God of Love and God of Reason David R. Mason, 2016-02-18 These homilies lectures and essays vigorously champion the author's conviction that it is reasonable to believe in a God of pure unbounded love and also that the best religion is a reasonable religion That is the God of Love is the God of Reason and as a seventeenth century Cambridge preacher put it If you would be religious be rational in your religion Thus these essays challenge both the New Atheists and Fundamentalists who are twins like Tweedledum and Tweedledee And they aim positively to unpack the meaning and implications of Jesus dictum You shall love the Lord your God with all your heart and with all your soul and with all your mind This is the greatest and first commandment And the second is like it You shall love your neighbor as yourself On these two commandments hang all the law and the prophets

Fact and Existence Joseph Margolis, 1969 *Kant, Wittgenstein, and the Performativity of Thought* Aloisia Moser, 2021-08-18 This book explores the idea that there is a certain performativity of thought connecting Kant's Critique of Pure Reason and Wittgenstein's Tractatus Logico Philosophicus On this view we make judgments and use propositions because we presuppose that our thinking is about something and that our propositions have sense Kant's requirement of an a priori connection between intuitions and concepts is akin to Wittgenstein's idea of the general propositional form as sharing a form with the world Aloisia Moser argues that Kant speaks about acts of the mind not about static categories Furthermore she elucidates the Tractatus logical form as a projection method that turns into a so called zero method whereby propositions are merely the scaffolding of the world In so doing Moser connects Kantian reflective judgment to Wittgensteinian rule following She thereby presents an account of performativity centering neither on theories nor methods but on the application enacting them in the first place

Nineteenth-Century Philosophy Patrick L. Gardiner, 1968 Readings in the History of Philosophy is organized chronologically thus each volume may be used independently as introductory comparative or reference material in a wide range of courses in philosophy and humanities Taken together these eight volumes form an integrated series that skillfully illustrates the contributions and influence of the major figures of Western philosophy from the Greeks to the present

Law of Wills, Executors and Administrators James Schouler, 1923 **The Revelation of the Glory** Frans Jozef van Beeck, 1993 In Volume Two 2 catholic theology treats some of the great Western attempts at reflecting on the nature of God it also takes on modern Western religiosity both as it professes belief in God and as it has settled for various forms of atheism But more importantly the book discovers and

rediscovers the God of Abraham Isaac and Jacob of Moses and the prophets the God of Jesus Christ Frans Jozef van Beeck born in the Netherlands in 1930 a Jesuit since 1948 and a priest since 1963 has lived and learned and taught in the United States since 1968 He is a senior professor of theology at Loyola University Chicago **California. Court of Appeal (4th Appellate District). Division 2. Records and Briefs** California (State)., **The Problem of Universals in Indian Philosophy** Raja Ram Dravid, 2000-12-31 The author gives a critical and comprehensive study of the fundamental problem of universals in Indian Philosophy The centre of the study is the controversy between the Nyaya Vaisesika and the Mimamsa realists on the one hand and the Buddhist nominalists on the other The author discusses not only the epistemological and metaphysical approach to the problem of universals but also the semantic approach made by the various systems of Indian Philosophy In this context the view of the Grammarions with special reference to Bhartrhari has been discussed in some detail A brief but critical analysis of some of the main trends of thought on universals in Western Philosophy beginning from Plato to the contemporary philosophers has also been given Besides his scholarly and eminently readable treatment of fundamental problem of universals the author has attempted to give his own solution of the problem It is based on the recurrent identities and similarities which are the principles of grouping and which form the foundation of our thought and speech **The Universalist's Book of Reference** Everet Emmett Guild, 1881 Social Justice and Labour Jurisprudence Sharath Babu, Rashmi Shetty, 2007-05-08 This comprehensive book traces the growth of labour jurisprudence in India and provides a clear understanding of the content of these principal judgements The Supreme Court of India has always had pro socialist judges the most prominent of them being Justice V R Krishna Iyer His contributions to labour jurisprudence are legendary This book analyses and critiques the most important judgements delivered by Justice Iyer from the perspective of social justice The judgements are arranged contextually in accordance with the subject and within the framework of prevailing industrial laws The authors elaborate on the key aspects of industrial relations in India and provide a clear understanding of the linkage between labour issues and the philosophy of the Constitution as perceived by Justice V R Krishna Iyer *Lawyers' Reports Annotated*, 1902 *Reports of Cases Determined in the Supreme Court of the State of California* California. Supreme Court, 1906 *The Basic Ways of Knowing* Govardhan P. Bhatt, 1989 The book gives a penetrating and full length study of epistemology in the school of Bhatta Mimamsa The work is based on an intensive and critical study of the Sanskrit texts which have not been utilized by any other Oriental scholar so far It is very much different from other books on the subject because it not only discusses historically the epistemology of the Bhatta School but also discusses many really philosophical problems connected with epistemology in general and Indian epistemology in particular One of the most valuable features of the work is the comparative references which it makes to standard epistemologists of Western philosophy The book reaches the highest watermark in its line It compares and contrasts the Bhatta position on various issues with not only other Indian schools but also with some of the European philosophers like Russell Moore Reid

Hume Mill and Kant In a sense it is an exercise in comparative philosophy This is inevitable as otherwise the position of the Bhatta School cannot be clarified and brought out in depth The Fortnightly Review ,1873 *California. Court of Appeal (1st Appellate District). Records and Briefs* California (State).,
