Every Factory A Fortress:

Against the Liberal Order Samuel J. Hirst, 2024-06-26 In the aftermath of the First World War the Western great powers sought to redefine international norms according to their liberal vision They introduced Western led multilateral organizations to regulate cross border flows which became pivotal in the making of an interconnected global order In contrast to this well studied transformation Hirst considers in detail for the first time the responses of the defeated interwar Soviet Union and early Republican Turkey who challenged this new order with a reactive and distinctly state led international politics As Mustafa Kemal Atatürk took up arms in 1920 to overturn the terms of the Paris settlement Vladimir Lenin provided military and economic aid as part of a partnership that both sides described as anti imperialist Over the course of the next two decades the Soviet and Turkish states coordinated joint measures to accelerate development in spheres ranging from aviation to linguistics Most importantly Soviet engineers and architects helped colleagues in Ankara launch a five year plan and build massive state owned factories to produce textiles and replace Western imports Whilst the Kemalists cooperation with the Bolsheviks has often been described as pragmatic this book demonstrates that Moscow and Ankara actually came together in an ideological convergence rooted in anxiety about underdevelopment relative to the West gradually arriving at statist internationalism as an alternative to Western liberal internationalism Drawing on extensive archival research and offering an often ignored and non Western perspective on the history of international relations and diplomacy **Against the Liberal Order** presents a novel interpretation of the international order of the interwar period that crosses the borders of historical disciplines and contributes to questions of current concern in world politics

Dedication and Leadership

Douglas Hyde, 2016-10-07 On March 14 1948 Douglas Hyde handed in his resignation as the news editor of the London Daily Worker and wrote the end to twenty years of his life as a member of the Communist Party A week later in a written statement Hyde announced that he had renounced Communism and with his wife and children was joining the Catholic Church The long pilgrimage from Communism to Christ carried Douglas Hyde from complete commitment to Marxism to a questioning uneasiness about Soviet Russia's glaring contradictions of ideology and action to a final rejection of the Party In **Dedication and Leadership** Hyde advances the theory that although the goals and aims of Communism are antithetical to human dignity and the rights of the individual there is much to be learned from communist methods cadres and psychological motivation Hyde describes the Communist mechanics of instilling dedication the first prerequisite for leadership Here is the complete rationale of party technique how to stimulate the willingness to sacrifice the advisability of making big demands to insure a big response the inspirational indoctrination and the subtle conversion methods In this small book so large with implications Douglas Hyde comments on both Communist and Catholic potential and their lack of maximum effectiveness He advocates positive Catholic action not just a negative anti Communism and he points out that the guidelines are now down for a decisive choice between total Communism and a total Christianity Here is a realistic approach to an acute problem uncolored

by emotional propaganda and here is a realistic answer on how to inspire dedication for leadership

Surrealist sabotage and the war on work Abigail Susik,2021-10-12 In Surrealist sabotage and the war on work art historian Abigail Susik uncovers the expansive parameters of the international surrealist movement s ongoing engagement with an aesthetics of sabotage between the 1920s and the 1970s demonstrating how surrealists unceasingly sought to transform the work of art into a form of unmanageable anti work In four case studies devoted to surrealism s transatlantic war on work Susik analyses how artworks and texts by Man Ray Andr Breton Simone Breton Andr Thirion scar Dom nguez Konrad Klapheck and the Chicago surrealists among others were pivotally impacted by the intransigent surrealist concepts of principled work refusal permanent strike and autonomous pleasure Underscoring surrealism s profound relevance for readers engaged in ongoing debates about gendered labour and the wage gap endemic over work and exploitation and the vicissitudes of knowledge work and the gig economy Surrealist sabotage and the war on work reveals that surrealism s creative work refusal retains immense relevance in our wired world

Special Committee on Communist Activities in the United States, 1930 Western European Liberation Theology Gerd-Rainer Horn, 2008-10-09 *Western European Liberation Theology* is the first comprehensive survey of the development of a distinct progressive variant of Catholicism in twentieth-century Western Europe. This Left Catholicism served to lay the basis for the subsequent events and evolutions associated with Vatican II. Initially emerging within the boundaries of Catholic Action, fuelled by the growing power and self-confidence of the Catholic laity, a series of challenges to received wisdom and an array of novel experiments were launched in various corners of Western Europe. The moment of liberation from Nazi occupation and world war in 1944-45 turned out to be the highpoint of these optimistic paradigm shifts. Concentrating on interrelated developments in theology, Catholic politics and apostolic social action, Gerd Rainer Horn integrates evidence from Italian, French and Belgian national contexts. Drawing on his research in over twenty archives between Leuven and Rome, he highlights the role of organisations, social movements and intellectual trends. The pivotal contributions of key individuals are assessed from theologians such as Jacques Maritain and Emmanuel Mounier to the millenarian activist priests Don Zeno Saltini and Don Primo Mazzolari. In conclusion, Horn suggests that first-wave Western European Left Catholicism served as an inspiration and constituted a prototype for subsequent Third World Liberation Theology. Wild Socialism Martin Comack, 2012 *Wild Socialism* examines the rise, development and decline of revolutionary councils of industrial workers in Berlin at the end of the First World War. This popular movement spread throughout Germany and was without precedent in either the theory or practice of the Social Democratic party and the trade unions allied to it. These workers' councils were most highly developed in Berlin within its particular industrial, political and cultural milieu. The Berlin Shop Stewards group provided a hard core of militant revolutionaries within the movement, many of whose adherents were more moderate or ambiguous in their views. Externally, the councilists faced a hostile Social Democratic trade union bureaucracy who characterized council rule as *wilde Sozialismus*, a reconstituted and repressive state power and a revolutionary rival in the rise of German Bolshevism. This work considers the experience of the Berlin councils as alternative institutions outside of traditional union, party and governmental structures. *The Ants* Bert Hölldobler, Edward O.
