European Migration Policies In Flux Changing Patterns Of Inclusion And Exclusion:

Sport Facing the Test of Cultural Diversity William Gasparini, Aurélie Cometti, 2010-01-01 Democratic management of cultural diversity has become a priority For The Council of Europe member states Sport is no exception to this concern Faced with the diversity of both participants and spectators sport becomes a vehicle for intercultural dialogue through its educational and socialising role This work lays out exchanges of experience in intercultural dialogue through sport it helps put into perspective the concepts of intercultural dialogue and integration as applied to sport and evoked in social and political debates in Europe The Enlarged Partial Agreement on Sport EPAS contributes To The development of European research on education through sport involving researchers from different countries This publication has been co ordinated and directed in co operation with the Agency for Education through Sport APELS

European Migration Policies in Flux Christina Boswell, 2003-11-21 European migration policies are undergoing significant changes After three decades of highly restrictive approaches demographic changes and gaps in labour supply are prompting many European governments to liberalize their migration policies Timely book examining the nature and impact of the changing migration policies in France Germany and the UK Analyses the content of new legislation as well as the policy debate and party political treatment of migration issues in each country Considers the implications of the new policies on other categories of migrants asylum seekers refugees and resident ethnic minorities

Migration Control Logics and Strategies in Europe Claudia Finotelli, Irene Ponzo, 2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions

Impact of Immigration and Xenophobia on Development in Africa Mafukata, Mavhungu Abel, 2020-12-25 Human movement has an influence on the socio economic dynamics of people regions and countries The schisms between host and immigrants impact how host countries utilize immigrant skills and expertise to benefit their economies However immigrants are impacted by negative diplomatic relations between countries that limit the free movement of people and the welfare of immigrants In association this brings about social challenges such as Afrophobia racism xenophobia hatred and violence within these countries While these challenges are deeply rooted across the world

Africa has its own unique challenges Still struggling with massive underdevelopment Africa needs to remove all the negative factors that could impede its quest of achieving development imperatives Impact of Immigration and Xenophobia on Development in Africa analyzes the genesis and evolution of immigration in Africa and how this has resulted in social challenges such as xenophobia within the continent The book focuses on demonstrating how immigrant skills and expertise can be positively utilized to assist African development and asserts the existence of xenophobia in respective countries does not assist Africa s quest of resolving its own challenges The chapters within this book therefore explore how this subsequent output of xenophobia has impacted African development and focuses on the revival of Pan Africanism as a uniting instrument and ideology for Africans This book is a valuable reference tool for activists retired and practicing politicians governments policymakers practitioners stakeholders researchers students and academicians

European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaacker,Markus Haverland,2006-09-01 The Three Waves of European Research European cooperation and integration has continued to progress forward over the past five decades with an ever deepening impact on the member states The first wave of research into these processes concerned European integration the process of institution building and policy developments at the European Union EU level The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels We posit that this third wave should be sensitive to the temporal dimension of European integration and Europeanization In particular we seek to link the processes of European integration and Europeanization in a new way by asking the question how has Europeanization affected current modes of integration and cooperation in the EU Part I Europeanization of the Member States Preparing the ground for the third wave the first part of the book concerns Europeanization In order to fully understand the feedback of Europeanization on cooperation and integration it is important to analyze how European integration has had an impact on member states in the first place in particular indirectly beyond the direct mechanism of compliance with European policies

International Handbook of Urban Policy: Contentious global issues H. S. Geyer,2007-01-01 This first Handbook in a series of three original reference works looks at globally contentious urban policy issues from a wide variety of different angles and perspectives Matters related to urban densification population mobility urban inequality and sustainability are analysed in a manner that will not only interest the advanced student but also the novice Urban policy covers a vast field This first volume combines chapters covering three broad themes policy issues pertaining to the spatial aspects of the city social and mobility issues and issues of urban governance The spotlight initially falls on urban structure urban densification the disappearing urban rural divide the urban economic landscape and the transformation of socialist economies The Handbook then goes on

to focus on migration social mobility crime terrorism and social inequality Finally urban sustainability and urban governance come under the spotlight Integration of the planning process flexibilities in infrastructure and areas of neglect in environmental management feature strongly in this section of the Handbook Books of this nature are often slanted in one particular direction however this Handbook's approach is different Not only has the editor avoided shying away from politically sensitive issues but contributions have also been included that reflect distinct differences of opinion on politically sensitive issues hence the volume's subtitle of contentious global issues As a Handbook the chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers of geography and urban and development planning demography and social science and environmental scientists for the focus on urban sustainability issues

