With an Introd. by Erle Loran Horatio Grennough,1969      **Form and Function** Horatio Greenough,1969      *The Evolution of Designs* Philip

Steadman,2008-06-03 The Evolution of Designs tells the history of the many analogies that have been made since the end of the eighteenth century between the evolution of organisms and the human production of artefacts especially buildings

**Introducing Architectural Theory** Korydon Smith,Miguel Guitart,2024-01-22 Building on the success of the first edition an engaging and reader friendly work on complex ideas Introducing Architectural Theory Expanding the Disciplinary Debate broadens the range of themes voices and geographies represented to provide a more comprehensive and contemporary theory book This book presents major discourses in architectural theory and design in a debate like format integrating a series of edited texts across architectural history with context and newly written commentaries by the authors This new edition has been fully revised updated and expanded to include long standing debates such as simplicity vs complexity or the relationship between form and function as well as newer discussions on innovation globalization and social equity Authors Smith and Guitart provide a comprehensive means and conceptual framework for readers to compare multiple points of view The chapter structure discussion questions and additional resources allow teachers to facilitate in class discussions and writing assignments This book remains the most accessible architectural theory textbook written for beginning architecture students and those outside the discipline Its reflective and critical approach will equally engage the minds of upper level students and experts      *Introducing Architectural Theory* Korydon H. Smith,2012 Presents common architectural subjects as though they were conversations across history between theorists by providing you with the original text a reflective text and a philosophical text      **An Introduction to Design and Culture** Penny Sparke,2019-08-28 An Introduction to Design and Culture provides a comprehensive guide to the changing relationships between design and culture from 1900 to the present day with an emphasis on five main themes Design and consumption Design and technology The design profession Design theory Design and identities This fourth edition extends the traditional definition of design as covering product design furniture design interior design fashion design and graphic design to embrace its more recent manifestations which include service design user interface design co design and sustainable design among others It also discusses the relationship between design and the new media and the effect of globalisation on design Taking a broadly chronological approach Professor Sparke employs historical methods to show how these themes developed through the twentieth century and into the twenty first century and played a role within modernism postmodernism and beyond Over a

hundred illustrations are used throughout to demonstrate the breadth of design and examples among them design in Modern China the work of Apple Computers Ltd and design thinking are used to elaborate key ideas The new edition remains essential reading for undergraduate and postgraduate students of design studies cultural studies and visual arts

**The Routledge Handbook of the Philosophy of Engineering** Diane P. Michelfelder, Neelke Doorn, 2020-12-29 Engineering has always been a part of human life but has only recently become the subject matter of systematic philosophical inquiry The Routledge Handbook of the Philosophy of Engineering presents the state of the art of this field and lays a foundation for shaping future conversations within it With a broad scholarly scope and 55 chapters contributed by both established experts and fresh voices in the field the Handbook provides valuable insights into this dynamic and fast growing field The volume focuses on central issues and debates established themes and new developments in Foundational perspectives Engineering reasoning Ontology Engineering design processes Engineering activities and methods Values in engineering Responsibilities in engineering practice Reimagining engineering The Routledge Handbook of the Philosophy of Engineering will be of value for both students and active researchers in philosophy of engineering and in cognate fields philosophy of technology philosophy of design It is also intended for engineers working both inside and outside of academia who would like to gain a more fundamental understanding of their particular professional field The increasing development of new technologies such as autonomous vehicles and new interdisciplinary fields such as human computer interaction calls not only for philosophical inquiry but also for engineers and philosophers to work in collaboration with one another At the same time the demands on engineers to respond to the challenges of world health climate change poverty and other so called wicked problems have also been on the rise These factors together with the fact that a host of questions concerning the processes by which technologies are developed have arisen make the current Handbook a timely and valuable publication

**Frank Lloyd Wright and Le Corbusier** Richard A. Etlin, 1994 Architectural historian Etlin defines the main principles of progressive 19th century architectural thought the architectural system the picturesque philosophical eclecticism and the spirit of the times These principles are explored in detail in relation to 19th and 20th century architecture and also to demonstrate their importance to the work of Wright and Le Corbusier Illustrated with drawings and photos Distributed by St Martin s Press Annotation copyrighted by Book News Inc Portland OR

