**Evaluating AIDS Prevention Programs** Boruch RF Coyle SL (Turner CF, editors), 1991 **Evaluating AIDS Prevention Programs** National Research Council (U.S.). Panel on the Evaluation of AIDS Interventions, Susan L. Coyle, 1991 This report undertaken at the behest of the US Public Health Service which requested assistance in evaluating the three major AIDS prevention programs sponsored by the Centers for Disease Control provides a blueprint to help determine the effectiveness of programs designed to change high risk behavior Paper edition 04281 X available for 29 95 Annotation copyrighted by Book News Inc Portland OR *Quantitative Evaluation of HIV Prevention Programs* Edward H. Kaplan, Ron Brookmeyer, 2008-10-01 How successful are HIV prevention programs Which HIV prevention programs are most cost effective Which programs are worth expanding and which should be abandoned altogether This book addresses the quantitative evaluation of HIV prevention programs assessing for the first time several different quantitative methods of evaluation The authors of the book include behavioral scientists biologists economists epidemiologists health service researchers operations researchers policy makers

and statisticians They present a wide variety of perspectives on the subject including an overview of HIV prevention programs in developing countries economic analyses that address questions of cost effectiveness and resource allocation case studies such as Israel's ban on Ethiopian blood donors and descriptions of new methodologies and problems

Evaluating HIV Prevention Interventions Joanne E. Mantell, Anthony T. DiVittis, Marilyn I. Auerbach, 2013-06-29 This user friendly comprehensive guide places evaluation in the context of HIV to give all health care professionals the necessary tools for developing and implementing successful HIV interventions Every aspect of evaluation is discussed including the social and political context of evaluation coding and inter rater reliability procedures barriers to evaluation and solution the dissemination of results the application of theory to HIV interventions Case studies and examples from both the US and abroad to illustrate practical issues and numerous tables and figures complement the text **Evaluating AIDS Prevention**

**Programs** National Academy Press, 1999-07-01 **Handbook of Economic Evaluation of HIV Prevention Programs** David R. Holtgrave, 2013-06-29 If resources for HIV prevention efforts were truly unlimited then this book would be entirely unnecessary In a world with limitless support for HIV prevention activities one would simply implement all effective or potentially effective programs without regard to expense We would do everything useful to prevent the further spread of the virus that has already claimed hundreds of thousands of lives in the United States and millions of lives worldwide Unfortunately funding for HIV prevention programs is limited Even though the amount of available funding may seem quite large especially in the United States it is still fixed and not sufficient to meet all needs for such programs This was very well illustrated in the summer of 1997 when over 500 community based organizations applied for a combined total of 18 million of HIV prevention funding from the U S Centers for Disease Control and Prevention CDC Less than one fifth of these organizations received support via this funding mechanism Hence although 18 million may seem like a large amount of money at first blush it is not enough to meet all of the prevention needs that could be addressed by these community based organizations **Evaluating AIDS Prevention** Laura C. Leviton, Andrea M. Hegedus, Alan Kubrin, 1990 *Evaluation of*

*Health Promotion and Disease Prevention Programs* Richard Windsor, 2015-03-25 *Evaluation of Health Promotion and Disease Prevention Programs* offers conceptual and methodological frameworks for the six phases of health program evaluation introduction to evaluation models of evaluation planning efficacy and effectiveness evaluation measurement and analysis evaluation process and qualitative evaluation cost analysis and basic economic evaluation By presenting these concepts through case studies this text offers an innovative and didactic model for measuring health impact and health outcomes then extending these measurements to establish an evidence base for future practice This central competency in health promotion will be of use to graduate and post graduate students in public and population health programs plus health program practitioners working at the intervention forefront **Compendium of HHS Evaluations and Relevant Other**

,1990 **Public Health Reports** ,1995 *Health Services Reports* United States. Health Services and Mental Health Administration,1995 **Handbook of HIV Prevention** John L. Peterson,Ralph J. DiClemente,2000-02-29 The Handbook of HIV Prevention is intended to provide a comprehensive overview of the theories methods and approaches for reducing HIV associated risk behaviors It represents the first single source of information about HIV prevention research in developed and developing countries The Handbook addresses the subject of HIV prevention from two interrelated perspectives First it presents the seminal theories currently used to guide the development and implementation of HIV prevention interventions Second it describes prevention approaches for diverse populations at risk of HIV infection This Handbook provides a compilation of knowledge on HIV prevention by the leading authorities in the field and will be an important resource for students researchers and clinicians in the field **Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 1991** United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies,1990 **The New Public Health and STD/HIV Prevention** Sevgi O. Aral,Kevin A. Fenton,Judith A. Lipshutz,2012-12-09 Despite effective approaches to prevention STD and HIV infection rates remain fairly constant Targeting implementation and monitoring of interventions have posed widespread problems and the recent spate of cuts to prevention budgets has made these roadblocks even more challenging It is clear that working in sexual health requires both a deeper understanding of STI HIV epidemiology and an ongoing quest for up to date realistic prevention strategies The New Public Health and STD HIV Prevention offers readers leading edge access to both Focusing on social determinants of sexual health at risk populations critical factors in approaches to prevention and reviews of new research this authoritative volume explores areas as varied as HPV prevention technology based interventions migration as a factor in disease transmission and competencies key to effective leadership in the field Dispatches from the frontlines of theory research and practice in the U S and abroad include Personal risk public impact balancing individual rights and STD HIV prevention Distribution of prevention resources and its impact on sexual health Prevention measures in diverse populations of women Toward a better approach to preventive interventions with men who have sex with men Adolescent sexual health and STIs Reducing disparities in sexual health lessons from the campaign to eliminate infectious syphilis Public health professionals of all backgrounds interested in or working in improving sexual health will find The New Public Health and STD HIV Prevention an indispensable guide to conceptualizing the problems and clarifying possible solutions **Monitoring and Evaluation in Health and Social Development** Stephen Bell,Peter Aggleton,2016-02-01 New approaches are needed to monitor and evaluate health and social development Existing strategies tend to require expensive time consuming analytical procedures The growing emphasis on results based programming has resulted in evaluation being conducted in order to demonstrate accountability and success rather than how change takes place what works and why The tendency to monitor and evaluate using log frames and their variants closes policy makers

and practitioners eyes to the sometimes unanticipated means by which change takes place Two recent developments hold the potential to transcend these difficulties and to lead to important changes in the way in which the effects of health and social development programming are understood First there is growing interest in ways of monitoring programmes and assessing impact that are more grounded in the realities of practice than many of the results based methods currently utilised Second there are calls for the greater use of interpretive and ethnographic methods in programme design monitoring and evaluation Responding to these concerns this book illustrates the potential of interpretative methods to aid understanding and make a difference in real people s lives Through a focus on individual and community perspectives and locally grounded explanations the methods explored in this book offer a potentially richer way of assessing the relationships between intent action and change in health and social development in Africa Asia Europe and the Americas     The Prevention Marketing Initiative ,1996     Fundamental Issues in Evaluation Nick L. Smith,Paul R. Brandon,2008-01-01 Providing state of the art perspectives on what evaluation is its purpose and how to ensure it is done well this book brings together major evaluation researchers from a variety of social and behavioral science disciplines Each chapter identifies a fundamental issue facing the field today considers its implications for theory method practice or the profession and explores one or more approaches to dealing with the issue Among the topics addressed are the nature of expertise in evaluation how to build a better evidence base for evaluation theory promoting cultural competence in evaluation how to synthesize evaluation research findings ways to involve stakeholders in decision making and much more
