Ideology And Superstructure In Historical Materialism:

Ideology and Superstructure in Historical Materialism Franz Jakubowski, 1990 Ideology and Superstructure was written at a time in the inter war years when Marxism existed almost entirely in its Stalinist form Franz Jakubowski set out to reintroduce the centrality of the Hegelian dialectic into Marx's method and to elaborate the concept of praxis In the same period only Lukacs and Korsch attempted to deal systemically with these problems and it is they who are generally recognised as the main inspiration behind what is called Western Marxism yet Franz Jakubowski is a key figure in the development of Marxist thought And unlike the others Jakubowski was also an activist and for this reason avoids the unnecessarily dense language of his fellow theoreticians Ideology and Superstructure is rare in that it successfully conveys complex problems in a simple and straightforward form At a time when the literature on Marx has become excessively obscurantist Jakubowski's work serves as a useful antidote and is an ideal text for introducing novices to the basics of Marxist theory

Materiality and Subject in Marxism, (Post-)Structuralism, and Material Semiotics Johannes Beetz, 2016-08-20 In recent decades what is known as the subject has been problematized by various old and new materialisms and today appears as decentered in and by language split by the unconscious deformed by social forces governed by ideology and is either seen to have succumbed to the postmodern condition or to never have existed in the first place Every materialist theory of the subject depends on a conception of materiality which can delineate the character of what the material reality which de-centers or constitutes the subject consists of

Materiality and Subject in Marxism Post Structuralism and Material Semiotics investigates the relation between materiality and the subject in the materialist approaches of Marxism post structuralism and material semiotics None of these approaches subscribes to a reductionist materialism rather they conceive of materiality as multiple complex and not reducible to tangible matter For each approach the modalities of materiality of the respective materialism are defined The relationship between the multiple materialities and the subject constituted and decentered in this relationship are presented as specific to the theoretical approaches discussed

Biography of a Blunder Dileep Edara, 2016-02-29 Engaging with a critical analysis of the base and superstructure thesis regarding which a surprising number of reputed Marxist thinkers betray a perpetual ambivalence by frequently deploying it in a variety of contexts but simultaneously airing various reservations about it this book proposes a radical departure from the presently predominant understanding of it The popular view of the base as comprising economics and superstructure as encompassing almost all other spheres of social life is criticised as panoramic or panoptic or the extended version to which Marx's rigorously defined base of production relations and superstructure of politico legal spheres is juxtaposed Revisiting Marx's formulations in his famous 1859 Preface described here as his purloined letters the study rehabilitates his restricted version and upholds its conceptual superiority over its extended avatar that is currently ubiquitous The substitution of Marx's restricted version with the widely believed extended version of the thesis is characterised here as a blunder and this book traces the biography of

this blunder through the intricate and tortuous theoretical developments that traverse a transnational and multidisciplinary territory constituting the history of Marxism The last chapter argues for a paradigm shift in favour of the mode of production thesis in order to redeem the holistic vision of Marx This shift is necessitated by the extenuation of the status of the base and superstructure thesis that results from the restoration of Marx's restricted version This chapter grapples with the issues involved in preparing the ground for that shift It also contends that although these theoretical shifts are never formulated in a conscious and conclusive manner as is done here the best practices in Marxist analyses are always inspired by the methodological implications of the mode of production thesis and for this reason the thesis is claimed to be the conceptual unconscious of Marxism

The Prism of Science Edna Ullmann-Margalit, 2012-12-06 This is the second volume of Proceedings of the Israel Colloquium for the History Philosophy and Sociology of Science At the time that this preface is being written the fourth annual series of lectures within the framework of the Israel Colloquium is already behind us and the fifth is underway The Israel Colloquium thus has now not only a future to look forward to but also a past which is a source of pride and pleasure for those who take part in this venture The Israel Colloquium has I believe struck roots in the Israeli scientific and intellectual life while drawing on the ever increasing readiness of the international scientific and intellectual community for continuous support As in the first volume here too the papers presented taken together attempt a threefold representation of science and of the scientific activity the historical the social and the systematic A novel focal point in this volume is the treatment of some case studies illuminating historical social and philosophical aspects of medicine Another center of gravity here is the Eddington Centennial Symposium which was a main event in the Colloquium activity of the 1982-83 series This is a fitting place for me to report with sorrow the untimely death in the summer of 1984 of Solly G Cohen one of Israel's leading scientists who is among the contributors to this volume

