### **History After Hobsbawm**

John Arnold,Matthew Hilton,Jan Rüger,2018 What does it mean and what might it yet come to mean to write history in the twenty first century History After Hobsbawm brings together leading historians from across the globe to ask what being an historian should mean in their particular fields of study Taking their cue from one of the previous century s greatest historians Eric Hobsbawm and his interests across many periods and places the essays approach their subjects with an underlying sense of what role an historian might seek to play and attempt to help twenty first century society understand how we got here They present new work in their sub fields but also point to how their specialisms are developing how they might further grow in the future and how different areas of focus might speak to the larger challenges of history both for the discipline itself and for its relationship to other fields of academic inquiry Like Hobsbawm the authors in this collection know that history matters They speak to both the past and the present and in so doing introduce some of the most exciting new lines of research in a broad array of subjects from the medieval period to the present

### **Politics and Ideology in Canada**

Michael Ornstein,Michael Stevenson,2003-02-18 Winner of the Harold Adams Innis Prize Politics and Ideology in Canada examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation

Smith,1989-02-09

This study traces the evolution of imperialist ideology in Germany from Bismarck in the mid 19th century through Hitler and

the Third Reich Although much has been written about the virulently racist and anti communist ideologies of the Nazi party this is the first book to treat Nazi imperialism as a separate ideology and set it within a sturdy theoretical framework Smith contends that Nazi imperialism represented the last ambitious attempt to integrate two century old ideologies the elite pro industrial Weltpolitik and the popular based pro agrarian Lebensraum into a single system In fact Smith argues that it was largely the way in which the Nazis attempted to reconcile these contradictory ideologies that explains Germany s disastrous policies during World War II This wide ranging study also contributes to the debates over several other aspects of German history including German military aims in World War II the continuity or discontinuity of German policy from Bismarck to Hitler and the relation between ideology and social political life
