Evaluating HIV/AIDS Treatment Programs George J. Huba, Lisa A. Melchior, Vivian Brown, A.T. Panter, Trudy A. Larson, Pauline Fitzpatrick, 2020-04-03 Create effective community based programs for substance abusers with HIV AIDS Substance abusers are the fastest growing population of people with HIV AIDS in the US and one of the hardest to reach and treat Evaluating HIV AIDS Treatment Programs offers new strategies for providing care for this vulnerable population The programs evaluated and discussed in this volume were funded as part of the DHHS Health Resources and Services Administration through its Special Projects of National Significance Program Collectively known as the SPNS Cooperative Agreement these 27 projects represent a diverse group of organizations with a common goal to improve the health quality of life and access to health care for traditionally underserved populations living with HIV AIDS Evaluating HIV AIDS Treatment Programs reports in detail the efforts of several community based HIV AIDS organizations in the SPNS program You will learn how these organizations provide high quality care for persons with HIV who are unlikely to obtain it in the traditional hospital based service system This volume offers specific proven strategies designed to overcome the linguistic cultural racial and economic barriers that make it difficult for some sick people to get the health care they need It also offers specialized medical care models that work within the context of a continuum of services in a medical clinic Evaluating HIV AIDS Treatment Programs also highlights other aspects of the Cooperative Agreement projects including a study of end stage AIDS care an overview of the HRSA HIV AIDS Bureau SPNS Cooperative Agreement grant initiative a study of conceptual issues in implementing program evaluation in real world community organizations discussion of the online Knowledge Base that summarizes and disseminates information from the Cooperative Agreement projects studies of ways to reach and care for specific populations with HIV AIDS including women Latinos Haitians adolescents and rural people This valuable volume offers solid data on treating people who are all too often neglected by the medical community even before they contract HIV AIDS The programs and ideas presented in Evaluating HIV AIDS Treatment Programs can be applied to other community based health initiatives and clinics offering medical care to underserved and vulnerable populations This essential resource deserves a permanent place on their bookshelf of any physician administrator or policymaker working in the fields of HIV/AIDS epidemiology public health or substance abuse Visit the book's website at http://www.TheMeasurementGroup.com/drugs_and_society.htm

The Next Generation of AIDS

Patients George J Huba, Vivian Brown, 2014-01-27 Go beyond traditional medical care to treat the whole person In the past ten years the treatment and epidemiology of AIDS have changed and HIV AIDS services must also change The Next Generation of AIDS Patients suggests new ways to find and care for persons living with AIDS not just by offering traditional medical treatment but by delivering needed support services as well This landmark book defines the startling shift in demographics of this phase of the epidemic The new AIDS patients have different problems than the white gay men who were strongly affected in the early days of the disease some are substance abusers or sex workers or their partners and many have children Clients who are homeless poorly educated not native English speakers or uninsured have overwhelming social support needs and need extra help to obtain their medical requirements The Next Generation of AIDS Patients offers detailed analyses to help you determine clients needs and vulnerability levels so you can provide complete biopsychosocial services In addition the original empirical research in this book reveals which programs deliver the best outcomes for various client populations The Next Generation of AIDS Patientssupplies you with an effective data modeling approach for determining levels of vulnerability and need and discusses such vital issues as identifying and overcoming barriers to HIV care engaging and retaining in care individuals with high levels of unmet need delivering services to diverse minority populations substance abusers homeless people and those who live in rural areas client satisfaction in community service organizations In order to develop successful community based health care and support services medical and social work professionals must take the new face of this disease into account The Next Generation of AIDS Patients offers practical advice readily applicable theory and proven strategies for caring for people living with AIDS
