Identity And Emotion Development Through Self Organization:

Identity and Emotion Harke Bosma,E. Saskia Kunnen,2001 This work focuses on the individual development of identity and the processes involved By working from emotions and a dynamic systems perspective it offers a new approach to human identity and its development across the lifespan

Innovating Genesis Emily Abbey,Rainer Diriwächter,2008-07-01 Cultural psychology is currently in a phase of rapid growth Innovating Genesis is an example of how the most central aspect of any science its methodology undergoes revolutionary transformation Yet in this book we see careful continuity with the past of the discipline The orientation to study processes of emergence was well prepared by the Ganzheitspsychologie tradition in early twentieth century If we all have learned something about the world since then it is the inevitable quality of the whole that transcends its parts Scientists have tried to grasp the general notion of such wholes yet recurrently regressing to the easy illusion that one can reduce the complexities of the in vivo events to the scrutinizes in vitro By looking to the history of how holistic ideas might help our present investigations this book demonstrates how contemporary science has something to learn from its own history The editors of this volume have managed to bring together a creative international team of scholars whom they have guided to be on target of the content matter of the book innovating the genesis of the methods for the study of psychological emergence

Handbook of Developmental Psychology Jaan Valsiner,Kevin J Connolly,2003-02-28 Comprehensive and authoritative this handbook pushes back the frontiers of the study of human development in one single volume It makes an ideal reference for experienced individuals who wish to update their understanding and remain at the cutting edge of developmental psychology

A Critique of Creativity and Complexity Don Ambrose,Bharath Sriraman,Kathleen M. Pierce,2014-11-04 In an increasingly complex world the natural human inclination is to oversimplify issues and problems to make them seem more comprehensible and less threatening This tendency usually generates forms of dogmatism that diminish our ability to think creatively and to develop worthy talents Fortunately complexity theory is giving us ways to make sense of intricate evolving phenomena This book represents a broad interdisciplinary application of complexity theory to a wide variety of phenomena in general education STEM education learner diversity and special education social emotional development organizational leadership urban planning and the history of philosophy The contributors provide nuanced analyses of the structures and dynamics of complex adaptive systems in these academic and professional fields

Emotional Choices Robin Markwica,2018 This book examines coercive diplomacy and presents a theory of emotional choice to analyse how affect enters into decision making

The Self and its Emotions Kristján Kristjánsson,2010-02-08 If there is one value that seems beyond reproach in modernity it is that of the self and the terms that cluster around it such as self esteem self confidence and self respect It is not clear however that all those who invoke the self really know what they are talking about or that they are all talking about the same thing What is this thing called self then and what is its psychological philosophical and educational salience More specifically what role do

emotions play in the creation and constitution of the self This book proposes a realist emotion grounded conception of selfhood In arguing for a closer link between selfhood and emotion than has been previously suggested the author critically explores and integrates self research from diverse academic fields This is a provocative book that should excite anyone interested in cutting edge research on self issues and emotions that lies at the intersection of psychology philosophy of mind moral philosophy and moral education Samkhya-Yoga Philosophy of Consciousness Ranjan Kumar Panda,2025-06-14 This book exclusively deals with the study of consciousness in Samkhya Yoga Philosophy Samkhya Yoga is two allied philosophical systems in which consciousness is the focal point of discussion The book investigates consciousness from metaphysical epistemological and ethical or normative perspectives Concepts such as Duhkha suffering Purusa consciousness Chitta self the mental chittavrti mental modification Prakrti and Trigunas nature and its attributes are critically discussed to reconstruct the metaphysics of consciousness All the chapters have contemporary relevance as they delve into the nature of causation and provide an all inclusive viewpoint of consciousness by emphasizing its normative perspective The contributions in the book are from eminent scholars working in the field of consciousness and other related topics such as cognition mind causality knowledge and liberation The book provides a comprehensive viewpoint of consciousness by emphasizing its normative perspective concerning the notion of engaged selfhood for jivanmukta It is an invaluable resource for contemporary readers in the field of philosophy of mind across Indian and Western philosophy traditions **A Dynamic Systems Approach to Adolescent Development** Saskia Kunnen,2012-12-06 The dynamic systems approach is a rapidly expanding advancement in the study of developmental research particularly in the domain of adolescent development It provides a unique way of examining the subject and this innovative study of developmental processes helps social scientists to translate dynamic systems conceptualizations into clear empirical research that readers will be able to implement themselves The first part of this edited book discusses techniques that describe and assess specific process characteristics such as variability sudden jumps and attractor states The second part explores the different techniques for building a dynamic systems model which can simulate the behaviour of a system to investigate the mechanisms behind the processes Each chapter describes one technique and is based on a specific practical example of its application in adolescent development Step by step instructions for model building and examples of ready made models are provided on the website that belongs to the book www.psypress.com/dynamic-systems-approach This book provides a clear step by step description of theories and techniques that are designed for the study of developmental processes and is therefore ideal for researchers of developmental psychology who do not specialise in statistics or research methods Desire, Self, Mind, and the Psychotherapies R. Coleman Curtis,2009 Desire Self Mind and the Psychotherapies unifies psychological science with contemporary relational psychoanalysis arguing that the disciplines can be integrated if the concept of repression is understood as motivated forgetting creative aspects of unconscious processes are taken into account in cognitive science and

a new experiences model of change is acknowledged by psychoanalysts Such a model of change allows for integration of behavioral cognitive visual and other techniques into a psychoanalytically informed psychotherapy This book will be of interest to mental health professionals psychoanalysts psychologists and psychotherapists **The Aesthetics of Emotion** Gerald C. Cupchik,2016-07-28 Argues that relations between mind and body are analogous to those between subject matter and style in art *The Social Life of Emotions* Larissa Z. Tiedens,Colin Wayne Leach,2004-09-27 This book showcases new research and theory about the way in which the social environment shapes and is shaped by emotion The book has three sections each of which addresses a different level of sociality interpersonal intragroup and intergroup The first section refers to the links between specific individuals the second to categories that define multiple individuals as an entity and the final to the boundaries between groups Emotions are found in each of these levels and the dynamics involved in these types of relationship are part of what it is to experience emotion The chapters show how all three types of social relationships generate and are generated by emotions In doing so this book locates emotional experiences in the larger social context