Capitalism, Class and Revolution in Peru, 1980-2016 Jan Lust, 2018-07-03 In an analysis of political economic and social development in Peru in the years between 1980 and 2016 this book explores the failure of the socialist Left to realize its project of revolutionary social transformation Based on extensive interviews with leading cadres in the struggle for revolutionary change and a profound review of documents from the principal socialist organizations of the 1980s and 1990s the volume reveals that the socialist Left did not fully comprehend

the deep political and social implications of changes to the country's class structures. As such, the Left failed to develop and implement adequate strategic and tactical responses to the processes that eroded its political and social bases in the 1980s and 1990s, ultimately leading to its loss of social and political power. Lust concludes that the continued political and organizational agony of the Peruvian socialist Left and the hegemony of neoliberalism in society is a product of the dialectical interplay between the objective and subjective conditions that determine Peruvian capitalist development. *Marxism and History* S. H. Rigby, 2024-06-04 This critically acclaimed book, now in its second edition, is firmly established as an essential guide to this recent historiographical debate. Adopted as a set book by the Open University, it is an indispensable guide to Marxist historiography for undergraduates. **Post-Marxist Alternatives** Nicos P. Mouzelis, 1992-06-18 Mouzelis puts forward a post-Marxist conceptual framework which overcomes economic reductionism while retaining some distinctive features of the Marxist paradigm which are seen to be indispensable for an examination of how whole social orders are constituted, maintained, and transformed. **Social Theory and Modernity** Timothy W. Luke, 1990-10 Social Theory and Modernity combines the analytical techniques of political theory and comparative politics as a method for conducting innovative inquiry and research in political science. The focus of political theory, for example, results in new issues for historical and cross-national comparative analysis, whereas comparative analysis provides new parameters for analyzing the ideology of social institutions. Luke elaborates upon Rousseau's discursive style and critical methods, Marx's historical materialism, Marcuse's instrumental rationality, Weber's interpretive method, Gramsci's theoretical tactics, Cabral's theory of critique and revolution, and Foucault's system of political and social analysis. The book concludes by offering **Cultural Revolution and Revolutionary Culture** Alessandro Russo, 2020-08-28 In *Cultural Revolution and Revolutionary Culture*, Alessandro Russo presents a dramatic new reading of China's Cultural Revolution as a mass political experiment aimed at thoroughly reexamining the tenets of communism. Russo explores four critical phases of the Cultural Revolution, each with its own reworking of communist political subjectivity: the historical theatrical prologue of 1965, Mao's attempts to shape the Cultural Revolution in 1965 and 1966, the movements and organizing between 1966 and 1968, and the factional divides that ended them and the mass study campaigns from 1973 to 1976, and the unfinished attempt to evaluate the inadequacies of the political decade that brought the Revolution to a close. Among other topics, Russo shows how the dispute around the play *Hai Rui Dismissed from Office* was not the result of a Maoist conspiracy but rather a series of intense and unresolved political and intellectual controversies. He also examines the Shanghai January Storm and the problematic foundation of the short-lived Shanghai Commune. By exploring these and other political-cultural moments of Chinese confrontations with communist principles, Russo overturns conventional wisdom about the Cultural Revolution. Herbert Marcuse and the Crisis of Marxism Douglas Kellner, 1984-01-01 This book provides a critical overview of the entirety of Marcuse's work and discusses his enduring importance. Kellner had extensive interviews with Marcuse and provides hitherto unknown information about his

