influenced the Ocean View Police Department's goal to expand the agency toward proactive policing. This work encompasses the social, economic, political, and technical aspects that affected the design, implementation, and outcome. The central research question was: If the Ocean View Police Department increases proactive time from 67% to 75%, then how many officers do we need and what are the projected costs? The study offers a roadmap for agencies looking to expand their proactive policing efforts and understand the cost drivers associated with the patrol function. The book details the demands that police agencies face and the complexities of their work. The chapters that follow acknowledge the managerial and fiscal difficulties related to staffing and funding the police while simultaneously offering suggestions for increased community collaboration. Policing Legitimacy Justin R. Ellis, 2021-07-31 This book critically analyses the impact of digital media technologies on police scandal. Using an in-depth analysis of a viral bystander video of police excessive force filmed at the 2013 Sydney Gay and Lesbian Mardi Gras Parade and uploaded to YouTube, the book addresses the ways social media video surveillance can shape operational and institutional police responses to police misconduct. The volume features new research on the immediate and longer-term impacts of social media-generated police scandal on police legitimacy and accountability and responds to inherent questions of procedural justice. It interrogates the technological, political, and legal frameworks that govern the relationships between the police and LGBTQI communities in Australia and beyond, through the social media test of the police narratives created and contested through social media, mainstream media, and police media. In doing so, it considers the role of sexual citizenship discourse as a political, economic, and social organizing principle. A comprehensive and interdisciplinary understanding of digital and queer criminology; this is an essential read for those working at the intersection of criminology and the digital society, queer criminology, and critical criminology.

Fair Cop Christine Nixon, 2012-08-01 Christine Nixon became the first female Chief Commissioner of Police in Australia, appointed to head Victoria Police at a most crucial time: the underworld was in the midst of a bloody war, the spectre of terrorism was emerging as a powerful new threat, and there was a stench of internal corruption. In this frank and engaging memoir, Christine Nixon reflects on the journey of a woman deep into a man's world, describing the experiences that shaped her commitment to a model of policing as a community service committed to caring for society's most vulnerable. She explores the challenges of managing a police force through a period of profound social and cultural change, explains the hidden tensions at the front line of politics and policing, and exposes the poisonous culture war within police ranks. Fair Cop candidly shares the public and private stories of Christine Nixon, woman, spouse, citizen, constable, on a journey that encounters tragedy, corruption, ambition, and humility. In its final chapters, it takes readers inside the events of Black Saturday, the disaster that would so cruelly scar the state of Victoria, claim so many lives, and test Christine Nixon as nothing before. It tracks the intimate story of her days before the Bushfires Royal Commission and recounts her efforts as head of the Victorian Bushfires
