## Evaluation And Poverty Reduction:

*Evaluation and Poverty Reduction* Osvaldo N. Feinstein, Robert Picciotto, In his foreword the president of the World Bank James D Wolfensohn states plainly and precisely the rationale for this volume Evaluation is a central aspect of any poverty reduction endeavor Evaluation implies that we have adopted a methodology that allows us to look in an effective way at the results of what we are doing so that we can in turn adapt our future actions toward the effective achievement of our goals Evaluation adds value if we can learn something useful from it It is not just a scorecard It is something that helps us change our behavior or influence the behavior of others This high powered collection of papers illustrates this statement The network of world class scholars and development practitioners covers the gamut from methodological issues to policy concerns with respect to participatory evaluation poverty reducing growth macro and micro levels of intervention health nutrition and population programs social inclusion and the changing role of the civil society The participants include major figures including a Nobel Laureate as well as cutting edge policy makers Poverty reduction is examined in innovative ways utilizing state of the art techniques of the social and economic sciences The editors and contributors emphasize what works in poverty reduction programs They point to making interventions context specific with a holistic vision of the problem Contributors emphasize social funds and safety nets social services crisis prevention informal social security and insurance systems anti corruption programs mobilization of the poor and ultimately the creation where none existed in the past of a workable civil society In short this volume lies at the intersection of development economics and political economy It seeks to promote development effectiveness through social learning and problem solving The volume is unabashedly focussed on pro poor growth It has its roots in a conference sponsored by the Operations Evaluation Department an independent unit within the World Bank The goals of evaluation are to learn from experience to provide an objective basis for assessing the results of the Bank's work and to provide accountability in the achievement of its objectives Osvaldo N Feinstein is a manager and Robert Picciotto director general of the Operations Evaluation Department The World Bank is located in Washington D C with offices throughout the developing world

**Evaluation and Poverty Reduction** Osvaldo Néstor Feinstein, Robert Picciotto, 2000-01-01 Many different organizations and institutions around the world came together for a conference to discuss the meaning of evaluation in poverty reduction Their goals during the two day conference were first to identify lessons from past efforts to evaluate poverty reduction programs second to search for the new evaluation frontier in methodology for future poverty reduction programs and third to discuss how partnerships in evaluation can be promoted and how to use evaluation results more effectively This volume contains the proceedings of that conference *Evaluation and Poverty Reduction* Osvaldo N. Feinstein, 2017 Provided by publisher [Social Research and Evaluation of Poverty Reduction Project](#) [REDACTED], 2013-02-28

**Poverty Reduction Support Credits** World Bank, 2010-05-21 This evaluation examines the relevance and effectiveness of Poverty Reduction Support Credits PRSCs introduced by the Bank in early 2001 to support

comprehensive growth improve social conditions and reduce poverty in IDA countries PRSCs were intended to allow greater country ownership provide more predictable annual support exhibit more flexible conditionality and strengthen budget processes in a results based framework By September 2009 the Bank had approved 99 PRSCs totaling some 7.5 billion and representing 38% percent of IDA policy based lending The evaluation finds that in terms of process PRSCs were effective in easing conditionality increasing country ownership and aid predictability stimulating dialogue between central and sectoral ministries and improving donor harmonization In terms of content PRSCs succeeded in emphasizing public sector management and pro poor service delivery Yet in terms of results it is difficult to distinguish growth and poverty outcomes in countries with PRSCs from other better performing IDA countries There is scope for further simplifying the language of conditionality and underpinning PRSCs with better pro poor growth diagnostics PRSCs can also strengthen their results frameworks and limit sector policy content in multi sector DPLs to high level or cross cutting issues Today Bank policy has subsumed PRSCs under the broader mantle of Development Policy Lending and the rationale for a separate brand name although differences linger from the past Since PRSCs and other policy based lending have gradually converged in design remaining differences compared to other Development Policy Loans should be clearly spelled out or the separate PRSC brand name should be phased out