road to Marxism his relations with Heidegger and Existentialism his involvement with the Frankfurt School and his reasons for appropriating Freud in the 1950s In addition Kellner provides a novel interpretation of the genesis and structure of Marcuse's theory of one dimensional society of the development of his political theory and of the role of aesthetics in his critical theory *The Bourgeois Charm of Karl Marx & the Ideological Irony of American Jurisprudence* Dana Neacsu,2019-12-09 The Bourgeois Charm of Karl Marx it is negotiated by S1 and those theories interpellate S2 according to their own private and public subjectivity which covers their ideology Negotiated meaning is always a surprise to both S1 and S2 surprise which is both ironic and ideological The book has ten chapters an index and a list of references The Gramscian Moment Peter Thomas,2009-07-31 Winner of the Premio internazionale Giuseppe Sormani 2011 awarded by the Fondazione Istituto Piemontese Antonio Gramsci in Turin for the best book article on Gramsci in the period between 2007 2011 internationally Antonio Gramsci's Prison Notebooks are today acknowledged as a classic of the human and social sciences in the twentieth century The influence of his thought in numerous fields of scholarship is only exceeded by the diverse interpretations and readings to which it has been subjected resulting in often contradictory images of Gramsci This book draws on the rich recent season of Gramscian philological studies in order to argue that the true significance of Gramsci's thought consists in its distinctive position in the development of the Marxist tradition Providing a detailed reconsideration of Gramsci's theory of the state and concept of philosophy The Gramscian moment argues for the urgent necessity of taking up the challenge of developing a philosophy of praxis as a vital element in the contemporary revitalisation of Marxism **The Possibility of Naturalism** Roy Bhaskar,2024-11-01 Since its original publication in 1979 The Possibility of Naturalism has been one of the most influential works in contemporary philosophy of science and social science It is one of the cornerstones of the critical realist position which is now widely seen as offering perhaps the only viable alternative to positivism and post modernism This revised edition includes a new foreword **Selected Writings on Marxism** Stuart Hall,2021-03-22 Throughout his career Stuart Hall engaged with Marxism in varying ways actively rethinking it to address the political and cultural exigencies of the moment This collection of Hall's key writings on Marxism surveys the questions central to his interpretations of and investments in Marxist theory and practice It includes Hall's readings of canonical texts by Marx and Engels Gramsci and Althusser his exchanges with other prominent thinkers about Marxism his use of Marxist frameworks to theorize specific cultural phenomena and discourses and some of his later work in which he distanced himself from his earlier attachments to Marxism In addition editor Gregor McLennan's introduction and commentary offer in depth context and fresh interpretations of Hall's thought Selected Writings on Marxism demonstrates that grasping Hall's complex relationship to Marxism is central to understanding the corpus of his work Historical Materialism Nikolai Bukharin,2013-06-17 First published in English in 1926 this work by Nikolai Bukharin a highly influential Marxist and Soviet Politician who would later become one of the most famous victims of Stalin's show trials expands upon Karl Marx's theory of

historical materialism Offering a Marxist interpretation of sociology this reissue is important not only from a sociological and economic perspective but is also extremely valuable as a socio historical document of contemporary thought in the Soviet Union in the years following the Bolshevik revolution

Infinite Greed Adrian Johnston, 2024-05-14 Selfishness is essential to capitalism or so both advocates and opponents claim In *Infinite Greed* Adrian Johnston argues that this consensus is mistaken Through a novel synthesis of Marxism and psychoanalysis he reveals how the relentless pursuit of profits is not fundamentally animated by human acquisitiveness Instead capitalism's strange infinite greed demands that individuals sacrifice their pleasures their well being and even themselves to serve inhuman capital Johnston traces the mechanisms that compel capitalist subjects to obey the cold imperative to accumulate in perpetuity and without limits and also without regard for the consequences for everyone and everything else Facing crises such as spiraling wealth inequality and the profit driven prospect of a looming ecological apocalypse the rational self interest of the majority would seem to dictate putting a stop to capitalist accumulation By bringing together the Marxian critique of political economy with psychoanalytic metapsychology Johnston shows why and how capitalism rather than being responsive to people's rationally selfish interests disregards and overrides them instead Unlike previous syntheses of Marxism and psychoanalysis *Infinite Greed* pairs Freudian and Lacanian concepts with the economic heart of Marx's historical materialism In so doing Johnston brings to light the complex intertwining of political and libidinal economies keeping us invested and complicit in perpetuating capitalism and its ills

Crusoe's Footprints Patrick Brantlinger, 2013-02-01 Cultural Studies has emerged in British and American higher education as a movement that challenges the traditional humanities and social science disciplines Influenced by the New Left feminism and poststructuralist literary theory cultural studies seeks to analyze everyday life and the social construction of subjectivities *Crusoe's Footprints* encompasses the movement of many colleges and universities in the 1960s towards such interdisciplinary and radical programs as American Studies Women's Studies and Afro American Studies Brantlinger also examines the role of feminist criticism which has been particularly crucial in both Britain and the U S
