Everybody's Different Nancy B. Miller, Catherine C. Sammons, 1999 Featuring awareness activities that show us how we see differences this book helps us enrich our interactions with people who have disability differences The authors explore how our reactions to and beliefs about disabilities influence our progress toward an inclusive society and share their innovative approach to becoming more at ease with the concept of disability With specific interaction tips this enlightening guide gives us practical ways to improve our personal professional and community relationships

A Practical Guide to Autism Fred R. Volkmar, Lisa A. Wiesner, 2009-08-17 Autism is in the public spotlight now more than ever as new research and information appears almost daily Although in many ways this is a positive development it also presents challenges to families and practitioners who want to keep up with the latest developments and are left to sift through new information by themselves to see what is credible and relevant for them Each of us needs a personal research assistant who can determine which information we need to pay attention to and let us know how it might affect our daily work and the children we are living with or serve Since we each don't have our own research assistants on staff I am delighted to recommend this wonderful book by Fred Volkmar and Lisa Wiesner Both of these talented professional leaders have combined their scientific skills and understanding of the field with great practical experience and ideas about how research can be translated into clinical practice The result is a book that provides the best and most comprehensive information about recent scientific developments and a splendid practical guide for how they are being implemented and what we are learning in the process The issues are presented in all of their complexity but translated into language that is clear direct and easy to follow The format also lends itself to understanding the complex issues and their implications through excellent charts question and answer sections and chapters that vary from describing diagnostic issues to stating very specifically how to expand and evaluate the services one is receiving The comprehensive references and lists of additional resources also add greatly to the overall package As a professional dedicated to understanding scientific advances and helping families and teachers to utilize them most effectively I am very pleased to have an ally like this book available I am very grateful to the authors for providing a very credible practical and relevant addition to our field to help the many advocates and family practitioners to better understand the exciting new developments and how they can

be implemented in our day to day work Those taking the time to read through this superb volume will find it time well spent that pays back dividends in many different ways

Disability and Qualitative Inquiry Ronald J. Berger, Laura S. Lorenz, 2016-03-09 This groundbreaking text makes an intervention on behalf of disability studies into the broad field of qualitative inquiry Ronald Berger and Laura Lorenz introduce readers to a range of issues involved in doing qualitative research on disabilities by bringing together a collection of scholarly work that supplements their own contributions and covers a variety of qualitative methods participant observation interviewing and interview coding focus groups autoethnography life history narrative analysis content analysis and participatory visual methods The chapters are framed in terms of the relevant methodological issues involved in the research bringing in substantive findings to illustrate the fruits of the methods In doing so the book covers a range of physical sensory and cognitive impairments This work resonates with themes in disability studies such as emancipatory research which views research as a collaborative effort with research subjects whose lives are enhanced by the process and results of the work It is a methodological approach that requires researchers to be on guard against exploiting informants for the purpose of professional aggrandizement and to engage in a process of ongoing self reflection to clear themselves of personal and professional biases that may interfere with their ability to hear and empathize with others

Voices from the Spectrum Cindy N. Ariel, Robert A. Naseef, 2006 This compelling collection of personal accounts from people on the autism spectrum and those who care for them presents insights into autism from many different perspectives The contributors describe their experiences including reactions to diagnosis and childhood memories

Children with Disabilities in America Philip L. Safford, Elizabeth J. Safford, 2005-12-30 Images of disabled children are found throughout well known works of literature film and even opera Their characters range from sweet to brave to tragic Disabled children are also a part of the reality of life either in personal ways or as poster girls and boys for drives and causes Behind these images is a historical presence that has been created by the societies in which these children live and have lived This work examines current knowledge about children s experience of physical cognitive and emotional behavioral impairments from the Colonial period to the present while revealing the social constructions of both disability and childhood throughout American history Just as disability has been advanced as an essential consideration in other historical inquiries such as that of gender this is a work intended to demonstrate the critical role of disability with respect to the history of childhood

Essential Clinical Guide to Understanding and Treating Autism Fred R. Volkmar, Lisa A. Wiesner, 2017-08-21 Coauthored by the premier expert on autism in the United States and an experienced academic and practicing pediatrician this volume provides concise and practical information based on the most up to date research and clinical experience for primary care givers around the world Showing clinicians how to most effectively use evidence based techniques this invaluable guide offers primary care providers

access to expert current research and practice guidelines allowing them to confidently support children who present with symptoms of autism Ability Speaks: Talking with a person with disability Ellen Bouchard Ryan, Karen A. Bannister, 2009

Community Disability Services Ian James Dempsey, Karen Nankervis, 2006 The first Australasian text on community disability services to provide a ready source of evidence based practice and service management guidelines It seeks to provide an integration of principles policy and practice in disability service provision in the 21st century **Disability, Augmentative Communication, and the American Dream** Ronald J. Berger, Jon A. Feucht, Jennifer Flad, 2013-12-12 *Disability Augmentative Communication and the American Dream* is a collaborative effort to tell the life story of Jon A Feucht a man who was born with a form of cerebral palsy that left him reliant on a wheelchair for mobility with limited use of his arms and an inability to speak without an assistive communication device It is a story about finding one s voice about defying low expectations about fulfilling one s dreams and about making a difference in the world Sociologist C Wright Mills famously called for a sociological imagination that grapples with the intersection of biography and history in society and the ways in which personal troubles are related to public issues *Disability Augmentative Communication and the American Dream* heeds this call through a qualitative mixed methods study that situates Feucht s life in broader social context understanding disability not just as an individual experience but also as a social phenomenon In the tradition of disability

studies it also illuminates an experience of disability that avoids reading it as tragic or pitiable Disability Augmentative Communication and the American Dream is intended as an analytical and empirical contribution to both disability studies and qualitative sociology to be read by social science scholars and students taking courses in disability studies and qualitative research as well as by professionals working in the fields of special education and speech pathology Written in an accessible style the book will also be of interest to lay readers who want to learn more about disability issues and the disability experience Resources in Education ,1999-10

Theology without Words Wayne Morris,2016-02-17 This book is a study of a Christian theology without words focussing on theology in the Deaf Community Deaf people s first and preferred method of communication is not English or any other spoken language but British Sign Language a language that cannot be written down Deaf people of faith attend church on a regular basis profess faith in God and have developed unique approaches to doing theology While most Western theology is word centred and is either expressed through or dependent on written texts theology in the Deaf Community is largely non written This book presents and examines some of that theology from the Deaf Community and argues that written texts are not necessary for creative theological debate a deep spirituality or for ideas about God to develop

Parenting Mentally Ill Children Craig Winston LeCroy,2011-03-03 This in depth exploration uses individual portraits to show what parents face as they love and care for their mentally ill children and cope with how the mental health system has failed them The Surgeon General has identified children s mental illness as a national problem that creates a burden of suffering so serious as to be considered a health crisis Yet what it means to be the parent of a mentally ill child has not been adequately considered until now Parenting Mentally Ill Children Faith Caring Support and Survival captures the essence of caring for these youngsters providing resources and understanding for parents and an instructive lesson for society Author Craig Winston LeCroy uses in depth interviews to chronicle the experiences of parents of mentally ill children as they attempt to survive each day obtain needed help and reach out for support and he lets them share their misunderstood emotions of shame anger fear guilt and powerlessness in the face of stigma from professionals family and friends The book concludes with a critical appraisal of the social policies that must be implemented to help and the reasons we should feel obligated to initiate them
