A Republic No More Jay Cost,2016-07-12 After the

Constitutional Convention Benjamin Franklin was asked Well Doctor what have we got a Republic or a Monarchy Franklin s response A Republic if you can keep it This book argues we couldn t keep it A true republic privileges the common interest above the special interests To do this our Constitution established an elaborate system of checks and balances that disperses power among the branches of government which it places in conflict with one another The Framers believed that this would keep grasping covetous factions from acquiring enough power to dominate government Instead only the people would rule Proper institutional design is essential to this system Each branch must manage responsibly the powers it is granted as well as rebuke the other branches when they go astray This is where subsequent generations have run into trouble we have overloaded our government with more power than it can handle The Constitution s checks and balances have broken down because the institutions created in 1787 cannot exercise responsibly the powers of our sprawling immense twenty first century government The result is the triumph of special interests over the common interest James Madison called this factionalism We know it as political corruption Corruption today is so widespread that our government is not really a republic but rather a special interest democracy Everybody may participate yes but the contours of public policy depend not so much on the common good as on the push and pull of the various interest groups encamped in Washington DC **The Economics**

Subcommittee on Oversight,1984 [American Foundations](#) Mark Dowie,2002-08-23 In American Foundations Mark Dowie argues that organized philanthropy is on the verge of an evolutionary shift that will transform America s nearly 50 000 foundations from covert arbiters of knowledge and culture to overt mediators of public policy and aggressive creators of new orthodoxy He questions the wisdom of placing so much power at the disposal of nondemocratic institutions As American wealth expands old foundations such as Ford Carnegie Rockefeller Pew and MacArthur have grown exponentially while newer trusts such as Mott Johnson Packard Kellogg Hughes Annenberg Hewlett Duke and Gates have surpassed them Foundation assets now total close to 400 billion Though this is a tiny sum compared to corporate and government treasuries and foundation grants still total less than 10 percent of contributions made by individuals foundations have power and influence far beyond their wealth Their influence derives from the conditional nature of their grant making their power from its leverage Unlike previous historians of philanthropy who have focused primarily on the grant maker Dowie examines foundations from the public s perspective He focuses on eight key areas in which foundations operate education science health environment food energy art and human services He also looks at their imagination or lack thereof and at the strained relationship between American foundations and American democracy Dowie believes that foundations deserve to exist and that they can assume an increasingly vital role in American society but only if they transform themselves from private to essentially public institutions The reforms he proposes to make foundations more responsive to pressing social problems and more accountable to the public will almost certainly start an important national debate [The Foundation of Japanese Power](#) William R. present stimulating discussions on resolving problems and improving the situation in rural areas Looking at the crucial issues of employment demographics environment technology and the global impacts of national and international policies they offer a broad analysis that is neither regionally based nor biased The result is not an advocacy book but one that effectively enhances our understanding of the problems facing rural America and presents concrete proposals for revitalizing it
