AUTHOR S MESSAGE TO READERS No matter what our perception is in relation to the subject of war and peace in our modern times we have an inherent obligation to inculcate a spirit of lucidity and responsibility to reject erratic and ferment principles of politics that may jeopardize our determination to make our world a peaceful place What is required is that we open up to the truth of the past and inculcate the good principles of politics into our contemporary culture of peace The rethinking of ancient philosophy of peace is to reanimate us once again with the wisdom of the past in our search today for order and tranquility tranquillitas ordinis The philosophy of peace of the ancient times is not a monolith for sure we can detect minor deficiencies and utopian elements in it nevertheless its profundity and uniqueness offers those who study it something exceptional distinctive and pure that has stood the test of time and all forms of cultural alterations over the centuries Ancient philosophy has introduced us to the basic truth thus peace is inner repose and outer harmony and the person is at peace when he is not anguished inwardly by conflicting desires whilst living in harmony with others Ancient philosophy affirms that men are intelligent and willing beings and are naturally called to build peace in their lives and in the society this is true because any man who has examined history and human nature will agree with me that there is no such thing as a human heart that does not crave for peace and happiness With a good modus operandi and determination we can build sound politics and social organization of peace because peace is the only thing that can hold the human family together

Our Fundamental Problem Nicholas Maxwell,2020-06-03 How can the world we live in and see touch hear and smell the world of living things people consciousness free will meaning and value how can all of this exist and flourish embedded as it is in the physical universe made up of nothing but physical entities such as electrons and quarks How can anything be of value if everything in the universe is ultimately just physics In Our Fundamental Problem Nicholas Maxwell argues that this problem of reconciling the human and physical worlds needs to take centre stage in our thinking so that our best ideas about it interact with our attempts to solve even more important specialized problems of thought and life When we explore this