Migrants Before the Law Tobias G. Eule, Lisa Marie Borrelli, Annika Lindberg, Anna Wyss, 2018-11-19 This book traces the practices of migration control and its contestation in the European migration regime in times of intense politicization The collaboratively written work brings together the perspectives of state agents NGOs migrants with precarious legal status and their support networks collected through multi-sited fieldwork in eight European states Austria Denmark Germany Italy Latvia Lithuania Sweden and Switzerland The book provides knowledge of how European migration law is implemented used and challenged by different actors and of how it lends and constrains power over migrants' journeys and prospects An ethnography of law in action the book contributes to socio-legal scholarship on migration control at the margins of the state This book is a major achievement A remarkable and insightful study that through close analysis of the practices of migration control in 8 European countries Austria Denmark Germany Italy Latvia Lithuania Sweden and Switzerland provides powerful new insight into the power of the state at its margins and over those that are marginalised Andrew Geddes Director Migration Policy Centre European University Institute

Migrants Before the Law provides a much needed account of the dizzying legal labyrinth that migrants navigate as they seek to survive in Europe Based on multi-sited ethnography in detention centres migration offices police stations and non-governmental organizations as well as on interviews with key government actors advocates and migrants themselves this book explores the systems of control and forms of migrant precarity that operate along Europe's internal borders in multiple national and transnational contexts Readers will come away with a deepened understanding of the perverse workings of power the ways that the uncertainty and unpredictability of law foster both despair and hope the degree to which the immigration crisis is both manufactured and experienced as real and the ingenuity of migrants themselves in the face of Kafkaesque state practices Susan Bibler Coutin Professor of Criminology Law and Society and Anthropology University of California Irvine USA *Migrants Before the Law* is an excellent exposition of the dispersed sites of the law and the hinges and junctions through which this apparatus is actualized in the lives of migrants facing deportation contesting their status as illegal migrants or seeking to regularize their precarious position Written with great sensitivity and an eye to minute details

this book is also an achievement in furthering the method of collaborative ethnography and new ways of staging comparisons

Veena Das Krieger Eisenhower Professor of Anthropology Johns Hopkins University USA *Xenophobia and Islamophobia in Europe* Raymond Taras, 2012-06-30 This cross national analysis of Islamophobia looks at these questions in an innovative even handed way steering clear of politically correct clichés and stereotypes It cautions that Islamophobia is a serious threat to European values and norms and must *European Internal Security* Christian Kaunert, 2018-07-30 European institutions are either loathed or underestimated This book analyses the role of EU institutions in the area of European internal security From Justice and Home Affairs this area has become more like a European Area of Freedom Security and Justice In this process the European Commission has demonstrably played the role of an engine of integration in areas such as counter terrorism policing asylum migration and border management This book uses the framework of supranational policy entrepreneurs SPE those who stand at the policy window in order to propose lobby for and sell their policy proposal and synthesises it with insights from the literature on norm entrepreneurship This book will be of great interest to scholars and practitioners interested in European internal security European integration terrorism security studies and international relations *The International Political Economy of Migration in the Globalization Era* Leila Simona Talani, 2021-09-28 This book concerns with the analysis of the impact of globalization on international migration from a distinct international political economy perspective It confronts theoretical debates from the different international political economy IPE approaches and elaborates on the implications of different theories in policymaking and political realms Here migration is examined as an integral part of the global political economy that is structurally connected to the process of globalization although the definition of globalization itself is a subject of enquiry *Refugee Protection and the Role of Law* Susan Kneebone, Dallah Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the signing of the Refugee Convention forced migration and refugee movements continue to raise global concerns for hosting states and regions for countries of origin for humanitarian organisations on the ground and of course for the refugee This edited volume is framed around two themes which go to the core of contemporary refugeehood protection and identity It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times The book investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement It argues that Protection which is a core focus of the Refugee Convention appears to be under threat as there are many gaps and inconsistencies in practice Contributors to the volume who include Erika Feller Elspeth Guild Helle Lambert and Roger Zetter look at the relevant issues from the perspective of a number of different disciplines including law politics sociology and anthropology The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice The situation in a number of jurisdictions and regions in Europe North America South East Asia Africa and the Middle East is explored in order to ask the question does jurisprudence under the

