Formless In Form:

Formless in Form Linda H. Chance, 1997 What makes a work of literature readable This book asks that question of one of the classics of Japanese literature the *Tsurezuregusa* Essays in Idleness by Kenko 1283 1352 a collection of brief fragmentary reflections on a number of subjects In Japanese literary history the work is classified as one of the first collections of *zuihitsu* or informal essay This first extended critical treatment of *Tsurezuregusa* goes back to its author and his time to rebuild the discursive world of the early fourteenth century and to examine such matters as whether genre labels assist reading or obscure significant comparisons and contexts The book presents compelling arguments against considering *Tsurezuregusa* as an example of *zuihitsu* instead the text is treated as a deliberate controlled effort by Kenko to force the reader to confront the impermanent and contingent nature of existence through experiencing the text The book develops this view by studying the collaborative strategies operating between writers and readers in medieval Japan the intellectual intent and devices of Kenko's text and the many kinds of writing on which it draws We learn how a text with a commitment to shaping responses to the world is simultaneously dedicated to exploding the reader's identification with the presumably unchanging facts of existence The aesthetics of impermanence *mujo* central to medieval Japanese thinking emerges not only as what writing is about but also as a means to demonstrate and to encourage the enactment of aesthetics by readers Thus a work that seems formless to have little structure is shown to be so in the interest of form that is of conveying a clear meaning to its audience Or to express it with a more Buddhist inflection amenable to Kenko although the form that we can perceive is contingent on conditions and is hence formless the fact of form continues to matter absolutely Both literature and the nature of existence are readable because of the interplay of provisional and absolute truths of the writer's and the reader's approaches to texts

Dynamic Form Cara L. Lewis, 2020-07-15 *Dynamic Form* traces how intermedial experiments shape modernist texts from 1900 to 1950 Considering literature alongside painting sculpture photography and film Cara Lewis examines how these arts inflect narrative movement contribute to plot events and configure poetry and memoir As forms and formal theories cross from one artistic realm to another and back again modernism shows its obsession with form and even at times becomes a formalism itself but as Lewis writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism

can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form's operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media

Andrey Platonov Tora Lane, 2020-07-06 This book traces the originality of Andrey Platonov's vision of the Revolution in readings of his works It has been common in Platonov scholarship to measure him within the parameters of a political pro et contra the October Revolution and Soviet society but the proposal of this book is to look for the way in which the writer continuously asked into the disastrous aspects of the implementation of a new proletarian community for what they could tell us about the promise of the Revolution to open up the experience of the world as common In readings of selected works by Andrei Platonov I follow the development of his chronicle of revolutionary society and from within it the outline of the forgotten utopian dream of a common world I bring Platonov into a dialogue with certain questions that arise from the philosophy of Martin Heidegger and that were later re-addressed in the works of Maurice Blanchot Georges Bataille and Jean-Luc Nancy related to the experience of the modern world in terms of communality groundlessness memory interiority I show that Platonov writes the Revolution as an implementation of common being in society that needs to retrieve the forgotten memory of what being in common means

Awakening Rodney Smith, 2014-03-11 An amazingly succinct and accessible answer to the question What is enlightenment from one of America's most prominent teachers of Insight Meditation Former Buddhist monk and highly regarded Insight Meditation teacher Rodney Smith describes the process of enlightenment in a way anyone can understand demonstrating in clear language why we operate with the illusion of separation how we can move out of it to the realization of emptiness and no self and how we can live from that state of awakening He provides brief powerful exercises that enable us to challenge the reality of our thoughts in order to free ourselves from the illusion they keep us bound to all the while steering us away from the temptation to regard spiritual practice as a process of self-improvement or a goal to be obtained With systematic precision and with subtle wisdom born of a lifetime of practice Rodney Smith uses science psychology and traditional Buddhism to explain the unexplainable the how and why of authentic spiritual awakening an original work by a contemporary spiritual master at the height of his powers Norman Fischer author of Training in Compassion

The Quintessence Michael Faust, 2013-02-10 How can we tell if our judgment is sound Will the abandoned choices the lost options the lives we never led haunt us like spectral reproaches Are we living in a perfect world Why not What went so badly wrong What makes us choose disastrously en masse Whatever happened to the so-called Wisdom of Crowds If they're so smart why is the world so dumb Is it true as the Illuminati assert that the West lost an entire millennium because of Christianity Was it this strange religion that sabotaged our progress to our

own Eden What might the world have looked like if instead of the rule of the Catholic Church paganism had prevailed This is the story of an alternative history of the West one where Christianity never happened The tale of this bright world that never was begins with the pre Socratic philosophers of ancient Greece some of the greatest boldest and most imaginative thinkers of all time This is the tale of the infinitely mysterious Quintessence **On the Strange Place of Religion in**

Contemporary Art James Elkins,2004 Can contemporary art say anything about spirituality John Updike calls modern art a religion assembled from the fragments of our daily life but does that mean that contemporary art is spiritual What might it mean to say that the art you make expresses your spiritual belief On the Strange Place of Religion in Contemporary Art explores the curious disconnection between spirituality and current art This book will enable you to walk into a museum and talk about the spirituality that is or is not visible in the art you see Innovation in Music II R Hepworth-Sawyer,J

understanding of architectural creativity and architectural experience with case examples from early modern architecture to the present Freud's observations on the human psyche and its influence on culture and social behavior have generated a great deal of discussion since the 19th century Yet what Freud's key ideas offer to the understanding of architectural creativity and experience has received little direct attention That is partly because Freud opened the door to a place where conventional research in architecture has little traction the unconscious Adding to the difficulties Freud's collection of work is vast and daunting Freud for Architects navigates Freud's key ideas and bridges a chasm between architecture and psychoanalytic theory The book highlights Freud's ideas on the foundational developments of childhood developments on which the adult psyche is based It explains why and how the developmental stages could influence adult architectural preferences and preoccupations spatial intuition and beliefs about what is proper and right for architectural design As such Freud for Architects will be of great interest to students practitioners and scholars in a range of disciplines including architecture psychoanalysis and philosophy

Neoplatonism and Gnosticism Rich T. Wallis, Jay Bregman, 1992-07-07 In recent decades our view of Gnosticism has been revolutionized by the discovery of a Coptic Gnostic library at Nag Hammadi Egypt Currently Gnosticism is seen as a phenomenon extending far beyond Christianity and displaying a strong Platonic influence The opposition between the two systems was certainly not as sharp as Plotinus claimed Where why and how the ideological lines were drawn is discussed in the light of the new historical evidence