**A Companion to American Art** John Davis, Jennifer A. Greenhill, Jason D. LaFountain, 2015-01-30 A Companion to American Art presents 35 newly commissioned essays by leading scholars that explore the methodology historiography and current state of the field of American art history Features contributions from a balance of established and emerging scholars art and architectural historians and other specialists Includes several paired essays to emphasize dialogue and debate between scholars on important contemporary issues in American art history Examines topics such as the methodological stakes in the writing of American art history changing ideas about what constitutes Americanness and the relationship of art to public culture Offers a fascinating portrait of the evolution and

current state of the field of American art history and suggests future directions of scholarship The Interface John Harwood, 2011-11-15 In February 1956 the president of IBM Thomas Watson Jr hired the industrial designer and architect Eliot F Noyes charging him with reinventing IBM's corporate image from stationery and curtains to products such as typewriters and computers and to laboratory and administration buildings What followed a story told in full for the first time in John Harwood's The Interface remade IBM in a way that would also transform the relationships between design computer science and corporate culture IBM's program assembled a cast of leading figures in American design Noyes Charles Eames Paul Rand George Nelson and Edgar Kaufmann Jr The Interface offers a detailed account of the key role these designers played in shaping both the computer and the multinational corporation Harwood describes a surprising inverse effect the influence of computer and corporation on the theory and practice of design Here we see how in the period stretching from the invention of the computer during World War II to the appearance of the personal computer in the mid 1970s disciplines once well outside the realm of architectural design information and management theory cybernetics ergonomics computer science became integral aspects of design As the first critical history of the industrial design of the computer of Eliot Noyes's career and of some of the most important work of the Office of Charles and Ray Eames The Interface supplies a crucial chapter in the story of architecture and design in postwar America and an invaluable perspective on the computer and corporate cultures of today

**Literature in the Making** Nancy Glazener, 2016 In the eighteenth century literature meant learned writings by the twentieth century literature had come to be identified with imaginative aesthetically significant works and academic literary studies had developed special protocols for interpreting and valuing literary texts Literature in the Making examines what happened in between how literature came to be more precisely specified and valued how it was organized into genres canons and national traditions and how it became the basis for departments of modern languages and literatures in research universities Modern literature the version of literature familiar today was an international invention but it was forged when literary cultures traditions and publishing industries were mainly organized nationally Literature in the Making examines modern literature's coalescence and institutionalization in the United States considered as an instructive instance of a phenomenon that was going global Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer Cervantes and Shakespeare however the development of literature and literary culture in the U S was fundamentally transnational Literature in the Making argues that Shakespeare studies one of the richest tracts of nineteenth century U S literary culture was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk a foundational paradox that continues to shape literary studies and literary culture Bringing together the histories of literature's competing conceptualizations its print infrastructure its changing status in higher education and its life in public culture during the long nineteenth century Literature in the Making offers a robust account of how and why literature mattered then and matters

now By highlighting the lively collaboration between academics and non academics that prevailed before the ascendancy of the research university starkly divided experts from amateurs Literature in the Making also opens new possibilities for envisioning how academics might partner with the reading public The Process Genre Salomé Aguilera Skvirsky, 2020-03-20 From IKEA assembly guides and hands and pans cooking videos on social media to Mister Rogers's classic factory tours representations of the step by step fabrication of objects and food are ubiquitous in popular media In The Process Genre Salomé Aguilera Skvirsky introduces and theorizes the process genre a heretofore unacknowledged and untheorized transmedial genre characterized by its representation of chronologically ordered steps in which some form of labor results in a finished product Originating in the fifteenth century with machine drawings and now including everything from cookbooks to instructional videos and art cinema the process genre achieves its most powerful affective and ideological results in film By visualizing technique and absorbing viewers into the actions of social actors and machines industrial educational ethnographic and other process films stake out diverse ideological positions on the meaning of labor and on a society's level of technological development In systematically theorizing a genre familiar to anyone with access to a screen Skvirsky opens up new possibilities for film theory **Picturing the City** Rebecca Zurier, 2006-09-06 Zurier vividly locates the Ashcan School artists within the early twentieth century crosscurrents of newspaper journalism literary realism illustration sociology and urban spectatorship Her compassionate study newly assesses the artists rejection of genteel New York their alignments with mass media and their innovative ways of seeing in the modern city Wanda M Corn author of The Great American Thing Modern Art and National Identity 1915 35 If the Ashcan School brought a special and embracing eye to the city Rebecca Zurier in her richly contextual and impressively interdisciplinary book explains and evokes that historically specific urban vision in all its richness Finally in Picturing the City we have the study these painters have long deserved And we gain new and delightful access to New York City at the moment of its emergence as a compelling embodiment of metropolitan modernity Thomas Bender Director International Center for Advanced Studies New York University Picturing the City is both meticulous and wide ranging in its assessment of the Ashcan artists and their passionate efforts to represent New York It charts their pleasures and problems warmth and prejudices generosity and differences originality and formula It takes seriously their habits as journalists and provides the most complete sense of their immersion in a world of urban spectatorship and vision Rebecca Zurier has written a wonderful timely book that will be a benchmark for any future discussions of them Anthony W Lee author of Picturing Chinatown Art and Orientalism in San Francisco Rebecca Zurier takes us on an intellectually exhilarating and breathtakingly beautiful visual voyage through turn of the century New York City as the Ashcan painters saw it As we watch them learn a new way of looking in the commercially dynamic sensual New York of a century ago we too see that time and place with fresh eyes Inevitably thanks to Zurier the way we look at city life today will change as well Lizabeth Cohen author of A Consumers Republic The Politics of Mass Consumption in Postwar