**Evaluating the Complex** Kim Forss, Mita Marra, Robert Schwartz, 2017-07-12 In the economic atmosphere following the crisis of 2008 not only have governments reacted by creating more complex policy initiatives but they have also promised that all of these initiatives will be evaluated Due to the complexity of many of the initiatives the ways of evaluating are becoming equally complex The book begins with a theoretical and conceptual explanation of the process and shows how this translates into the practice of evaluation The chapters cover a wide variety of subjects such as poverty homelessness smoking prevention HIV AIDS and child labor The use of case studies sheds light on the conceptual ideas at work in organizations addressing some of the world's largest and most varied problems The evaluation process seeks a balance between order and chaos The interaction of four elements simplicity inventiveness flexibility and specificity allows complex patterns to emerge The case studies illustrate this framework and provide a number of examples of practical management of complexity in light of contingency theories of the evaluation process itself These theories in turn match the complexity of evaluated policies strategies and programs The evaluation process is examined for its impact on policy outcomes and choices

Annual Review of Development Effectiveness 2006 Monika Huppi, 2006 The results agenda

adopted by the World Bank and other donors aims to ensure that development assistance yields sustainable poverty reduction. Effective poverty reduction results from three main factors: sustained and inclusive growth, effective service delivery to the poor, and capable public sector institutions that are accountable to stakeholders for the results they achieve. The Annual Review of Development Effectiveness 2006 assembles evaluative evidence around three questions central to poverty reduction: How effectively has economic growth translated into poverty reduction in Bank assisted countries and what factors have affected these results? What factors have led to high quality results in areas that deliver services to the poor? What measures help raise the accountability of public institutions responsible for delivering and sustaining these results? The report identifies three key areas where the World Bank can further strengthen its effectiveness in helping countries reduce poverty. Economic growth has improved in many Bank client countries but a stronger focus on the nature of growth is needed to ensure that such growth leads to jobs for the poor and productivity increases in poorer regions and sectors where the poor earn their incomes. Consistent use of a clearly articulated results chain helps ensure that Bank country assistance programs and individual projects set realistic objectives that key cross sectoral constraints to achieving them are adequately considered and that due attention is given to building capacity. A realistic assessment of the political economy of governance related reforms is needed to tailor efforts to increase the accountability of public sector institutions to local conditions.

Results and Performance of the World Bank Group, 2010. This review provides an independent assessment of the World Bank Group's performance in achieving key development objectives with a special focus on support for environmentally sustainable development consistent with economic growth and poverty reduction. **From Schooling Access to Learning Outcomes, an Unfinished Agenda**, 2006. This document is an evaluation of World Bank support to primary education. It has two objectives. The first is to assess World Bank assistance to countries in their efforts to improve their basic knowledge and skills base through the provision of quality primary education particularly since the beginning of the Education for All (EFA) movement in 1990. The second objective is to provide lessons for countries in their development strategies and for the Bank in its support of those strategies. **Debt Relief for the Poorest** Shonar Lala, Rupa Ranganathan, Brett Libresco, 2006-01-01. This study evaluates progress under the HIPC initiative since IEG's 2003 evaluation. It finds that the Enhanced HIPC initiative cut debt ratios in half for 18 countries but in eight of these countries the ratios have come to once again exceed HIPC thresholds. Debt reduction alone is not a sufficient instrument to affect the multiple drivers of debt sustainability. Sustained improvements in export diversification, fiscal management, the terms of new financing and public debt management are also needed measures that fall outside the ambit of the HIPC initiative. Financial Sector Assessment Program Lily L. Chu, 2006-01-01. The Financial Sector Assessment Program (FSAP) is a major initiative undertaken jointly by the World Bank and the IMF in response to the financial crises of the late 1990s. The ultimate objectives of the program are i) the identification and resolution of financial sector vulnerabilities and their macroeconomic stability implications and ii) fostering

financial sector development and its contribution to economic growth In addition the FSAP was expected to help the Bank Fund and other institutions design appropriate assistance to address issues identified by the FSAP The evaluation found that the FSAP is a good quality diagnostic tool Joint Bank Fund cooperation has allowed an integrated approach towards financial sector vulnerabilities and development needs and has expanded the depth and quality of the skills base The assessments however fall short in prioritizing recommendations and integrating the findings and recommendations of the assessments into its overall programs