Adaption to change and coping strategies: New resources for mental health María del Mar Molero Jurado,Nicola Magnavita,María del Carmen Pérez-Fuentes,2023-03-28 Emotion Regulation and Parenting Isabelle Roskam,James J. Gross,Moïra Mikolajczak,2023-11-15 Emotion Regulation and Parenting provides a state of the art account of research conducted on emotion regulation in parenting After describing the conceptual foundations of parenthood and emotion regulation the book reviews the influence of parents emotion regulation on parenting how and to what extent emotion regulation influences child development cross cultural perspectives on emotion regulation and highlights current and future directions Drawing on contributions from renowned experts from all over the world chapters cover the most important topics at the intersection of parenting and emotion regulation Essentials are explored as well as current topical and controversial issues pointing both to what is known and what requires further research This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details **Emotion and Narrative** Tilmann Habermas,2019 The way we tell stories influences how others react to our emotions and impacts how we cope with emotions ourselves The Interpersonal Dynamics of Emotion Gerben A. van Kleef,2016-04-21 Emotional expressions are omnipresent but how do they influence us This book highlights the pervasive interpersonal effects of emotions

Friendships in Childhood and Adolescence Catherine L. Bagwell,Michelle E. Schmidt,2013-01-10 Highly readable and comprehensive this volume explores the significance of friendship for social emotional and cognitive development from early childhood through adolescence The authors trace how friendships change as children age and what specific functions these relationships play in promoting adjustment and well being Compelling topics include the effects of individual differences on friendship quality how friendship quality can be assessed and ways in which certain friendships may promote negative outcomes Examining what clinicians educators and parents can do to help children who struggle with making

friends the book reviews available interventions and identifies important directions for future work in the field **Dynamic Process Methodology in the Social and Developmental Sciences** Jaan Valsiner, Peter C. M. Molenaar, Maria C.D.P. Lyra, Nandita Chaudhary, 2009-07-09 All psychological processes like biological and social ones are dynamic Phenomena of nature society and the human psyche are context bound constantly changing and variable This feature of reality is often not recognized in the social sciences where we operate with averaged data and with homogeneous stereotypes and consider our consistency to be the cornerstone of rational being Yet we are all inconsistent in our actions within a day or from one day to the next and much of such inconsistency is of positive value for our survival and development Our inconsistent behaviors and thoughts may appear chaotic yet there is generality within this highly variable dynamic The task of scientific methodologies qualitative and quantitative is to find out what that generality is It is the aim of this handbook to bring into one framework various directions of construction of methodology of the dynamic processes that exist in the social sciences at the beginning of the 21st century This handbook is set up to bring together pertinent methodological scholarship from all over the world and equally from the quantitative and qualitative orientations to methodology In addition to consolidating the pertinent knowledge base for the purposes of its further growth this book serves the major educational role of bringing practitioners students researchers and professionals interested in applications the state of the art know how about how to think about extracting evidence from single cases and about the formal mathematical statistical tools to use for these purposes

Emotional Mimicry in Social Context Ursula Hess, Agneta H. Fischer, 2016-03-11 Emotional mimicry has important social functions such as signalling affiliative intent and fostering rapport and is considered one of the cornerstones of successful interactions This multidisciplinary overview of research into emotional mimicry and empathy explores when how and why emotional mimicry occurs **Merleau-Ponty's Developmental Ontology** David Morris, 2018-10-15 Winner of the 2020 Edward Goodwin Ballard Prize in Phenomenology Merleau Ponty's Developmental Ontology shows how the philosophy of Maurice Merleau Ponty from its very beginnings seeks to find sense or meaning within nature and how this quest calls for and develops into a radically new ontology David Morris first gives an illuminating analysis of sense showing how it requires understanding nature as engendering new norms He then presents innovative studies of Merleau Ponty's The Structure of Behavior and Phenomenology of Perception revealing how these early works are oriented by the problem of sense and already lead to difficulties about nature temporality and ontology that preoccupy Merleau Ponty's later work Morris shows how resolving these difficulties requires seeking sense through its appearance in nature prior to experience ultimately leading to radically new concepts of nature time and philosophy Merleau Ponty's Developmental Ontology makes key issues in Merleau Ponty's philosophy clear and accessible to a broad audience while also advancing original philosophical conclusions **Human-Technology Interaction** Elena Malakhutka, Mikael Wiberg, 2025-04-08 Delves into the evolving landscape of human technology interaction HTI encompassing various facets from design and implementation to

psychological impacts and strategic considerations The book begins with foundational theories in HTI and strategic design progressing to practical applications and implications across multiple domains such as human robot interaction augmented and virtual reality and the Internet of Things Subsequent chapters explore the integration of AI and machine learning with human processes the psychological effects of technology and user experience design The authors address specialized areas including assistive technologies game design and the fusion of art science and technology and discuss the role of technology in learning and education and urban sustainability through digital innovations Concluding with a look at future trends like transhumanism Human Technology Interaction Interdisciplinary Approaches and Perspectives offers a comprehensive analysis of how technologies shape human experiences behaviours and societal development