Refugee Convention need better coordination and how successful is oversight of the Convention The Political Uses of Expert Knowledge Christina Boswell, 2009-05-28 This book examines the role of knowledge in policy showing how policymakers use research to establish authority in contentious areas of policy **Remaking Urban Citizenship** Andrew M. Greeley, 2017-07-28 Due to heightened global migration and transnational mobility many residents of the world's cities lack national citizenship in the places to which they have moved for work refuge or retirement The disjuncture between citizenship and daily life has led to devolution of claims from national to urban space Within nation states characterized by structured inequalities citizens have not reduced their social differences This leads increasingly to calls for greater direct involvement of marginalized classes in reshaping the institutions and spaces directly affecting their lives These concerns cities without citizenship and people without political power inform the agendas of organizations that seek to restructure urban citizenship in more democratic directions *Remaking Urban Citizenship* focuses on the uses and limits of such political organizations and coalitions shows the various ways they pursue expanded rights within the city and describes the institutional changes necessary to empower global migrants and popular classes as urban citizens Offering individual or comparative case studies of cities in the United States Europe and China contributions to this volume describe the development of actual practices of organizations working to reinvigorate citizenship at the urban scale Collectively they locate institutional forms that help migrants lay claim to their cities show how migrants can become politically empowered and identify how they can expand their rights or find other ways to belong *Local Integration of Migrants Policy* Jochen Franzke, José M. Ruano de la Fuente, 2020-11-27 This book presents an overview of European migration policy and the various institutional arrangements within and between various actors such as local councils local media local economies and local civil society initiatives Both the role of local authorities in this policy field and their cooperation with civil society initiatives or networks are under explored topics for research In response this book provides a range of detailed case studies focusing on the six main groups of national and administrative traditions in Europe Germanic Scandinavian Napoleonic Southeastern European Central Eastern European and Anglo Saxon **The Boundaries of EU Enlargement** J. DeBardeleben, 2007-12-14 The 2004 and 2007 enlargements pushed the EU's external border further east as well as closer to unstable areas in the western Balkans With future enlargements unlikely in the short term the EU faces new challenges in securing stable relationships with these neighbouring countries while not fostering false hopes of early accession

Research Handbook on the Sociology of Migration Giuseppe Sciortino, Martina Cvajner, Peter J. Kivisto, 2024-01-18 Adeptly navigating one of the most pressing issues on the current global agenda this topical Research Handbook provides a comprehensive and research based exploration of the sociology of migration As well as highlighting the field's achievements and current challenges it explores key concepts used in current research methods employed and the spheres and contexts in which migrants participate **Politics and Law in Turkish Migration** Ibrahim Sirkeci, Doğa Elçin, Güven Şeker, 2015

POLITICS AND LAW IN TURKISH MIGRATION Edited by Ibrahim Sirkeci Do a El in and G ven eker Increasingly more scholars and analysts argue that migration controls are deemed to fail simply because of the dynamic nature of human mobility Nevertheless migration remains to be a hot topic on political agenda as well as a key area of legislation Turkey has recently implemented some serious structural changes through a new law of migration and creation of a specialist central general directorate responsible for handling almost anything and everything about migrants and foreigners in the country On the other hand politics and political participation of the Turks abroad is part and parcel of the integration debates strongly shaping the mainstream politics of immigration countries in Europe and beyond This book offers a number of research accounts investigating the political participation and integration new legislations and implications of policy and law on migration practices

