Putting Social Justice and Equity at the Heart of Reading for Pleasure Jane Carter, 2025-03-31 This essential book discusses what reading for pleasure is and what it is not introducing some

fundamental ideas about how we learn to read and how this process can impact a child's identity as a reader in classrooms that promote equality, inclusion and diversity. The profile and importance of Reading for Pleasure has grown significantly over the last few years and is now firmly embedded in both government policy and the Ofsted framework. Developing a Reading for Pleasure school that is truly inclusive of the whole school community, however, can require a culture shift in relation to the teaching of reading, representation in the reading environment and the knowledge and attitudes of the school community. This book seeks to use the current research, teacher case studies and the voices of children to address some of the issues that teachers and pre-service teachers encounter when trying to develop an inclusive Reading for Pleasure culture within their schools. Each chapter is co-authored by teachers and researchers and includes case studies and children's perspectives. It provides practical and evidence-based advice, lesson ideas and creative ideas to both support and challenge all school leaders, staff and student teachers in their journey to create readers rather than children that can just read. The Child as Thinker Sara Meadows, 2006-10-19. First published in 1993. Routledge is an imprint of Taylor & Francis, an informal company.

Extensive Reading in the Second Language Classroom Richard R. Day, Julian Bamford, 1998-01-13. This comprehensive examination of extensive reading shows how reading large quantities of books and other materials can provide students with essential practice in learning to read and help them develop a positive attitude towards reading, which is sometimes missed in second language classes. The authors first examine the cognitive and affective nature of reading and then offer a wealth of practical advice for implementing extensive reading with second language learners. Suggestions are provided for integrating extensive reading into the curriculum, establishing a library, selecting reading materials and keeping records for purposes of evaluation. The text also describes a wide variety of classroom activities to supplement individualized silent reading. The information will be useful both for pre-service teachers and for teachers and administrators who want to improve the teaching of reading in their second language programs. Reading Motivation Joy Dangora Erickson, 2022-12-14. Reading Motivation: A Guide to Understanding and Supporting Children's Willingness to Read explains the importance of paying careful attention to children's developing motivation to read and offers a step-by-step guide for conducting rigorous and systematic case studies of children's motivation to read in specific contexts, e.g. reading intervention programs. The methods described in this book have been used successfully to elicit the perspectives of children as young as five years of age. In addition to carefully considering the views of children, readers are encouraged to work with peers to carefully select, collect and analyze multiple types of data from a variety of sources to answer questions about their students' motivation in trustworthy ways. Separate chapters explain how to formatively and summatively analyze and interpret qualitative and quantitative data and how to present findings and make changes to programming in response to findings. A summary and a guided activity appear at the end of each chapter to support the reader in practicing the skills introduced in the chapter.
