heteroglossia chronotope and the carnivalesque defined in the glossary and a new practical approach to historical analysis of generic breakdown and narrative re emergence in contemporary art Haynes uses Bakhtinian concepts to interpret a range of art from religious icons to post Impressionist painters and Russian modernists to demonstrate how the application of his thought to visual culture can generate significant new insights Rehabilitating some of Bakhtin s neglected ideas and reframing him as a philosopher of aesthetics Bakhtin Reframed will be essential reading for the huge community of Bakhtin scholars as well as students and practitioners of visual culture