Immigration, Integration, and Security Ariane Chebel D'Appollonia, Simon Reich, 2008-05-01 Recent acts of terrorism in Britain and Europe and the events of 9 11 in the United States have greatly influenced immigration security and integration policies in these countries Yet many of the current practices surrounding these issues were developed decades ago and are ill suited to the dynamics of today s global economies and immigration patterns At the core of much policy debate is the inherent paradox whereby immigrant populations are frequently perceived as posing a potential security threat yet bolster economies by providing an inexpensive workforce Strict attention to border controls and immigration quotas has diverted focus away from perhaps the most significant dilemma the integration of existing immigrant groups Often restricted in their civil and political rights and targets of xenophobia racial profiling and discrimination immigrants are unable or unwilling to integrate into the population These factors breed distrust disenfranchisement and hatred factors that potentially engender radicalization and can even threaten internal security The contributors compare policies on these issues at three relational levels between individual EU nations and the U S between the EU and U S and among EU nations What emerges is a timely and critical examination of the variations and contradictions in policy at each level of interaction and how different agencies and different nations often work in opposition to each other with self defeating results While the contributors differ on courses of action they offer fresh perspectives some examining significant case studies and laying the groundwork for future debate on these crucial issues

International Migration and Citizenship

Today Niklaus Steiner, 2009-09-10 International migration has emerged in the last decade as one of the world s most controversial and pressing issues This thought provoking textbook offers the reader a more nuanced and knowledgeable understanding of the complex economic political cultural and moral concerns that arise when people move across borders seeking admission into other countries Splitting the text into five broad sections Steiner facilitates easy navigation of the complex discussions that surround the issue of migration Section One Introduction examines how the central questions that frame the book will be addressed including what criteria should be used to admit migrants and How should a country grant citizenship Section Two Immigrants discusses the criteria for accepting immigrants dealing with the unwanted and assessing

the economic cultural and political impacts Section Three Refugees evaluates the methods used to protect refugees the controversies surrounding asylum and the shortcomings of current refugee definitions Section Four Citizenship charts the rise of nationalism presents modern issues of minority rights and diversity and examines processes of naturalization across the globe Section Five Conclusion considers more unconventional approaches to migration and citizenship and suggests moving towards a more holistic approach Carefully constructed to spark discussion and student reflection and featuring suggested resources at the end of each section this book offers dozens of contemporary examples and case studies from across the globe International Migration and Citizenship Today is essential reading for not only students of migration and citizenship but also globalization international relations and democracies

Spheres of Global Justice Jean-Christophe Merle, 2013-06-22 *Spheres of Global Justice* analyzes six of the most important and controversial spheres of global justice each concerning a specific global social good These spheres are democratic participation migrations cultural minorities economic justice social justice and intergenerational justice Together they constitute two constellations dealt with in this collection of essays by leading scholars in two different volumes *Global Challenges to Liberal Democracy* and *Fair Distribution* These essays illustrate each of the spheres delving into their differences commonalities collisions and interconnections Unlike many writings on global justice *Spheres of Global Justice* does not content itself with describing the painful and advantageous effects of the globalization process as being ipso facto a global injustice or a just global order Rather this multidisciplinary collection of essays from a pluralist inspiration combines empirical analysis with theoretical approaches and ethical principles paying close attention to two aspects of the effects of the globalization process These aspects are the causal relationships that lead to such effects and the kinds of obligations or of normative relationships between global rights and correlative duties that applies to each specific individual case This volume illustrates how diverse global obligations are and how they can be grounded in diverse relationships identity ability to provide help causal responsibility past injustices protection of agency and promotion of independence etc These essays also demonstrate that an ethical global approach has not only international or transnational but also domestic local and interpersonal dimensions
