. La publicació independent del Movimiento i de l'Església va representar en aquell moment de postguerra un al·lègi fresc i de llibertat enmig de l'opressió del règim franquista.
