approach to exploring one's faith and doubts and talking with the next generation about important spiritual issues. A child's spiritual pilgrimage begins from the earliest moments of life and is shaped by the significant adults in the child's ever-expanding world. Yet often adults have an inadequate or unclear understanding of their faith and are unsure how to impart their own Christian beliefs to their children in a credible and meaningful way. Oppenheimer offers guidance for adults who seek ways for themselves and for their children to live with the questions with a faithful openness and deep sincerity. She presents the possibilities for adults to become as little children in their faith without naivete and for children to grow in wisdom and stature without the need for dogmatic certainties. An encouraging book for those who face the challenge of living out the Christian commitment of maintaining the balance of being true to Christ while being true to one's self and one's children.

Shaped by God's Story: Making Sense of the Bible Alan Le Grys, 2010-07-12. Study of the Bible in contemporary British society. The Bible is often seen by Christians and non churchgoers as a handbook for Christian living. Christian theology however also suggests that Bible reading is transformative; it changes people. This study explores some empirical research to test this idea.

Making Sense of "God" Norman Solomon, 2023-05-04. All over the world people talk about God and argue endlessly about what God said and what if anything we should do about it. Do they know what are they talking about? Do they ever seriously consider what it might look like or feel like if God actually spoke to you? How could you tell if someone said God spoke to them whether they were deluded, bluffing or high on drugs? The reflections, dialogues and arguments in this book address such questions often with humor, sometimes provocatively, as when the author suggests the ancient gods have returned to invade the institutions of our great religions or when two spirits, William and James, viewing the world from afar, voice their doubt as to whether the human species will ever attain the pinnacles of cooperation, reason, beauty and love. Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society.

Making Sense of Evolution John F. Haught, 2010-01-01. Haught offers a provocative take on how reconciliation between evolution and Christian theology might begin and questions whether the two concepts must be mutually exclusive.
