Policing 'Domestic' Violence Susan S. M. Edwards, 2025-01-06 Violence in the home particularly assault by a man on his wife or girlfriend is an everyday phenomenon What should the police and law courts do about it In *Policing Domestic Violence* first published in 1989 reissued here with a new preface Susan Edwards draws upon her extensive research into their actual responses both before and after recent initiatives towards reform at the time to address the practical and theoretical issues for criminology and feminism Examining police and court practice the author exposes the ways in which the patriarchal ideology enshrined in the law and the masculine ethos of the police and legal profession ensure that women receive less justice and less protection She documents in detail the processes by which crimes against women are trivialized The book combines a review of international research with the author's own five year exploration of policing in the UK through interviews with officers observation and a review of record keeping practice It covers the introduction of new policing policies and offers a preliminary assessment of their success together with practical proposals for the future At a theoretical level this title addresses the key problems of criminality and punishment Is it possible to reconcile the feminist critique of the marginalization of so called domestic violence with the radical critique of the punitive system as oppressive and counterproductive Does the protection of women justify infringement of family privacy The book should be read in its historical context by students of criminology law women's studies and sociology as well as those concerned with policies and practical measures for dealing with violence in the home **Crime Scene Investigation: Methods And Procedures**

Siam's New Detectives Samson Lim,2016-02-29 Visual evidence is the sine qua non of the modern criminal process from photographs and video to fingerprints and maps Siam s New Detectives offers an analytical history of these visual tools as employed by the

Thai police when investigating crime Covering the period between the late nineteenth century and the end of the Cold War the book provides both an extended overview of the development and evolution of modern police practices in Thailand and a window into the role of the Thai police within a larger cultural system of knowledge production about crime violence and history Based on a diverse set of primary sources police reports detective training manuals trial records newspaper stories memoirs archival documents and hard to find crime fiction the book makes two related arguments First the factuality of the visual evidence used in the criminal justice system stems as much from formal conventions proper lighting in a crime scene photo standardized markings on maps as from the reality of what is being represented Second some images once created function as tools helping the police produce truths about the criminal past This generative power makes images such as crime scene maps useful as investigative aids but also means that scholars cannot analyze them simply in terms of mimetic accuracy or interpret them in isolation for deeper meaning Understanding how modern legal systems operate requires an examination of the visual culture of the law particularly the aesthetic rules that govern the generation and use of documentary evidence By examining modern policing in terms of visual culture Siam's New Detectives makes important methodological contributions The book shows how a historical analysis of form can supplement the way many scholars have traditionally approached visual sources as symbols requiring a close reading By acknowledging the productive nature of images in addition to their symbolic functions the book makes clear that policing is fundamentally an interactive creative endeavor as much as a disciplinary one
