Anderson, Michael Beintker, Eberhard Busch, Timothy Gorringer, Garrett Green, Kevin Hector, I. John Hesselink, George Hunsinger, J. Christine Janowski, Paul Dafydd Jones, Joseph L. Mangina, Bruce L. **The Church of Christ** Everett Ferguson, 1996 By systematically examining the New Testament's teaching, Ferguson unveils a comprehensive model of the church that is both biblically centered and relevant to a world on the verge of the twenty-first century.

**The Oxford Handbook of Christology** Francesca Aran Murphy, 2015-09-24 The Oxford Handbook of Christology brings together 40 authoritative essays considering the theological study of the nature and role of Jesus Christ. This collection offers dynamic perspectives within the study of Christology and provides rigorous discussion of interconfessional theology which would not have been possible even 60 years ago. The first of the seven parts considers Jesus Christ in the Bible. Rather than focusing solely on the New Testament, this section begins with discussion of the modes of God's self-communication to us and suggests that Christ's most original incarnation is in the language of the Hebrew Bible. The second section considers Patristic Christology. These essays explore the formation of the doctrines of the person of Christ and the atonement between the First Council of Nicaea in 325 and the eve of the Second Council of Nicaea. The next section looks at Mediaeval theology and tackles the development of the understanding of who Christ was and of his atoning work. The section on Reformation and Christology traces the path of the Reformation from Luther to Bultmann. The fifth section tackles the new developments in thinking about Christ which have emerged in the modern and the postmodern eras, and the sixth section explains how beliefs about Jesus have affected music, poetry, and the arts. The final part concludes by locating Christology within systematic theology, asking how it relates to Christian belief as a whole. This comprehensive volume provides an invaluable resource and reference for scholars, students, and general readers interested in the study of Christology.

*Bonhoeffer and Christology* Matthias Grebe, Nadine Hamilton, Christian Schlenker, 2023-05-18 The key question this volume addresses is how does Bonhoeffer's thought help to rediscover the doctrine of Christ's two natures and one person and understand and renew it in its significance for a modern post-metaphysical and secular world. The volume takes a fresh look at Dietrich Bonhoeffer's Christology and brings it into a fruitful dialogue with current Christological debates. In a multi-perspectival pluralistic world, Bonhoeffer's thinking offers a productive basis for conceptually incorporating the openness required for this task into academic theology. Bonhoeffer's theology offers a starting point for the

recovery of a productive Christology that reflects the plurality of the globalized world as Bonhoeffer's Christology begins precisely with this integration into worldly reality whereby the world is understood in its plurality and polyphony. In this way he characterizes his enterprise as follows: What keeps gnawing at me is the question what is Christianity or who is Christ actually for us today. DBWE 8:362. Accordingly it opens itself up not only to inner Christian discussion but also to non-Christian worldviews from which a basic ethical demand follows. God's Church-Community David Emerton, 2020-07-09. David Emerton argues that Dietrich Bonhoeffer's ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology. Building on a rigorous and provocative discussion of Bonhoeffer's thought, Emerton establishes a programmatic theological grammar for any speech about the church. Emerton argues that Bonhoeffer understands the church as a pneumatological and eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations. These foundations in turn give rise to a unique methodological approach to ecclesiological description, an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit. Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church: that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other. This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action.

**Beyond the Visible Church** Florian Klug, 2024-01-27. In *Beyond the Visible Church*, theologian Florian Klug investigates the Abel motif hermeneutically throughout Christian church history. By showing how the biblical motif of Abel was read and used by representative theologians like Augustine, Bonaventure, Martin Luther, Yves Congar, and others of each epoch, Klug builds the story of the Church's self-conception and shows how it has evolved over time. By tracing this theological and ecclesiological history and how the motif formed theologians and the Church over time, Klug shows readers a new way to conceive and understand God's universal will for salvation. By deconstructing and reconstructing the historical occurrences of these ideas, Klug demonstrates that the Church's self-conception is not yet complete. This unique and ground-breaking study opens new ways forward for Catholic ecclesiology and hope for today's universal Church. **Giving the Church** Michael Moynagh, 2024-05-30. The nucleus of the church's vocation is to join the Spirit in giving communion in Christ to others in the form of new Christian communities for the benefit of the world. But can the church be a welcome gift? In *Giving the Church*, leading ecclesiologist Michael Moynagh draws together recent thinking from the worlds of ecclesiology and missiology with significant sociological work on the idea of gift to provide a much-needed theological rationale for some of the key missiological and ecclesiological movements in today's church. Part 1 reworks some of the big themes in ecclesiology from this giving perspective: the nature of the church, the four marks, the visible-hidden church, and inclusion-exclusion. Part 2

meanwhile draws on the extensive literature on gifts to offer an ethical framework for giving the church to others and uses this framework to provide fresh readings of liberationist herald and eucharistic models of the church It concludes by arguing that giving the church away can be a route to making the church a more attractive gift The Forgotten Ways Handbook Alan Hirsch, Darryn Altclass, 2009-04 An internationally known missional church expert offers leaders practical suggestions real life examples and proven strategies for applying missional paradigms **Being and Action Coram Deo** Koert Verhagen, 2021-09-09 Koert Verhagen not only provides the first in depth treatment of how the doctrine of justification crucially frames Bonhoeffer's approach to questions surrounding human being and action he also addresses the ethical implications of retrieving this perspective for the Church today Drawing on his early academic theology and his later ethics of discipleship Verhagen argues that Bonhoeffer's emphasis on the social implications of justification leads to an understanding of human existence that is fundamentally relational Along the way he draws Bonhoeffer's thinking on this front into conversation with Luther German idealism the Nazi Weltanschauung and contemporary Pauline scholarship With an eye to the contemporary practical value of Bonhoeffer's theology Verhagen concludes by making the case that the retrieval of justification's social implications provides a critical corrective to ecclesial responses to white supremacy

**Towards an Adventist Version of Communion Ecclesiology** Tihomir Lazić, 2019-11-13 This book explores how Seventh day Adventists like other Christians can benefit from generating their own version of communion ecclesiology It starts by offering a critical analysis of the status quo of the existing Adventist portrayal of church as remnant and suggests potential ways of moving this tradition forward To articulate a more rounded and comprehensive vision of the church's rich and multifaceted relational nature this book draws on the mainstream Christian koinonia based framework Consequently it provides possible solutions to some of the most divisive ecclesial issues that Christian communities face today regarding church structure ministry mission communal interpretation and reform As it sets on a new footing the conversation between Adventism and other mainstream Christian traditions the methodology of this book serves as a pathway for any Christian community to use when revisiting and enhancing its own current theologies of the church Paperbound Book Guide for Colleges, 1972 *Vatican Council II* Elizabeth Harrington, David Orr, Carmel Pilcher, 2013-08-31 Sacrosanctum Concilium opened the door to all Christians to understand the contemporary challenge to their life and health and it started with the reform of the liturgy In the words of Paul VI the liturgy is the first source of life communicated to us the first school of our spiritual life the first gift we can give to Christian people by our believing and praying and the first invitation to the world That is surely true for all of us **The Oxford Handbook of Theological Ethics** Gilbert Meilaender, William Werpehowski, 2005-08-25 The Oxford Handbook of Theological Ethics is an authoritative guide to the practical and theoretical issues that concern and shape the discipline Thirty of the world's most distinguished specialists provide new essays in order to offer a survey of and analysis of the subject As this is a Handbook of theological ethics its essays deal not

only with the standard topics of ethics the goals we ought to seek the actions we ought to do the sort of people we should seek to be but more particularly with the shape moral life takes for those who seek to live as Christians BOOK JACKET
