George Charles Williamson, Sir Philip Sassoon, 1930 **English Conversation Pictures of the Eighteenth and Early Nineteenth Centuries. With an Introduction and Notes by ... G.C. British Paintings in the Metropolitan Museum of Art, 1575-1875 Metropolitan Museum of Art (New York, N.Y.),Katharine Baetjer,2009 Covering the period between the late 16th century through to the third quarter of the 19th century this book features paintings by English Scottish Welsh and Irish artists which are part of the collection of the Metropolitan Museum of Art Bulletin ,1963 **The Art of Political Fiction in Hamilton, Edgeworth, and Owenson** Susan B.

Egenolf,2017-11-30 Even as Romantic period authors asserted the importance of telling the unvarnished truth novelists were deploying narrative glossing in particularly sophisticated forms The author examines the artistic craft and political engagement of three major women novelists Elizabeth Hamilton Maria Edgeworth and Sydney Owenson whose self conscious use of glosses facilitated their critiques of politics and society All three writers employed devices such as prefaces and editorial notes as well as alternative media especially painting and drama to comment on the narrative The effect of these disparate media the author argues is to call the reader s attention away from the narrative itself That is such glossing or varnishing creates narrative ruptures that offer the reader a glimpse of the process of fictional structuring and often reveal the novel s indebtedness to a particular historical moment In spite or perhaps because of their being gendered feminine in eighteenth century rhetorical commentary therefore these glosses allow women writers to participate in masculine

discussions outside the conventional domestic sphere Informed by a wide range of archival texts and examples from the visual arts and highlighting the 1798 Irish Rebellion as a major event in Irish and British Romantic writing the author's study offers a new interdisciplinary reading of gendered and political responses to key events in the history of Romanticism

Hester Lynch Thrale Piozzi Marianna D'Ezio, 2010-01-08 Scholars and readers who are interested in eighteenth century British literature are surely familiar with Hester Lynch Thrale Piozzi in the light she came to be known in her lifetime and after first as the formidable hostess of Streatham House South London and then as an outcast from respectable eighteenth century society after she had married the Italian piano teacher of her daughter As a writer her importance has long been that of a footnote to Samuel Johnson and as a consequence she has been part of the official British literary canon only as a character This volume introduces Hester Lynch Thrale Piozzi as a whole trying to link her fascinating and subversive biography to her development as a writer emphasizing the innovative issues of her works her style and her social and personal beliefs Piozzi's biography is an interesting example of the dynamic scene of the late eighteenth century where she was both conservative and subversive she was an eccentric and although her decision to marry the Italian singer and composer Gabriele Piozzi disgraced her it was through this act of subversion that Hester Thrale Piozzi could finally make her own entrance into the world as a public writer Once she had transgressed the social codes of so called feminine behaviour she was also ready to move into the public sphere publish her works and make money out of them pioneering several traditional literary genres through her passionate search for professional independence in the literary canon of the eighteenth century

The Living Age, 1907 *Bardic Nationalism*
Katherine M Trumpener, 2021-01-12 This magisterial work links the literary and intellectual history of England Scotland Ireland and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism the lineages of the novel and the literary history of the English speaking world Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of formal

experimentation and political engagement between its eighteenth century rise and its Victorian heyday During the late eighteenth century antiquaries in Ireland Scotland and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation Responding in particular to Enlightenment dismissals of Gaelic oral traditions they reconceived national and literary history under the sign of the bard Their pathbreaking models of national and literary history their new way of reading national landscapes and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia

Culture, Politics and Society in Britain, 1660-1800 Jeremy Black, Jeremy Gregory, 1991 English Literature in History, 1780-1830 Roger Sales, 2023-02-03 First published in 1983 English Literature in History 1780 1830 is an original and provocative study of the literature of the Romantic period with an introduction by Raymond Williams Roger Sales concentrates his analysis on two related themes The first the politics of pastoral analyses the use of this genre by both established writers and poets who were enormously popular in their time but who are now less well known The author argues that all literary treatments of rural society in this period make political statements particularly when they displace or disguise the economic facts of life His second theme the theatre of politics introduces the reader to some of the main political events of the period and demonstrates how their form and presentation can illuminate some of the literature of the period This book will be of interest to students and teachers of English literature **The Sassoons** Esther da Costa Meyer, Claudia J.
