Fictions of Witness in the Confessio Amantis Joel Fredell, 2023-06-07 Fictions of Witness in the Confessio Amantis details the first years of the Confessio's material history and offers a major revision to a century's old narrative of political revision and conversion around the trauma of 1400 Joel Fredell argues for late stage revisions by Gower to his great poem in Middle English from the late 1390s up to Gower's death in 1408 This approach new to scholarship for Ricardian and Lancastrian literature demands profound re evaluation of Gower's poetic persona and its entanglement in the opening and closing books of the Confessio It offers a reassessment of the political and literary relationships between versions dedicated to Richard II and Henry IV It repositions Gower's laureate status in a London world of deluxe book production that created a canon of Ricardian poets linked to their fifteenth century inheritors Finally it identifies for the first time how late medieval authors designed their poetry as fictional artifacts that witness history from quasi chronicles like Maidstone's Concordia or Richard the Redeless quasi petitions like the Lollard Petition to the King and Parliament quasi epistles that begin so many texts quasi transcripts such as the Record and Process of the Deposition of Richard II and so on

F. Yeager,2014 John Gower s great poem the Confessio Amantis was the first work of English literature translated into any European language Occasioned by the existence in Spain of fifteenth century Portuguese and Spanish manuscripts of the Confessio the nineteen essays brought together here represent new and original approaches to Gower s role in Anglo Iberian literary relations They include major studies of the palaeography of the Iberian manuscripts of the ownership history of the Portuguese Confessio manuscript of the glosses of Gowerian manuscripts and of the manuscript of the Yale Confessio Amantis Other essays situate the translations amidst Anglo Spanish relations generally in the fourteenth and fifteenth

centuries examine possible Spanish influences on Gower's writing and speculate on possible providers of the *Confessio* to Philippa daughter of John of Gaunt and queen of Portugal. Further chapters broaden the scope of the volume. Amongst other topics they look at Gower's use of Virgilian/Dantean models, classical gestures in the Castilian translation, Gower's conscious contrasting of epic ideals and courtly romance, nuances of material goods and the idea of the good in the *Confessio*, Marxian aesthetics, Balzac and Gowerian narrative in late medieval trading culture between England and Iberia, reading the *Confessio* through the lens of gift exchange, literary form in Gower's later Latin poems, Gower and Alain Chartier as international initiators of a new public poetry, and the modern sales history of manuscript and early printed copies of the *Confessio* and what it reveals about literary trends.

Hoccleve's Regiment of Princes Nicholas Perkins, 2001. In this study of Hoccleve's *Regiment of Princes*, Perkins argues that despite the view of Hoccleve's politics and poetics as conventional, servile, and naive, it is in fact deeply engaged in the political and literary currents of the early 15th century.

Arthurian Narrative in the Latin Tradition Siân Echard, 1998-09-10. Arthurian literature is a popular field, but most of the published work focuses on the vernacular tradition. This book uniquely looks at Latin Arthurian works. Geoffrey of Monmouth is treated at length, and this is the first book to put him in a context which includes other Latin histories, monastic chronicles, saints' lives, and other Latin prose Arthurian narratives. Like Geoffrey's works, most can be associated with the Angevin court of Henry II, and by placing these works against the court background, this book both introduces a new set of texts into the Arthurian canon and suggests a way to understand their place in that tradition. The unfamiliar works are summarized for the reader, and there are extensive quotations with translations throughout. The result is a thorough exploration of Latin Arthurian narrative in the foundational period for the Arthurian tradition.

The Art of Allusion Sonja Drimmer, 2018-09-21. At the end of the fourteenth and into the first half of the fifteenth century, Geoffrey Chaucer, John Gower, and John Lydgate translated and revised stories with long pedigrees in Latin, Italian, and French. Royals and gentry alike commissioned lavish manuscript copies of these works, copies whose images were integral to the rising prestige of English as a literary language. Yet despite the significance of these images, manuscript illuminators are seldom discussed in the major narratives of the development of English literary culture. The newly enlarged scale of English manuscript production generated a problem, namely, a need for new images. Not only did these images need to accompany narratives that often had no tradition of illustration, they also had to express novel concepts, including ones as foundational as the identity and suitable representation of an English poet. In devising this new corpus

manuscript artists harnessed visual allusion as a method to articulate central questions and provide at times conflicting answers regarding both literary and cultural authority Sonja Drimmer traces how just as the poets embraced intertextuality as a means of invention so did illuminators devise new images through referential techniques assembling adapting and combining images from a range of sources in order to answer the need for a new body of pictorial matter Featuring more than one hundred illustrations twenty seven of them in color *The Art of Allusion* is the first book devoted to the emergence of England's literary canon as a visual as well as a linguistic event

Singing the New Song Katherine Zieman, 2013-02-12 In *Singing the New Song* Katherine Zieman examines the institutions and practices of the liturgy as central to changes in late medieval English understandings of the written word Where previous studies have described how writing comes to supplant oral forms of communication or how it objectifies relations of power formerly transacted through ritual and ceremony Zieman shifts the critical gaze to the ritual performance of written texts in the liturgy effectively changing the focus from writing to reading Beginning with a history of the elementary educational institution known to modern scholars as the song school Zieman shows the continued centrality of liturgical and devotional texts to the earliest stages of literacy training and spiritual formation Originally these schools were created to provide liturgical training for literate adult performers who had already mastered the grammatical arts From the late thirteenth century on however the attention and resources of both lay and clerical patrons came to be devoted specifically to young boys centering on their function as choristers Because choristers needed to be trained before they received instruction in grammar the liturgical skills of reading and singing took on a different meaning This shift in priorities Zieman argues is paradigmatic of broader cultural changes in which increased interest in liturgical performance and varying definitions attached to reading and singing caused these practices to take on a life of their own unyoked from their original institutional settings of monastery and cathedral Unmoored from the context of the choral community reading and singing developed into

Yeager,2017-03-31 The Routledge Research Companion to John Gower reviews the most current scholarship on the late medieval poet and opens doors purposefully to research areas of the future It is divided into three parts The first part Working theories medieval and modern is devoted to the main theoretical aspects that frame Gower s work ranging from his use of medieval law rhetoric theology and religious attitudes to approaches incorporating gender and queer studies The second part Things and places material cultures examines the cultural locations of the author not only from geographical and political perspectives or in scientific and economic context but also in the transmission of his poetry through the materiality of the text and its reception Polyvocality text and language the third part focuses on Gower s trilingualism his approach to history and narratological and intertextual aspects of his works The Routledge Research Companion to John Gower is an essential resource for scholars and students of Gower and of Middle English literature history and culture generally
