If Only Toads Could Fly:

If Only Toads Could Fly John I. Gilmore, 1993 Following on from the Wind in the Willows this tale is written for all those who enjoyed the sylvan charm and gentle humour of Kenneth Grahame's book **Literary Afterlife** Bernard A. Drew, 2010-03-08 This is an encyclopedic work arranged by broad categories and then by original authors of literary pastiches in which fictional characters have reappeared in new works after the deaths of the authors that created them It includes book series that have continued under a deceased writer's real or pen name undisguised offshoots issued under the new writer's name posthumous collaborations in which a deceased author's unfinished manuscript is completed by another writer unauthorized pastiches and biographies of literary characters The authors and works are entered under the following categories Action and Adventure Classics 18th Century and Earlier Classics 19th Century Classics 20th Century Crime and Mystery Espionage Fantasy and Horror Humor Juveniles 19th Century Juveniles 20th Century Poets Pulps Romances Science Fiction and Westerns Each original author entry includes a short biography a list of original works and information on the pastiches based on the author's characters *Memoir*, 1929 **The Eclectic Magazine** John Holmes Agnew, Walter Hilliard Bidwell, 1882 *The Eclectic Magazine of Foreign Literature, Science, and Art*, 1882 **Eclectic Magazine, and Monthly Edition of the Living Age** John Holmes Agnew, Walter Hilliard Bidwell, 1882 **Animal World**, 1925 Cane Toad Wars Rick Shine, 2018-03-20 In 1935 an Australian government agency imported 101 specimens of the Central and South American Cane Toad in an attempt to manage insects that were decimating sugar cane harvests In Australia the Cane Toad adapted and evolved with abandon voraciously consuming native wildlife and killing predators with its lethal skin toxin Today hundreds of millions of Cane Toads have spread across the northern part of Australia and continue to move westward The humble Cane Toad has become a national villain Cane Toad Wars chronicles the work of intrepid scientist Rick Shine who has been documenting the toad's ecological impact in Australia and seeking to buffer it Despite predictions of devastation in the wake of advancing toad hordes the author's research reveals a more complex and nuanced story A firsthand account of a perplexing ecological problem and an important exploration of how we measure evolutionary change and ecological resilience this book makes an effective case for the value of long term natural history research in informing conservation practice **Stepping Stones**, 1927 **Demorest's Monthly Magazine**, 1879 **Borax: The Jewel of Midnight** Douglas Kincaid, 2017-05-21 BORAX is a Black Book of Toadmanship which includes the rituals for procuring the toad's boon historical accounts alchemical relevance folk traditions surrounding horsemanship wortcunning witchcraft the Devil and necromancy It contains the Mystery section of the book which reflects upon both classical interpretations but as well as the author's own insights through mystic vision and praxis with the spirit that attends the Batrachian Boon The Jewel of Midnight serves the reader as they serve it School Education, 1896 The Pleasures of Contamination David C. Greetham, 2010 Through the concept of contamination David Greetham highlights various ways that one text may invade

another carrying with it a residue of potential meaning While the focus of this study is on written works the scope ranges widely over music politics art science philosophy religion and social studies Greetham argues that this sort of contamination is not only ubiquitous in contemporary culture but may also be a necessary and beneficial circumstance Tracing contamination from the Middle Ages onward he takes up issues such as the placement of quote marks in Keats's Ode to a Grecian Urn the controversy over the use of evidence for yellowcake uranium in Niger and the reconstitution of reality on YouTube to illustrate that the basic questions of evidence fact and voice have always been slippery concepts

Doing Without Adam and Eve Patricia A. Williams, 2001-06-19 In this provocative new addition to the Theology and the Sciences series Patricia Williams assays the original sin doctrine with a scientific lens and based on sociobiology offers an alternative Christian account of human nature's foibles and future Focusing on the Genesis 2 and 3 account Williams shows how its historical interpretation in early Christianity not only misread the text but derived an idea of being human profoundly at odds with experience and contemporary science After gauging Christianity's several competing notions of human nature Protestant Catholic and Orthodox against contemporary biology Williams turns to sociobiological accounts of the evolution of human dispositions toward reciprocity and limited cooperation as a source of human good and evil From this vantage point she offers new interpretations of evil sin and the Christian doctrine of atonement Williams's work frank in its assessment of traditional misunderstandings challenges theologians and all Christians to reassess the roots and branches of this linchpin doctrine
