James on the 'negro Question'*, The first collection of writings on African American topics by this internationally influential pan African thinker *Autobiography and Black Identity Politics* Kenneth Mostern, 1999-06-13 Why has autobiography been central to African American political speech throughout the twentieth century What is it about the racialization process that persistently places African Americans in the position of speaking from personal experience In *Autobiography and Black Identity Politics* Racialization in Twentieth Century America Kenneth Mostern illustrates the relationship between narrative and racial categories such as colored Negro black or African American in the work of writers such as W E B Du Bois Zora Neale Hurston Malcom X Martin Luther King Paul Robeson Angela Davis and bell hooks Mostern shows how these autobiographical narratives attempt to construct and transform the political meanings of blackness The relationship between a black masculine identity that emerged during the 1960s and the counter movement of black feminism since the 1970s is also discussed This wide ranging study will interest all those working in African American studies cultural studies and literary theory James P. Palmer, 2021-10-25 Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P Cannon and the Origins of the American Revolutionary Left 1890 1928 2007* with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied

**C. L. R. James** Aldon Lynn Nielsen, 2010-12 This study of C L R James's writings is the first to look at them as literature and not as theory This sustained analysis of his major published works places them in the context of his less well known writings and offers an encompassing critique of one of the African diaspora's most significant thinkers and writers Here the author of *Black Jacobins* *World Revolution* *A History of Pan African Revolt* *Beyond a Boundary* and the lyric novel *Minty Alley* is seen not only as among the great political philosophers but also as the literary artist that he remained from his first writings in his native Trinidad through his underground years in America to his final essays and speeches in London The writings of James have inspired revolutionaries on three continents They have altered the course of historiography shown that way toward independent black political struggles and established a base for much of today's study of culture This study evaluates them as powerful works of literature

**The Making of the Black Working Class in Britain** Ron Ramdin, 2017-08-22 A classic history of the role of Black working class struggles throughout the twentieth century In this pioneering history Ron Ramdin traces the roots of Britain's disadvantaged black working class From the development of a small black presence in the sixteenth century through the colonial labour institutions of slavery indentureship and trade unionism Ramdin expertly guides us through the stages of creation for a UK minority whose origins are often overlooked He examines the emergence of a black radical ideology underpinning twentieth century struggles against unemployment racial attacks and workplace inequality and delves into the murky realms of employer and trade union racism First published in 1987 this revised edition includes a new introduction reflecting on events over the past four decades

**Postmodern Racial Dialectics** Richard A. Jones, 2015-12-07 *Postmodern Racial Dialectics* is a collection of ten essays on African American philosophy Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U S to conceptions of Black utopianism to

the nature of postmodern revolutions these essays are beyond the bounds of traditional racial discourse The essays are dialectical in the sense that they are conversations between personal histories between ideologies and between changing ways that the races talk to one another The book is postmodern in that it is beyond modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line

**Black Marxism, Revised and Updated Third Edition** Cedric J. Robinson, 2020-12-16 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand Black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of Black people and Black communities as agents of change and resistance Black radicalism Robinson argues must be linked to the traditions of Africa and the unique experiences of Blacks on Western continents and any analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by Blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century Black radical thinkers as W E B Du Bois C L R James and Richard Wright This revised and updated third edition includes a new preface by Tiffany Willoughby Herard and a new foreword by Robin D G Kelley

*Race and Revolution* Max Shachtman, 2003-05-17 Astonishingly advance for its time the document was originally drafted in 1933 as *Communism and the Negro* and was the most comprehensive statement on race produced by the Left Opposition the dissenting Communist tendency led by Leon Trotsky *Race and Revolution* places the black struggle for freedom and equality at the heart of American history Racial oppression Shachtman argues can be comprehended only within the totality of social and class relations The document culminates in a devastating polemic against the Communist Party's call for a Black Belt state in the American South Jacket

Black Separatism and Social Reality Raymond L. Hall, 2013-10-22 *Black Separatism and Social Reality* Rhetoric and Reason deals with the contemporary debate over black separatism in America It brings together for the first time many of the perspectives ideas orientations and ideologies that all directly or indirectly address the question of black separatism pro and con from the vantage point of their own realities It raises fundamental issues that have recurred throughout the last century and continue unabated today such as whether black Americans should seek their political destiny apart from white Americans or whether economic growth within the black community can eventually lead to true black power This book is comprised of 31 chapters and begins with a historical overview and social reality of black separatism in America how and why black separatist movements emerge and why separatism appeals to some individuals and not to others The next section explores the similarities of white racist assumptions and black separatism as well as the arguments for and against separatism The prospects of black separatism are analyzed along with Pan Africanism and black studies A comprehensive review of the history of separatist thought and a

bibliography concerning the relation of Afro Americans with Africa are presented The possibility of a violent confrontation between whites and blacks is also considered Finally the book ponders the question of whether there is a need for a distinct black social science This monograph will appeal to sociologists social scientists political scientists politicians blacks and scholars of black studies      **“Truth Behind Bars”** Paul Kellogg, 2021-11-05 Just north of the Arctic Circle is the settlement of Vorkuta a notorious camp in the Gulag internment system that witnessed three pivotal moments in Russian history In the 1930s a desperate hunger strike by socialist prisoners victims of Joseph Stalin s repressive regime resulted in mass executions In 1953 a strike by forced labourers sounded the death knell for the Stalinist forced labour system And finally in the late 1980s and early 1990s a series of strikes by new independent miners unions were central to overturning the Stalinist system Paul Kellogg uses the story of Vorkuta as a frame with which to re assess the Russian Revolution In particular he turns to the contributions of Iulii Martov a contemporary of Lenin and his analysis of the central role played in the revolution by a temporary class of peasants in uniform Kellogg explores the persistence and creativity of workers resistance in even the darkest hours of authoritarian repression and offers new perspectives on the failure of democratic governance after the Russian Revolution
