How To Make Enemies An Autobiography:

Write Your Memoir Allan G. Hunter, 2012-06-01 Drawing from more than 25 years of literary know how and modeled after a 15 week college course this manual provides guidance for seekers wishing to delve further into self exploration through writing Extending beyond the idea that memoir writing intends to put past events into a more understandable current perspective the guide maintains that keeping a document of one s life is actually the basis of a psychic process called soul work which manifests as a desire to experience the state of being alive to the fullest This unusual approach to memoir writing aims to generate more honest and genuine results that come from inner needs rather than outer expectations Intended to clarify a writer s developmental path this resource emphasizes the importance of self awareness and the need for dealing with difficult material that actually alters the writer in the process resulting in significant growth of the soul

The Ethics of Autobiography Angel G. Loureiro, 2000

After laying out these theoretical foundations Loureiro puts them to work in analyzing four of the most fascinating autobiographies written by Spanish exiles The Life of Joseph Blanco White who lived from 1775 to 1841 Memoria de la Melancolia by Maria Teresa Leon 1904 1988 Coto vedado and En los reinos de taifa by Juan Goytisolo born 1931 and Literature or Life by Jorge Semprun born 1923 The lives of these authors all of whom were exiled for political reasons were disrupted by some of the most crucial events in Spain s tortuous road to modernity and democracy The book closes with a discussion of why there have been so few critical examinations of autobiographies written in modern Spain Loureiro proposes that even in today s Spain stifling social and political forces smother ethical responsibility which is an essential ingredient in creating autobiographies that dare to be more than a humdrum inventory of personal recollections
